SUMMARY

This amendment makes the following changes to the bill.

- 1. It removes the provision that the digital cast vote record is confidential, except that, in an election determined by ranked-choice voting, the digital cast vote record becomes a public record at the time the Secretary of State completes the tabulation of the vote.
- 2. It adds online voter registration to the types of voter registration methods that do not require notice within the 30 days before an election that the registrar might not receive the application before the closed period, but that the applicant may register in person any time before the close of the polls on election day.
- 3. It removes the provision that authorizes the Secretary of State to provisionally designate additional agencies as voter registration agencies, subject to the requirement that the Secretary of State submit draft legislation to the Legislature adding the provisionally designated agency to the list of designated agencies.
- 4. It adds a reference to the required fee that a person must pay in order to purchase a voter file from the Department of the Secretary of State to evaluate, monitor or seek compliance with the laws relating to voting rights, election administration and voter registration.
- 5. It removes the term "next election cycle," which is not defined, from the provision allowing disqualified parties to retain their enrolled voters and replaces it with a description

Page 2 - 132LR0564(02)

of the time frame for filing written notice as "by December 31st of the year of the next general election following disqualification,"

- 6. It amends the provision allowing a qualified party to voluntarily dissolve to clarify that a written request filed with the Secretary of State and signed by the statewide chair may come only following an affirmative vote by the party's state committee to relinquish its qualified or qualifying status. For a party without a state committee, the written request must be signed by an authorized representative of the party.
- 7. It amends the provision allowing parties to permit unenrolled voters to sign the parties' candidates' primary nomination petitions after filing a notice with the Secretary of State that the notice may be only filed following an affirmative vote by the party's state committee. For a party without a state committee, the determination must be made through an authorized representative of the party.
- 8. It amends, rather than repeals, the provision requiring the Secretary of State to implement a system for collecting and logging concerns from members of the public regarding the conduct of elections to clarify that the system is for collecting and logging reports from residents of this State of alleged violations of the Maine Revised Statutes, Title 21-A related to the conduct of statewide or federal elections. The amendment specifies that the reported alleged violations must be categorized and that the log must include any action taken to address the alleged violations, if applicable. It also adjusts, rather than repeals, the reporting of this information in the report submitted to the joint standing committee of the Legislature having jurisdiction over elections matters every 2 years.
