## FOREWORD

The History and Final Disposition of Legislative Documents includes a summary of the Legislature's action on all legislative documents considered during the First Regular Session and the First Special Session of the 115th Legislature. The document is produced from information which is compiled by the Legislative Information Office throughout the legislative session and maintained on a computerized bill status system. (Status information is available through designated public computer terminals located throughout the State House, by means of remote access through the State's Bureau of Data Processing, and by subscription for weekly printed reports through the Clerk of the House.)

The primary listing of legislative documents in this volume is organized by the joint standing committee to which bills were referred. This section includes the following information for each legislative document:

- Legislative document number
- House or Senate paper number
- Sponsor and cosponsors
- Public hearing date
- Committee report
- Amendments adopted in the House and Senate
- Final disposition of the legislative document

A list of the Legislature's Joint Standing Committees and their jurisdictions follows this Foreword.

Following the listing by committee is a series of indexes which are designed to assist the user in finding the bill or subject needed. The Table of Contents includes a list of these indexes.

One of these indexes, the Subject Index, uses terms to describe the scope and topics of the bill and its amendments. Most bills are indexed under more than one subject, and cross references are designed to assist the user in finding the subject. Appropriations bills are indexed showing the part and section where the subject can be found within the legislative document. Other bills with a funding section are also indexed under the "Appropriations" heading. In cases where an amendment introduced a new topic, a subject entry appears for that topic whether or not the amendment is adopted. If an amendment deletes a topic from a bill, the subject is left in the index as part of the history of the bill; thus the Subject Index indexes all legislative documents in any form in which they have been considered.

The History and Final Disposition of Legislative Documents is a summary report only and does not replace the official Senate and House journals or the actual legislative documents. If more detailed information about the status of bills or their contents is desired, please contact:
