STATE OF MAINE  
ONE HUNDRED AND TWENTY-SIXTH LEGISLATURE  
SECOND REGULAR SESSION  
JOURNAL OF THE SENATE

In Senate Chamber  
Wednesday  
April 16, 2014

Senate called to order by President Justin L. Alfond of  
Cumberland County.

Prayer by Doctor Keith Moore, First Baptist Church in Portland.

**DOCTOR MOORE:** Men and women of the Senate, I consider it to be a great honor to be in your presence today. Thank you so much for all that you do for the state. I also want to send my love from the people of the First Baptist Church of Portland. They want to thank you for your service. Thank you so very much. Let us pray together.

Our Father in Heaven, Almighty God, Creator of the Universe, we bow before You in humble reverence this morning. Thank You that through Your divine will You allowed us to live in the greatest country in the world. Thank You for the freedoms we enjoy. This morning I ask Your tremendous blessings upon the men and women of this great Senate. May they experience wisdom as they deliberate. May they make decisions which will result in peace, abundance, and justice in the state of Maine. Please give them understanding beyond their years and experiences. I pray Your great blessings upon their families. Protect them. Keep them healthy and safe. I pray that in the most difficult and delicate issues this Senate faces You would give them agreement and unity. When agreement cannot be achieved, may their relationships remain strong. Make them true friends. Give them the ability to see issues from the perspective of others in the Senate. I ask all of these things in Jesus' name. Amen.

Pledge of Allegiance led by Senator Brian D. Langley of Hancock County.

Reading of the Journal of Tuesday, April 15, 2014.

Doctor of the day, Joel Kase, DO of North Yarmouth.

**Joint Resolution**

Joint Resolution in Memoriam:

WHEREAS, the Legislature has learned with deep regret of the death of:

Patrick A. Connors, of Brunswick and of Zephyrhills, Florida. Mr. Connors was born in Brunswick and was a 1955 graduate of Brunswick High School. He graduated from Portland University, worked for his father's trucking company, Grover Connors Trucking, and was employed by the telephone company for 35 years, retiring from NYNEX in 1996. Mr. Connors was a 50-year member of the United Lodge No. 8 and served as Past High Priest of Royal Masonry. He was an Explorer Scout Troop Leader, the president of the Brunswick Area Snow Jammers Snowmobile Club and a board member of the Maine Snowmobile Association. Mr. Connors is survived by his wife, Lillian Foster Connors; his 2 daughters, Kristen Fenimore and her husband James and Leta Valerie Campbell and her husband Stephen; his sister Cynthia Sairio; and his 4 grandchildren, Ryan Patrick Campbell, Jami Campbell Bellefleur, Dylan James Fenimore and Emily McKenzie Mae Fenimore. Mr. Connors will be greatly missed and long remembered by his loving family and his many friends;

SLS 950

Sponsored by Senator GERZOFISKY of Cumberland.  
Cosponsored by Representatives: DAUGHTRY of Brunswick,  
KENT of Woolwich, PRIEST of Brunswick.

**THE PRESIDENT:** The Chair recognizes the Senator from Cumberland, Senator Gerzofsky.

Senator GERZOFISKY: Thank you Mr. President. Ladies and gentlemen of the Senate, I rise today to honor a friend, a constituent, and a pillar of my community, the everyday guy. The people that we meet along our campaign trails when we first go out to run for office sometimes you meet somebody that hits you in a special way. We all have the honor of meeting these people along the way. Just really average citizens that make a big impression, that make a big dent where you live. You can see on this Joint Resolution that Pat Connors was such a man. His family is sitting behind me. What I'd like to say about him is not written down. I want to tell you about my first experience of

