SUMMARY

20

This amendment is the majority report of the committee. The amendment expands health insurance coverage for autism spectrum disorders to persons 10 years of age and under, whereas the bill expands it to persons 21 years of age and under. Current law requires coverage for persons 5 years of age and under. The provision applies to individual, group health and individual and group health maintenance organization insurance policies, contracts and certificates issued or renewed on or after January 1, 2015.

Fiscal Detail and Notes

Expanding required coverage for autism spectrum disorders to children 10 years of age or under from the current law requirement of 5 years of age or under is estimated to have an overall cost to the State Employee Health Insurance Program of \$101,100 in 2015-16 and \$109,200 in 2016-17 based on an assumed cost of 0.05% of total claims. Of this total, the cost to General Fund programs is estimated to be \$42,897 in 2015-16 and \$46,334 in 2016-17. The impact on Highway Fund programs is estimated to be \$16,042 in 2015-16 and \$17,328 in 2016-17. Because of the bill's effective date for plan years beginning on or after January 1, 2015, it is not assumed to have an impact in the current biennium given the State's current July through June plan year.

Based on its experience with the implementation of the required private insurance coverage to children up to age 5 and the lack of any significant third party savings realized, the Department of Health and Human Services does not believe the savings to the MaineCare program from the expansion to children up to 10 years of age will be significant.
