SUMMARY

This amendment, which is the majority report of the committee, changes the title of the bill and adds an appropriations and allocations section. It amends the bill by clarifying the definition of "member representing lived experience" to require that a board member serve on a board established in the Maine Revised Statutes, Title 5, section 12004-I, that the board member is not otherwise compensated for the member's time serving on the board by the member's employer or the entity the member represents and that the board member representing lived experience be explicitly identified as such in the statutory language establishing the member's position as a member of a board.

The amendment also allows the Secretary of State to provide compensation to members representing lived experience and provides a one-time General Fund allocation in fiscal year 2025-26 of \$5,000. It also provides that if a department or agency of State Government with which a board is associated does not have sufficient money in the budget of the department or agency to provide compensation and reimburse expenses to members

1 representing lived experience, a member representing lived experience or the board with
2 which the member is associated may apply for compensation from the Secretary of State.
3 The Secretary of State is required to develop, as necessary, policies or procedures to
4 prioritize compensation for members representing lived experience, and compensation is
5 only allowable to the extent that funding is available.