learning how to be a politician, walking down the street and trying to knock on doors and meet people. We all go through this, especially on our first day. I saw a man sitting in his garage. He had a big RV. He had a big motorcycle. He had all those motorhead kind of toys that I appreciate. I thought, "Ah, this is going to be easy. I'm going to find somebody here that knows what I'm talking about." I went over and started talking to him. After he explained to me that he rode a very comfortable motorcycle that could go thousands of miles and he had done it: that he was driving a big RV and going around the country in it and enjoying himself: and that he was a Republican, not a Democrat, and he was enjoying himself. I stood there, trying to find the conversation with a fellow motorhead, that we could agree on things. Well, his RV was registered in Vermont because it was much cheaper than Maine. His motorcycle was about as opposite of my motorcycle as you can possibly get and he let me know that mine wasn't really American made because it had British tires on it. He explained to me that his wife was in the house and she was the Democrat of the family and that maybe that's where I should go and talk and try and sell my wares to. I did. I went inside and found the real saint of the family. Lillian was inside the house. Pat was outside doing what he liked to do best. His wife was inside doing what she liked to do best. I found that her and I really had a lot in common. Over the years, and over the different campaigns, and over all the many times that I'd come over and sit on the porch, Pat and I learned a lot from each other. He was never as much of an anti-Democrat, as he swore more than once, that he pictured himself to be. He used to say, "You guys up in Augusta," and I'd make sure he really meant us up in Augusta and not us in Washington or the town council, because I never did anything about the potholes in front of his house. He was really the kind of person that's just your average nice man that worked very hard at raising a good family. He worked very hard at being a good member of his community and his extended community. I think that we don't recognize maybe enough sometimes those people that live in our communities and go to work every day, pay their taxes, and try their best to be good citizens and good people and good family people. I wanted to stand up today and recognize that Pat and his family, who are sitting behind me, have really contributed a lot to my communities, done it the right way, and, whether they are Democrats or Republicans, we can always find something in the middle to talk about and get the partisan out and the fun in. Mr. President, I want to thank you so much for allowing me the opportunity to stand and talk about my friend Pat because someday on the other side he'll be riding his snowmobile and I'll be riding my motorcycle in those clouds up above and having a good time doing it and complaining about everything else that goes on that we don't have any control over. Thank you, Mr. President.

**ADOPTED.**

Sent down for concurrence.

**THE PRESIDENT:** The Chair is pleased to recognize in the rear of the chamber Lillian Connors, the wife of Mr. Connors; Valerie Campbell and Kristen Fenimore, Kristen is the daughter; Ryan Campbell, the grandson; and Cynthia Field, the sister-in-law. They are here from Brunswick, Topsham, and Bowdoinham. They are here as the guests today of the Senator Cumberland, Senator Gerzofsky. Would they all please rise and accept the warm greetings of the Maine State Senate.

**ORDERS OF THE DAY**

**Unfinished Business**

The following matters in the consideration of which the Senate was engaged at the time of Adjournment had preference in the Orders of the Day and continued with such preference until disposed of as provided by Senate Rule 516.

The Chair laid before the Senate the following Tabled and Later Assigned (4/15/14) matter:

SENATE REPORTS - from the Committee on **VETERANS AND LEGAL AFFAIRS** on Bill "An Act To Provide Former Employees of the Maine Military Authority the Ability To Sue for Severance Pay"

S.P. 740 L.D. 1837

Majority - **Ought to Pass as Amended by Committee Amendment "A" (S-524)** (7 members)

Minority - **Ought Not to Pass** (4 members)

Tabled - April 15, 2014, by Senator **TUTTLE** of York

Pending - motion by same Senator to **ACCEPT** the Majority **OUGHT TO PASS AS AMENDED** Report

(In Senate, April 15, 2014, Reports **READ**.)

On motion by Senator **KATZ** of Kennebec, supported by a Division of one-fifth of the members present and voting, a Roll Call was ordered.

