## Fiscal Note

Contingent current biennium savings - General Fund

### Fiscal Detail and Notes

The amendment requires the Department of Health and Human Services to, no later than April 1, 2025, request federal approval from the United States Department of Health and Human Services, Centers for Medicare and Medicaid Services for a Section 1115 demonstration waiver that would require work and community engagement requirements for able bodied individuals in order to participate in the Mainecare program. If this waiver is approved, there would be savings in the Mainecare program, as some currently eligible individuals would not meet the new requirements and be removed from the program. The amount and timing of these contingent savings are not yet determined.
