SUMMARY

This amendment provides that an amendment to the teacher certification rules that revises the qualifications for a credential or the grades or subject area endorsements for a professional teacher certificate does not apply to:

1. A person who held an active credential or endorsement during the school year preceding the adoption of revisions to the rules;

2. A person who held an active conditional certificate during the school year preceding the adoption of revisions to the rules;

3. A person who has completed an educator preparation program and who has qualified for a recommendation for certification as a teacher during the school year preceding the adoption of revisions to the rules;

4. A person enrolled in an educator preparation program during the school year preceding the adoption of revisions to the rules; or

5. A person who began the application process for professional teacher certification with the Department of Education during the school year preceding the adoption of revisions to the rules.

The amendment also amends the bill to clarify that if a rule amends the endorsement specifications for grades or subject areas for a teacher's professional teacher certificate, the teacher may renew the teacher's professional teacher certificate with the same grades and subject areas endorsements as were issued with the active professional teacher certificate that is held by the teacher at the time of the amendment.