**THE PRESIDENT:** The Chair recognizes the Senator from York, Senator Tuttle.

Senator **TUTTLE:** Thank you Mr. President. Members of the Senate, I would encourage you to support the adoption of the Majority Ought to Pass Report. This bill was originally referred to the Joint Standing Committee on Labor, Commerce, Research and Economic Development and then was re-referred to the Joint Standing Committee on Veterans and Legal Affairs, of which I serve as Chair. The bill prohibits the State of Maine Military Authority, an Executive Branch entity, from raising the defense of sovereign immunity in a civil action brought to collect severance pay. The bill applies, retroactively, to December 26, 2013 and is in effect until one year from that date of enactment. The Maine State Employees Union has brought suit against the State of Maine Military Authority on behalf of laid-off employees of the Maine Military Authority for unpaid severance pay under 26 MRSA Section 625B, Subsection 4. The Committee Amendment is the Majority Report of the committee. The amendment replaces the bill and clarifies that this waiver of immunity granted in this bill applies to a specific civil action for unpaid severance pay for one time only. This business was, as most of us know, retrofitting Humvees and other types of equipment and almost 200 people were laid-off. They were told that they would receive severance pay, then the Administration and the Authority refused to pay them, citing immunity from the suit. I think the law is very clear that the law would apply to the situation. I'm concerned that we are not only laying off good people but not giving them the severance pay they are entitled to under state law. This legislation seeks to hold the State of Maine to the same standard that we hold other employers when it engages in industrial production and implements a mass lay-off as a result of

substantial cessation of business. The Maine Military Authority, last October, as many of you know, essentially shut down its industrial operations in Limestone and laid-off 147 production workers. This was a great loss to Aroostook County and the surrounding areas. Any other industrial employer in our state of this size would be required by law to pay severance pay. In a law suit to enforce severance pay, the Attorney General raised the defense of sovereign immunity. That's why this bill is before us today. While we disagree on the question of immunity, these men and women cannot wait for us to litigate obscure legal questions. They need help now. We are not asking to open the floodgates, but set new precedence. As amended, the bill would not apply to any other State entity. It is for that reason that I would ask for this Body's support of the Majority Report. Thank you, Mr. President.

**THE PRESIDENT:** The pending question before the Senate is the motion by the Senator from York, Senator Tuttle to Accept the Majority Ought to Pass as Amended Report. A Roll Call has been ordered. Is the Senate ready for the question?

The Doorkeepers secured the Chamber.

The Secretary opened the vote.

**ROLL CALL (#584)**

**YEAS:** Senators: BOYLE, CAIN, CLEVELAND, CRAVEN, DUTREMBLE, GERZOFSKY, GRATWICK, HASKELL, HILL, JACKSON, JOHNSON, KATZ, LACHOWICZ, MAZUREK, MILLETT, PATRICK, SAVIELLO, SHERMAN, TUTTLE, VALENTINO, VITELLI, THE PRESIDENT - JUSTIN L. ALFOND

**NAYS:** Senators: BURNS, COLLINS, CUSHING, FLOOD, HAMPER, LANGLEY, MASON, PLUMMER, THIBODEAU, THOMAS, WHITTEMORE, WOODBURY, YOUNGBLOOD

22 Senators having voted in the affirmative and 13 Senators having voted in the negative, the motion by Senator TUTTLE of York to **ACCEPT** the Majority **OUGHT TO PASS AS AMENDED** Report, in concurrence, **PREVAILED**.

**READ ONCE.**

Committee Amendment "A" (S-524) **READ** and **ADOPTED**.

Under suspension of the Rules, **READ A SECOND TIME** and **PASSED TO BE ENGROSSED AS AMENDED**.

On motion by Senator **HAMPER** of Oxford, Senate Amendment "A" (S-527) to Committee Amendment "B" (H-712) **READ**.

**THE PRESIDENT:** The Chair recognizes the Senator from Oxford, Senator Hamper.

Senator **HAMPER:** Thank you Mr. President. Ladies and gentlemen of the Senate, the amendment that I'm offering today retains the whole section of the original which has to do with the family members possessing intranasal naloxone, but the difference lies in number 3 and 4 in the bill, which in the third portion deals with law enforcement and municipal firefighters. I've added in a piece that offers them training, or requires training, and the protocols are to be made up by the Medical Directions and Practice Board. Yes, the emergency medical personnel was taken out of the bill because, quite honestly, why do we need to put into statute something that is already covered by the Medical Directions and Practice Board? Emergency medical personnel are already covered under the auspicious of the board, so why

have it in statute? Therefore, my amendment will get some training in on top of this. Thank you, Mr. President.

