**2-C. Persons eligible for casino operator license on or after January 1, 2016.**  
Beginning January 1, 2016, the board may not accept an application for an initial license to operate a casino, slot machine facility or any other gambling facility for which the board has licensing authority, unless that application is submitted by a successful bidder for the privilege to submit an application to the board chosen pursuant to section 1011-A and the applicant has received approval by the voters of the municipality where the casino will be located.

**Sec. 8. 8 MRSA §1011-A** is enacted to read:

**§1011-A. Privilege to submit a casino operator license application for a southern casino pursuant to competitive bidding**

The commission shall develop a request for proposals designed to encourage vigorous bidding for the purpose of awarding one bidder the privilege to submit an application to the board for a casino operator license. The commission shall request bids for the privilege to submit an application to the board for a resort-style casino in either York County or Cumberland County. A request for proposals must instruct potential bidders to propose the scope of the gambling facility and amenities to be offered in conjunction with the facility and how the proposal will ensure that the proposed casino will provide the State with socially responsible economic growth while operating as a successful business for the operator, considering license fees, minimum capital investment requirements, regulatory standards and required rates of revenue distribution. The commission may require submission of documented expert analysis from a bidder to support the proposals submitted by the bidder.

**1. Consideration of bids for privilege to submit casino operator license application to the board.** A bidder seeking award of the privilege to submit an application to the board for a license to operate a casino in York County or Cumberland County shall comply with the requirements determined by the commission. The commission shall require that a proposal for the privilege to submit an application to the board for the operation of a casino include a nonrefundable application fee of \$250,000 and an agreement to pay the costs of the board for processing an application and performing background investigations, as described in section 1018, subsection 1, if awarded the privilege to submit an application to the board for a license to operate a casino. The commission shall ensure that the request for proposals clearly identifies the deadline for submission and all bid requirements. The commission shall follow, as nearly as practicable, the provisions governing competitive bidding prescribed by Title 5, chapter 155, subchapter 1-A and rules adopted pursuant to that subchapter.

**2. Request for proposals; factors; southern casino.** When considering bids received in response to a request for proposals prescribed in subsection 1 for a location in York County or Cumberland County, the commission shall consider the following:

**A. Business and market factors, including:**

(1) The bidder's commitment and capacity to make an initial minimum capital investment of \$250,000,000 for a resort-style casino facility. Land acquisition, license fees and off-site improvements are not considered to be part of the minimum capital investment;

- 1                   (2) How the bidder's proposal can be expected to preserve existing jobs in the
- 2                   State and the number of net new full-time and part-time jobs that can be expected
- 3                   to be created by the operation of the proposed facility;
- 4                   (3) The extent to which the bidder's market plans suit the character of the region
- 5                   and the local population in a way that encourages residents of the State to choose
- 6                   to patronize the bidder's proposed facility as opposed to gambling facilities in
- 7                   other states;
- 8                   (4) The potential created by the bidder's proposal to create commercial
- 9                   development opportunities in the host location and surrounding communities
- 10                  consistent with historic uses, regional character and local zoning and planning
- 11                  requirements;
- 12                  (5) The potential gross and net income to be generated by the bidder based upon
- 13                  documented, expert market analysis;
- 14                  (6) The extent to which the bidder's proposed facility can reasonably be expected
- 15                  to serve as a significant regional and national tourism destination;
- 16                  (7) How the bidder's proposal will result in the highest potential benefit and the
- 17                  highest prospective total revenues to the State from a bidder based upon
- 18                  documented, expert financial analysis;
- 19                  (8) The bidder's proposed capital investment in a gambling facility, proposed
- 20                  amenities associated with the facility and timing of capital investment
- 21                  expenditures in terms of ensuring the facility is economically competitive in the
- 22                  State and regionally; and
- 23                  (9) Other factors, properly disclosed in the commission's request for proposals,
- 24                  that the commission determines to be relevant;

25                  B. Economic development factors, including:

- 26                   (1) The bidder's workforce development plan and the extent to which it will
- 27                   maximize use of the State's existing labor force and create new jobs in the
- 28                   marketplace;
- 29                   (2) The impact on economic development, existing and planned, in the region of
- 30                   the proposed facility; and
- 31                   (3) Other factors, properly disclosed in the commission's request for proposals,
- 32                   that the commission determines to be relevant;

33                  C. Site location factors, including:

- 34                   (1) The adequacy of transportation infrastructure surrounding the proposed
- 35                   location of the gambling facility;
- 36                   (2) The need for additional public infrastructure expenditures at or immediately
- 37                   surrounding the proposed location of the gambling facility;

1                   (3) Any negative impact of the proposed location of the gambling facility on the  
2                   municipality in which the facility is to be located, including but not limited to  
3                   traffic congestion, worsened road safety conditions and increased safety concerns  
4                   for pedestrian traffic;

5                   (4) The bidder's proposals for mitigating negative impacts identified under this  
6                   paragraph; and

7                   (5) Other factors, properly disclosed in the commission's request for proposals,  
8                   that the commission determines to be relevant; and

9                   D. Factors other than those listed in paragraphs A to C, including:

10                   (1) The bidder's plan to identify, address and minimize the potential for and  
11                   existence of negative consequences associated with gambling and the operation  
12                   of the bidder's proposed facility, including but not limited to a financial  
13                   commitment to efforts to address problem gambling prevention, intervention,  
14                   treatment and research;

15                   (2) The effects, both positive and negative, that can be reasonably anticipated to  
16                   be experienced by the municipality in which the facility is located and the  
17                   communities in the region; and

18                   (3) The likelihood that the bidder will meet the casino operator license  
19                   requirements described in section 1016.

