OF THE

One Hundred and Sixth Legislature

7. Tidal waters and subtidal lands. In connection with a license under this subchapter, whenever issued, the commission may grant to a licensee a permit to construct, maintain and operate any facilities necessary to comply with the terms of such license in, on, above or under tidal waters or subtidal lands of the State. Such permit may be issued upon such terms and conditions as the commission deems necessary to insure that such facilities create minimal interference with existing uses, including a requirement that the licensee provide satisfactory evidence of financial capacity, or in lieu thereof, a bond in such form and amount as the commission may find necessary, to insure removal of such facilities. In the event that such facilities are no longer necessary in order for such licensee or successor thereof to comply with the terms of its license, the commission may, after opportunity for notice and hearing, require the licensee or successor to remove all or any portion of such facilities from the tidal waters or subtidal lands. Such removal may be ordered if the commission determines that maintenance of such facilities will unreasonably interfere with navigation, the development or conservation of marine resources, the scenic character of any coastal area, other appropriate existing public uses of such area or public health and safety, and that cost of such removal will not create an undue economic burden on such licensee or successor.

Emergency clause. In view of the emergency cited in the preamble, this Act shall take effect when approved.