**THE PRESIDENT:** The Chair recognizes the Senator from York, Senator Tuttle.

Senator **TUTTLE:** Thank you Mr. President. I would pose a question through the Chair.

**THE PRESIDENT:** The Senator may pose his question.

Senator **TUTTLE:** Thank you Mr. President. My question is, being an EMT myself and having administered this before, would this prevent me from doing that in the future?

**THE PRESIDENT:** The Senator from York, Senator Tuttle poses a question through the Chair to anyone who may wish to answer. The Chair recognizes the Senator from Oxford, Senator Hamper.

Senator **HAMPER:** Thank you Mr. President. To answer the question, EMTs or emergency medical personnel are covered under the Medical Directions and Practice Board and they are the ones who set up the protocols and the conditions under which some form of emergency medical care is to be given by that type of personnel. They are already covered under that board. The answer would be no. Thank you.

On motion by Senator **HAMPER** of Oxford, Senate Amendment "A" (S-527) to Committee Amendment "B" (H-712) **ADOPTED.**

Committee Amendment "B" (H-712) as Amended by Senate Amendment "A" (S-527) thereto, **ADOPTED**, in **NON-CONCURRENCE.**

(In Senate, April 15, 2014, Veto Communication (H.C. 417) **READ** and **ORDERED PLACED ON FILE.**)

**THE PRESIDENT:** The Chair recognizes the Senator from Androscoggin, Senator Cleveland.

Senator **CLEVELAND:** Thank you Mr. President. Women and men of the Senate, I'd like to take just a few minutes to urge you to consider why we should Override the veto on this small, but important, bill. The bill really does three important things. First of all, it provides a means for some economic development and business growth within the state of Maine, specifically directed to small businesses. It provides critical support for low income individuals in reducing their heating costs in the winter. We all know what a burden that has been, particularly this year, going forward. Secondly, it moves forward on an important policy, that we should have a diverse energy portfolio to hedge our energy costs as we move forward, going forward in this state.

Let me talk first a little bit about the economic development. I think, as you remember, this bill raises \$1 million for 2 years and then sunsets in 2016. For that \$1 million it will raise \$10 million in private investment for the balance of the cost of the installation of the solar equipment only. That's a 10 to 1 benefit in that particular investment. For \$1 we get \$10 more of investment in solar, but also thermo heating for hot water heating would be included within that investment as well. It helps a very important and growing young business enterprise in this state, the solar industry. They are local industries. They're diversified across the state of Maine in various locations. They are important in the energy diversity supply chain because they do the installation, maintenance, and service. Without having that industry here it will be more and more difficult to continue to support that sector of the energy diversity within our state. For a small investment we can really help that sector grow and this is common policy. Many

kinds of industries that are going through what's known as market transformation, that is new industry coming into its birth and growing. As they grow and get more popular and are more used, the industry grows, but in the early states they're going through a transformational stage.

The second part of what the bill does is critically important as well because it provides \$1 million for additional heat pumps specifically directed to low income families. This will help those low income families save approximately three-quarters to \$1 million a year in heating costs, which will go back into our economy because the money they save, that they don't spend on foreign oil and shipped out-of-state, will be spent here, in the local economies and the local businesses as well. Further, the electricity saved from the solar energy, as well as used for the hot water heaters, will save probably three quarters of a million dollars in electricity costs, which will, ultimately, then go back into the local economy as well, to local businesses.

Thirdly, what's important is, and I've learned this over my ten years of being on the committee, it's critically important that we diversify our portfolio in energy. None of us knows for sure what the energy costs or mix will be in the years going ahead. Clearly, solar energy is one those components we should have in our mix so that perhaps, as energy costs increase, solar energy becomes a good hedge against increasing foreign oil and it's a domestic source of energy. One of the other things that I like about this particular small business economic development, unlike other proposals that were made earlier this week, it does not ask anything more from the State of Maine. It doesn't ask us to forgive or forego taxes. They are perfectly willing to pay their corporate taxes. In fact, they are not asking to have sales tax returned. They will add \$1 million in sales tax through the sale of the products going forward for the next 2 years. They are not asking to have any of their employee income taxes returned to them. They are happy to have those taxes go to the state treasury. They produce jobs throughout the state of Maine in many small, rural communities within Maine.