20                   **3. Bid award factor priorities; southern casino.** The commission shall develop a  
21                   system of assigning points to the factors required to be considered under subsection 2.  
22                   The commission is authorized to hire or enter into a contract with vendors experienced in  
23                   evaluating business plans for large-scale development and the impacts of development on  
24                   the local and regional economies to assist with the consideration of bids and development  
25                   of the point system required by this subsection. The development of a point system must  
26                   ensure that factors that support the following are awarded the highest point value, with  
27                   the criteria listed under paragraphs A and B receiving more points than those listed under  
28                   paragraphs C and D:

29                   A. The overall increase in the number of jobs created in the region that can be  
30                   directly or indirectly attributed to the development and operation of the resort-style  
31                   casino;

32                   B. The positive impacts on economic development, existing and planned, from the

36                   region separate from the resort-style casino;

38                   casino on year-round tourism in the region; and

26 **SUMMARY**

27 This amendment replaces the bill and is a minority report of the committee. The  
28 amendment establishes a competitive bid process for the operation of a resort-style casino  
29 in either York County or Cumberland County. The amendment establishes the Casino  
30 Development Commission, which is an independent board of 5 members appointed by  
31 the Governor and confirmed by the Senate. The commission's purpose is to develop a  
32 request for proposals for the privilege to submit an application to the Department of  
33 Public Safety, Gambling Control Board for a casino operator license. The fee to submit a  
34 bid is \$250,000. The amendment provides for specific supporting information to be  
35 submitted by the bidder and considered by the commission including the bidder's ability  
36 to make a minimum \$250,000,000 capital investment in the resort-style casino and  
37 information regarding job creation, economic development and plans to mitigate negative  
38 infrastructure impacts. Under the amendment, the commission is directed to develop a  
39 point system for the factors to be considered and give priority to factors that create jobs,  
40 promote economic development, increase tourism and support a casino that fits the  
41 character of the State, with job creation and economic development being the highest  
42 priorities. The winning bidder must enter into a contract with the commission that  
43 obligates the casino operator to abide by the proposals made in the winning bid. The  
44 contract includes a commitment of the casino operator to make annual reinvestments in

If the number or size of the referendum questions requires production and delivery of a second ballot, an additional appropriation of \$107,250 may be required.

#### Fiscal Detail and Notes

The bill creates a commission to use a competitive bid process to award the privilege to apply for a casino to a single applicant. Bidders will pay a \$250,000 bidding fee to win the right to be the applicant. The Gambling Control Board will accept an application for a casino license in either York County or Cumberland County from the winning bidder as long as the voters of the State and the voters of the municipality where the casino will be located vote to approve. Only one casino, in either York or Cumberland County, may be licensed.

The facility would be taxed at the rate of 35% of net slot income and 16% of net table game income. The bill requires a casino, beginning no sooner than 5 years after operation of slot machines, to make annual capital improvements to the casino using 3% to 4% of both net slot machine income and net table game income or direct those funds to the Gambling Control Board. This fiscal note assumes that the facility will not direct these funds to the Gambling Control Board. This fiscal note assumes a total of 1,000 slot machines and 24 table games, generating an estimated annual Other Special Revenue Funds (OSRF) revenue of \$25,498,980.

Each non-refundable bid proposal will generate \$250,000 in General Fund revenue. The casino operator license will generate \$10,000,000 in General Fund revenue. The casino operator renewal fee will generate \$250,000 in OSRF revenue every five years. \$126,400 in annual OSRF revenue will be generated from registration fees on slot machines and table games. Annual state costs associated with 5 inspectors, 1 auditor, 1 detective and 1 office specialist and other related expenses are estimated to be \$763,705.

WhiteSand Gaming's market feasibility study on expanded gaming in Maine estimated a 20% reduction in revenue to Oxford Casino if a new southern Maine casino were to open. This fiscal note assumes the same 20% reduction, resulting in an estimated annual General Fund revenue loss of \$379,070 and OSRF revenue loss of \$5,932,193 when the southern Maine casino becomes operational. An assessment of the impact on revenues generated by Hollywood Casino has not been done at this time.

Under current law, State revenue from both Oxford Casino and Hollywood Casino go to various funds, but this bill directs all State revenue from these casinos to go to the Gambling Control Board until a distribution of slot machine and table game revenue is established in law. This results in an estimated annual General Fund revenue decrease of \$8,382,405 and an annual OSRF revenue increase of \$8,382,405. The bill requires the new distribution to be 35% of net slot machine revenue and 16% of net table game revenue for both Oxford Casino and Hollywood Casino. This results in an estimated annual General Fund revenue loss of \$4,498,347 and an estimated annual OSRF revenue loss of \$7,028,385. Due to the recipients of future net slot machine and net table game distributions being unknown at this time, there is no current estimate on the amount of net slot machine and net table game revenue that would go to the General Fund and OSRF.

The additional costs to the Office of the Attorney General are expected to be minor.
