15 **SUMMARY**

16 This amendment, which is the majority report of the committee, strikes and replaces
17 the bill, which requires election clerks in a municipality to be selected so that 33% of
18 clerks are from one major party, 33% are from another major party and 34% are selected
19 without regard to party enrollment. This amendment amends the process for selection of
20 election clerks and clarifies other provisions regarding election clerks.

21 Specifically, the amendment retains the provision in current law allowing parties to
22 nominate election clerks but also allows the municipal clerk or any registered voter to
23 make nominations. Like current law, the amendment directs timely consideration of
24 nominations but does not require municipal officers to appoint the election clerks from
25 among nominees and instead allows them to appoint any qualified voter. Under the
26 amendment, the minimum requirement is 2 election clerks at each voting place, one each
27 from the 2 major parties. The amendment requires that at least 1/2 of the election clerks
28 working at any election are affiliated with the major parties, and the rest of the election
29 clerks may be affiliated with a minor party or be unenrolled.

30 The amendment also provides that if the municipal officers do not appoint a sufficient
31 number of election clerks representing the major parties or an insufficient number of
32 appointees are available to serve from the list provided by municipal officers, the
33 municipal clerk may appoint additional election clerks without regard to party enrollment
34 status.