Let me speak for just a minute about the cost, because it's one of the items addressed in the Executive Officer's veto. We all know that the cost of this for an average residential user is 5¢ a month, 60¢ a year. To suggest that a reason that you would veto this bill is because it adds cost to the local residential customer is really hard to take credibly, particularly when we take a look at what is really driving the cost: \$2 million a year because we have natural gas constraint pipeline. That's real money, not 5¢ a month on your bill. One point four billion dollars in transmission costs that are being charged off to ratepayers for the new transmission lines. That's real costs, not 5¢. In fact, local residents can completely control that residential cost of 5¢. All you need to do is shut off one light bulb for two hours a month, that you shouldn't have on anyways, and then you don't have the 5¢, it goes away, completely in your control. To suggest that somehow this program is not worthy of our support because it adds 5¢ cannot be taken seriously as a real argument to be opposed to this particular bill.

It has also been suggested that under the current Efficiency Maine program that this bill, this project, could be done without this. That's actually not correct. It can't be done without this and the reason it can't be is that this is a particular policy discretion, or policy decision. In the past, before the program was inadvertently terminated, as a policy, it directed Efficiency Maine to invest funds, and provided funds, for solar energy production. Because that particular policy direction would not exist, funds can't be

redirected from the current program to meet this particular objective under their programs that they are currently running. Even though we've been very good at increasing the budget because we know that investment in conservation and energy efficiency is a very smart thing to do for the state, those funds are dedicated, or structured, to serve specific kinds of programs and, therefore, they are not available for this particular kind of use without the initiation of this particular policy.

I think for all of these reasons, for a form of economic development and small business support, helping those in the lowest incomes save 50% of the cost on their home energy, and diversifying our energy portfolio, it makes all kind of sense that we adopt this policy. I urge you to vote to Override the veto.

**THE PRESIDENT:** The Chair recognizes the Senator from Penobscot, Senator Youngblood.

**Senator YOUNGBLOOD:** Thank you Mr. President. Ladies and gentlemen of the Senate, there are some wonderful statements in the speech we just heard from the good Senator from Androscoggin that are so absolutely true. We do need diversification of our portfolio. We need to expand this beginning, growing operation of more solar companies in this state, but you can't overlook the fact that Maine has some of the highest electrical rates in the country and we have done nothing to substantially, even in a small way, change that this past year. It's awfully easy to say, "God, it's only 5¢, or estimated to be that, on a monthly basis." We can't overlook the fact that we are taking \$1 million out of the pockets of the aged, the poor, and the people whose pennies really, really make a difference to in this state. If this is good for state policy, and it's wonderful to say, "Gee, we're getting this done without costing the State anything." If that's not passing the buck. If you believe this is what we ought to do, and there is some real merit to doing that, and there was an attempt to try to do that in committee, then we should be saying a rebate is absolutely essential to our long-term survival, then the state ought to be saying, "We'll come up with \$1 million to pay for it," not passing the buck to the elderly. We're one of the oldest states, as we all know, in the nation. People living on a fixed income, pennies make a difference. I would urge you to Sustain this veto.

**THE PRESIDENT:** The Chair recognizes the Senator from Lincoln, Senator Johnson.

**Senator JOHNSON:** Thank you Mr. President. Ladies and gentlemen of the Senate, I certainly agree that this is a bill that's smart in terms of economic development. It's investing in small businesses all over Maine. I have to also say that when it comes to the welfare of those older individuals having a hard time getting by that, too, is something that this bill addresses. We can't forever keep spending state dollars on LIHEAP and other assistance for heating for individuals that have difficulty heating their homes. This bill actually implements a much smarter approach to keep the cost of energy down in two ways. Some of them are targeted at those low income people. One way is that it will reduce, through investment in solar energy, the amount of transmission and distribution investment in this state over time, which is a significant cost driver. That's a much more significant cost driver on rates than this program. Secondly, in addition to that return on investment that will be seen in rates as avoided costs, the investment in helping low income individuals install the heat pump technology that will significantly reduce their energy

needs means that's money that they no longer have to shell out every single year for heat. This is a wise investment in reducing those cost of living expenses for our elderly that are barely getting by and others that are having a difficult time with energy costs and I think that's it's a smart thing to do and I urge your support. Thank you.

