## FOREWORD

The History and Final Disposition of Legislative Documents includes a summary of the Legislature's action on all legislative documents considered during the First Regular Session of the 114th Legislature. The document is produced from information which is compiled by the Legislative Information Office throughout the legislative session and maintained on a computerized bill status system. Status information is available through designated public computer terminals located throughout the State House, by means of remote access through the State's Bureau of Data Processing, and by subscription for weekly printed reports through the Clerk of the House.

The primary listing of legislative documents in this volume is organized by committee to which bills were referred, thus providing the user with a broad subject classification. This section includes the following information for each legislative document:

- Legislative document number
- House or Senate paper number
- Sponsor and cosponsors
- Committee to which the legislative document was referred
- Public hearing date
- Committee report
- Amendments adopted in the House and Senate
- Final disposition of the legislative document

A list of the Legislature's Joint Standing Committees and their jurisdictions follows this Foreword.

Following this major section of the book is a series of indexes to assist the user find the bill or subject needed. See the Table of Contents for a list of these indexes.

One of these indexes, the Subject Index uses terms to describe the scope and topics of the bill and its amendments. Most bills are indexed under more than one subject, and cross references are designed to assist the user in finding the subject. In cases where an amendment introduced a new topic, a subject entry appears for that topic whether or not the amendment is adopted. If an amendment deletes a topic from a bill, the subject is left in the index as part of the history of the bill. Thus the History and Final Disposition of Legislative Documents indexes all legislative documents in any form in which they have been considered.

The History and Final Disposition of Legislative Documents is a summary report only and does not replace the official Senate and House journals or the actual legislative documents. If more detailed status information is desired, please contact the Legislative Information Office at 289-1692 or the Senate or House offices for assistance. If you have any comments or suggestions, please forward them to the Legislative Information Office.
