'Sec. 3. Each county shall be entitled to that number of representatives which is in the same proportion to the total number as the number of inhabitants of the county bears to the number of inhabitants of the state, fractional excesses over whole numbers to be computed in favor of the smaller counties. No city or town shall ever be entitled to more than 7 representatives, except that in the event of merger of towns or cities, the new town or city shall be allowed the combined representation of the former units, which number if exceeding 7 shall thereupon and thereafter become the maximum number to which any city or town shall thereafter be entitled in later apportionments. Apportionment of representatives within each county shall be made by deducting from the number of inhabitants of the county the number of inhabitants of such cities and towns as may be entitled to the maximum number of representatives permitted to any city or town by reason of the numerical proportion of its inhabitants to the inhabitants of the county and by deducting from the total number of representatives to which the county is entitled the number to which such cities

And the inhabitants of said cities, towns and plantations shall vote by ballot on said question, those in favor of the amendment voting "Yes" upon their ballots and those opposed to the amendment voting "No" upon their ballots, and the ballots shall be received, counted and declared in open ward, town and plantation meetings and returns made to the office of the secretary of state in the same manner as votes for governor and members of the legislature, and the governor and council shall count the same, and if it shall appear that a majority of the inhabitants voting on the question are in favor of the amendment, the governor shall forthwith make known the fact by his proclamation, and the amendment shall thereupon as of the date of said proclamation become a part of the constitution.