**THE PRESIDENT:** The Chair recognizes the Senator from Somerset, Senator Thomas.

Senator **THOMAS:** Thank you Mr. President. Ladies and gentlemen of the Senate, how many times have we heard, "If only we had a few more pennies of your money, look at all the good we could do." How many times have we said, "Yes, it's only a little more and look at all of the good things that will come from this." We've said yes and yes and yes again until our taxes are too high, until they're too big a burden for many people to bear and I think it's time that we say no to any and all new taxes. Thank you.

**THE PRESIDENT:** The Chair recognizes the Senator from Aroostook, Senator Jackson.

Senator **JACKSON:** Thank you Mr. President. Ladies and gentlemen of the Senate, certainly a lot's been said by a couple of different people that said it well, but I certainly think that this is something that actually provides Maine jobs. It's a market here in Maine that is emerging. There's a lot of people that are actually out there doing that and it's, I think, good for the state. For the people that we're talking about, as far as the elderly, we just came off one of the longest winters. It actually snowed this morning. People struggling with their heating bills all year. This is a way that some of these people could actually benefit by getting a system that would be cheaper for them than to pay oil. It would be easier for them than having to deal with firewood. A lot of people try to continue to run their woodstoves as they get older. It gets increasingly harder. The oil prices are not coming down and this technology for heat pumps, this bill really was a compromise, whenever the House put this heat pump amendment on. That technology is just becoming unbelievable and what it costs to heat a home and how nicely it heats the home. I think for constituents that actually have been screaming that the cost of heating their homes this past winter is gotten out of reach for a lot of them, this type of program actually could help people in the future, especially for those elderly ones that we're so concerned about. This is technology that is easy to operate. It certainly is proven. This type of incentive program could allow a lot of these lower income people to actually apply to get this where they'll have no other ability to get it. I'm certainly in favor. I ask you to Override this veto.

**THE PRESIDENT:** The Chair recognizes the Senator from Androscoggin, Senator Cleveland.

Senator **CLEVELAND:** Thank you Mr. President. Thank you for the opportunity to speak for a second time. I think I would like to clarify a few things because these statements keep being made over and over again. It appears to me that it'll be useful if they were based on some factual information. It's very curious to me to see that members would suggest we ought to take this out of the General Fund. The taxes paid into the General Fund are the same people, essentially, that pay the electric rates. We're not

taking it from a different source of money to do that. I just heard in a previous speaker they don't want to raise taxes on anything. It seems to me that if you don't want to do that, then why would you want to take the money from the General Fund, particularly when there's not necessarily a one-to-one relationship between the money that you're asking for and how you're going to use the money in regards to your energy policy? It's rather inconsistent. Further, if we took it out of the General Fund that means businesses would pay into it as well because they pay into the General Fund. Under the current proposal, we have we've specifically excluded large industrial users so that they wouldn't have the burden of any additional increase on their rates as they're trying to continue to create jobs here. That's in reflection to what the Chief Executive has said over and over again: not to put additional costs on, particularly, our largest industries. That's why we structured the bill that way.

We always talk about the cost of energy. Well, let's be factual when we talk about the cost of energy. In fact, Maine has the lowest electric rates in New England. It's not in the country, but it's important to know that within our economic region we have the lowest electric rates. Furthermore, when you want to compare electric rates, shouldn't we compare it on an apples-to-apples basis? Some of the comparisons that are being made are against states that use cheap, dirty, polluting coal to produce their electricity. Is that the policy we're proposing, that we move into that direction to use that kind of a fuel to lower our electric rates? If not, what are specifically the choices that are going to reduce the rates? I'd like to hear them because I'd like to implement them if they are available to us, but I don't hear them. You can't just wish it away. You've got to have factual, logical, thoughtful programs that you can actually implement going forward.

