AN ACT Relating to Certain Emergency Powers Concerning Radiation Hazards.

Emergency preamble. Whereas, Acts of the Legislature do not become effective until 90 days after adjournment of the Legislature unless enacted as emergencies; and

Whereas, there is being constructed at Wiscasset, Maine, a nuclear power plant, the construction of which will be completed in the near future; with nuclear materials being expected in Maine as early as September, 1971, and the operation of which is expected to commence early in 1972; and

Whereas, it is necessary for the State of Maine and certain of its departments and agencies to enter into certain emergency plans, agreements and arrangements for the protection of the public and property from radiation, radioactive materials, nuclear materials, or the occurrence of a radiological incident; and

Whereas, certain such agreements and arrangements are required by the United States Atomic Energy Commission prior to the licensure and operation of the facility; and

Whereas, the Department of State Police and Department of Health and Welfare have been participating in preliminary planning and arrangements for such agreements and arrangements; and

Whereas, the existing statutes do not assign the responsibility for such arrangements and plans and do not provide for the authority of persons to take action to protect the public and property in this State from radiation hazards or dangers; and

Whereas, in the judgment of the Legislature these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,
