3 **1-A. Continuity of care.** "Continuity of care" means programming and policies that

10 **3-A. Graduated quality differential rates.** The graduated quality differential rates
11 that the department is required to pay for child care services under subsection 3 include:

12 A. Fifteen percent for step 2 child care services other than for infants or 25% for step
13 2 child care services for infants;

14 B. Twenty percent for step 3 child care services other than for infants or 30% for
15 step 3 child care services for infants; and

16 C. Twenty-five percent for step 4 child care services other than for infants or 35%
17 for step 4 child care services for infants.

18 **Sec. 3. 22 MRSA §3737, sub-§4,** as enacted by PL 2017, c. 412, §1, is amended

25 **5. Use of contract to improve supply of care for infants, toddlers and preschool**
26 **children.** The department shall distribute child care funds through contracts with
27 providers of child care services at step 3 and step 4 under subsection 3 to increase the
28 availability of care for infants, toddlers and preschool children up to 4 years of age. The
29 contracts must prioritize continuity of care and stable settings for infants, toddlers and
30 preschool children up to 4 years of age but may support children in another age group.
31 To qualify for a contract, a provider of child care services under this subsection must
32 have appropriate training in child development, child trauma, adverse childhood
33 experience, child protective services and working with children with disabilities. The
34 department shall ensure that contracts are granted to providers of child care services
35 under this subsection that prioritize the following at-risk populations:

36 A. Infants, toddlers and preschool children up to 4 years of age receiving or who
37 have received child protective services;

1 B. Infants with disabilities or those referred by the Child Development Services

6 E. Infants in geographic areas of the State where parents have few opportunities to
7 secure high-quality infant care.

8 **6. Shared services.** The department shall create a program to support providers of
9 child care services in sharing administrative and program services and costs to make the
10 providers more efficient and financially sustainable and to improve the providers' ability
11 to deliver high-quality child care services.

12 **SUMMARY**

13 This bill amends the child care services provisions in the following ways:

14 1. It establishes graduated quality differential rates for steps 2 to 4 in the 4-step child
15 care quality rating system currently required by law;

16 2. It requires that contracts with providers of child care services prioritize infants,
17 toddlers and preschool children up to 4 years of age in a variety of ways; and

18 3. It directs the Department of Health and Human Services to develop a shared
19 services program for providers of child care services to realize efficiencies and achieve
20 financial sustainability by sharing administrative and program services and costs.
