The primary caregiver shall use a numerical identification system to enable the primary caregiver to identify marijuana plants cultivated for a patient. Access to the cultivation facility is limited to the primary caregiver, except that emergency medical services personnel or a person who needs to gain access to the cultivation facility in order to perform repairs or maintenance or to do construction may access the cultivation facility to provide those professional services while under the direct supervision of the primary caregiver.

**Sec. 2. 22 MRSA §2428, sub-§6, ¶I**, as amended by PL 2011, c. 407, Pt. B, §32, is further amended to read:

1 I. All cultivation of marijuana must take place in an enclosed, locked facility unless  
2 the marijuana plants are being transported between the dispensary and a location at  
3 which the dispensary cultivates the marijuana plants, as disclosed to the department  
4 in subsection 2, paragraph A, subparagraph (3). The dispensary shall use a numerical  
5 identification system to enable the dispensary to track marijuana plants from  
6 cultivation to sale and to track prepared marijuana obtained pursuant to section  
7 2423-A, subsection 2, paragraph H from acquisition to sale. Access to the cultivation  
8 facility is limited to a cardholder who is a principal officer, board member or  
9 employee of the dispensary when acting in that cardholder's official capacity, except  
10 that emergency services personnel or a person who needs to gain access to the  
11 cultivation facility in order to perform repairs or maintenance or to do construction  
12 may access the cultivation facility to provide professional services while under the  
13 direct supervision of a cardholder who is a principal officer, board member or  
14 employee of the dispensary.

15 **Sec. 3. Department of Health and Human Services to amend rules**  
16 **regarding primary caregivers and registered dispensaries.** The Department of  
17 Health and Human Services shall amend its rules governing the medical use of marijuana  
18 in Rule Chapter 122 to remove the requirement that a primary caregiver or registered  
19 dispensary have a tag on each marijuana plant and to adopt a rule requiring the use of a  
20 numerical identification system that satisfies the requirements of the Maine Revised  
21 Statutes, Title 22, section 2423-A, subsection 3, paragraph B for primary caregivers and  
22 the requirements of Title 22, section 2428, subsection 6, paragraph I for registered  
23 dispensaries.'

24 **SUMMARY**

25 This amendment replaces the bill. The amendment allows access to a cultivation  
26 facility by emergency services personnel and by a person who needs to gain access in  
27 order to perform repairs or maintenance or to do construction, but only under the direct  
28 supervision of a cardholder who is allowed access to the cultivation facility. The  
29 amendment requires a primary caregiver or dispensary that cultivates marijuana to use a  
30 numerical identification system and requires the Department of Health and Human  
31 Services to amend the rules on primary caregivers and dispensaries to implement the  
32 numerical identification system requirement.
