ant's household. If a claimant and spouse own their homestead for part of the year for which relief is requested and rent it or a different homestead for part of the same tax year, "property taxes accrued" means taxes levied on the homestead on April 1st, multiplied by the percentage of 12 months that the property was owned and occupied by the household as its homestead during the year for which relief is requested. When a household owns and occupies 2 or more different homesteads in this State in the same calendar year, property taxes accrued relate only to the total of the property taxes owed for the time that each property was occupied by the household as a homestead. To calculate the amount attributable to each property, the April 1st assessment on each homestead is multiplied by the percentage of 12 months that each property was owned and occupied by the claimant as the claimant's homestead during the year for which relief is requested. If a homestead is an integral part of a larger unit such as a farm, or a multipurpose or multidwelling building, property taxes accrued are that percentage of the total property taxes accrued that the value of the homestead is of the total value, except that property taxes accrued do not include any portion of taxes claimed as a business expense for federal income tax purposes. For purposes of this chapter, "unit" refers to the parcel of property separately assessed of which the homestead is a part.