I would take exception to the fact that we haven't done anything. That's not the case. I remember being here on the last day of the last session, trying to pass an energy bill, getting a little heartburn over it. We did pass that energy bill, and I might remind the folks in this Chamber that we did it over a veto, that reduced energy costs, or will be reducing energy costs, by \$200 million a year. To say we haven't done anything, I think, is not accurate. To say we haven't put forth policies that are focused right where the largest expenses are is not correct. This isn't a sense that one proposal here is simply to continue to drive costs up for electric users. That's not the case. It's an effort to be thoughtful in diversifying our portfolio and doing it at an absolute minimal cost to do so and passing other measures that actually are functionally going to reduce energy costs by hundreds of millions of dollars a year. There may be other ideological reasons why people don't like solar energy for particular reasons, but I haven't heard the rational economic basis on which solar energy isn't a reasonable alternative choice to diversify our portfolio.

The President laid before the Senate the following: "Shall this Bill become law notwithstanding the objections of the Governor?"

In accordance with Article 4, Part 3, Section 2, of the Constitution, the vote was taken by the Yeas and Nays.

A vote of yes was in favor of the Bill.

A vote of no was in favor of sustaining the veto of the Governor.

The Doorkeepers secured the Chamber.

The Secretary opened the vote.

**ROLL CALL (#585)**

**PAPERS FROM THE HOUSE**

**Non-Concurrent Matter**

Resolve, To Conduct a Market Analysis Regarding the Feasibility of Expanded Gaming in Maine (EMERGENCY)

H.P. 1343 L.D. 1856  
(S "C" S-522)

In House, April 9, 2014, **PASSED TO BE ENGROSSED**.

In Senate, April 15, 2014, **PASSED TO BE ENGROSSED AS AMENDED BY SENATE AMENDMENT "C" (S-522), in NON-CONCURRENCE**.

Comes from the House, that Body **INSISTED**.

Senator **TUTTLE** of York moved the Senate **RECEDE** and **CONCUR**.

On motion by Senator **VALENTINO** of York, supported by a Division of one-fifth of the members present and voting, a Roll Call was ordered.

**THE PRESIDENT:** The Chair recognizes the Senator from York, Senator Valentino.

Senator **VALENTINO:** Thank you Mr. President. Men and women of the Senate, first of all I rise today to say thank you. Thank you for your overwhelming support on your last vote on this. It was wonderful to see the amendment go through. I'm not rising today to try and persuade anybody to vote with me. I think the die has been cast on that one. I do want to say thank you for your support last time. This bill is back here today because the other Body Insisted and they did not accept the amendment that we had put on. It was not an overwhelming vote in the other Body. In fact it was a tie vote, 71-71, which we all know on a tie vote it loses. It was unfortunate that one person could not switch their vote and let it get through. When I left the other Body after the vote I did see a lot of disappointed faces in the hallway. Those were especially among the tribes and the horsemen. There were two glowing faces and those were people who represented the existing casinos. For the love of me I don't know what makes that amendment so threatening that they could not vote for both a fiscal analysis and suggestions for a comprehensive plan but they didn't. I think I know how this vote's going to go, but I'm not going to vote for it even if it's 34-1. I don't feel that we should be spending \$150,000 on a study that basically stops at the word "if" and does not address the comprehensive plan. I think it's too much for a market analysis to spend and it's not what this Body had wanted with some type of a suggestion for a comprehensive plan. So again thank you for your support the other day. I truly appreciate it and it is unfortunate that the other Body didn't agree with us. Thank you.

**THE PRESIDENT:** The Chair recognizes the Senator from York, Senator Tuttle.

Senator **TUTTLE:** Thank you Mr. President. Members of the Senate, I can agree with the good Senator. She's done an awful lot of work and, as most of us did last time, I did support her in her efforts, but we sort of are at a precipice here. We have been talking about this for the last 20 years. We have never had a market study and I think that we're behind the eight ball by not doing that and I do thank the good Senator for her efforts, but I think that at times we have to face the reality of the moment and the reality of the moment is I do not want to see this thing go down. I think one good thing about what we will be doing is that the whole committee on Veterans and Legal Affairs will be doing this study, reporting back to the next Legislature, and, as a former horseman, my family, other areas, I can assure you those issues will be addressed in the upcoming study. Thank you, Mr. President.

**THE PRESIDENT:** The Chair recognizes the Senator from Androscoggin, Senator Cleveland.

Senator **CLEVELAND:** Thank you Mr. President. Women and men of the Senate, I think what we need in this state is a comprehensive, clear, structural path on what the role of gaming should be in the state of Maine, what gambling should be in the state of Maine. When we were going through all these votes, I remember receiving market analysis done by private entities telling us what the consequences of any additional casinos would be. I understand they were done by a particular point of view or interest, but I think that they had some validity to them. I, personally, don't think we need to spend another \$150,000 to know what we know. I think that ship has already left and is gone. What we have left to do is decide where do we go forward with gambling in the state of Maine and what will be a comprehensive plan that makes sense going forward. Receding and concurring will not achieve that, in my estimate, and it's \$150,000 which I think will not move us forward very much. I will not be supporting the Recede and Concur.

**THE PRESIDENT:** The Chair recognizes the Senator from Androscoggin, Senator Mason.

Senator **MASON:** Thank you Mr. President. Men and women of the Senate, I stand in support of the pending motion. I believe that the study that passed out of the Veterans and Legal Affairs Committee truly does put us on a firm footing going forward. It will give us the study that we need and will make the considerations that need to be made. The study, itself, does say in these places where pari mutuel betting is done need to be considered. So all of the parties that were interested in the amendment will be interested and will be considered in the feasibility study. I think that this is 20 years overdue. The Senator from York, Senator Tuttle, mentioned that. I completely agree with him. I think this is the right way forward. I would appreciate your support and thank you, Mr. President.

**THE PRESIDENT:** The pending question before the Senate is the motion by the Senator from York, Senator Tuttle to Recede and Concur. A Roll Call has been ordered. Is the Senate ready for the question?

The Doorkeepers secured the Chamber.

The Secretary opened the vote.

Representative:  
WINSOR of Norway

Comes from the House with the Majority **OUGHT TO PASS AS AMENDED** Report **READ** and **ACCEPTED** and the Bill **PASSED TO BE ENGROSSED AS AMENDED BY COMMITTEE AMENDMENT "B" (H-840)**.

Reports **READ**.

Senator **HILL** of York moved the Senate **ACCEPT** the Majority **OUGHT TO PASS AS AMENDED** Report, in concurrence.

On motion by Senator **KATZ** of Kennebec, supported by a Division of one-fifth of the members present and voting, a Roll Call was ordered.

**THE PRESIDENT:** The Chair recognizes the Senator from Androscoggin, Senator Craven.

Senator **CRAVEN:** Thank you Mr. President. Men and women of the Senate, I would just like to explain what this actually does. Last year there were some measures in the biennial budget, MaineCare items, this was part of them, that were taken out of the budget and this bit was inadvertently left in the budget. However, it really doesn't make any sense by itself and the department, you know, acknowledges that, that ambulatory surgical care is definitely more affordable when you have it done in the community as opposed to having to go to the hospital to have that done. However, they were unable to calculate numbers to support this and Maine Health definitely agrees that it is much more affordable to have your surgery done in the community and I would recommend that everybody, it just makes common sense actually. I would really appreciate everybody voting in favor of this measure to save MaineCare dollars. Thank you, Mr. President.

**THE PRESIDENT:** The pending question before the Senate is the motion by the Senator from York, Senator Hill to Accept the Majority Ought to Pass as Amended Report, in concurrence. A Roll Call has been ordered. Is the Senate ready for the question?

The Doorkeepers secured the Chamber.

The Secretary opened the vote.
