MARK HARRIS, *Treasurer.*

(F.)

In closing this communication, the Treasurer respectfully adds the following

REMARKS.

The Clerks of the Judicial Courts and the Sheriffs of the several Counties, have been prompt in the discharge of their duties, connected with this Department.

A Resolve, of 24th February last, authorized the Governor and Council to procure the sum of 50,000 Dollars, upon the credit of the State. By an order of the Governor and Council, the Treasurer was employed to perform that business. Pursuant to that Order, he immediately issued proposals, and, on the 16th June, negotiated a loan of \$20,000. In consequence of the pressure in the money-market, during the last season, no further sum could be obtained. An offer to furnish \$10,000 more has recently been received and accepted. And the money is accordingly expected at the Treasury in a few days. It is believed that a loan, redeemable at a more distant day, might be obtained with greater facility and on more favorable terms.

A Resolve, of 26th February last, directed the Treasurer to require of certain Banks a "Temporary Loan" of \$50,000. The amount was promptly

REMARKS.

furnished by the Banks, under an expectation that it would be replaced at an early day. The Treasury has been enabled to repay only \$25,500. It seems desirable that provision should be made for a speedy discharge of the balance.

The Permanent School Fund, amounting to \$2,907 01, arising under the Act of February 23d, 1828, on account of military services of the late war, yet remains in the Treasury. Before the annual interest can be distributed, according to the intent of the Act, some further enactment on the part of the Legislature is necessary.

In the amount of State Taxes, yet uncollected, several small sums, amounting in all to \$25 43, were assessed in six different years prior to 1831. As it is not probable they will ever be collected, it is suggested that the Treasurer be authorized, by a Resolve, to cancel them on the books of the Treasury.

Some embarrassments have been found in the collection of taxes upon unorganized plantations.— Under the operation of the new Law upon that subject, several warrants have been returned unsatisfied, with an expense charged to the State thereon.

By the foregoing exhibit, it is apparent that the Expenditure of the State exceeds the Revenue. Some recent enactments, of permanent character, such as the appropriation of the Bank Tax to primary schools, the remission of the duty for entries

REMARKS.

of actions in the **Judicial Courts**, and the increase of expense in the **Military Department**, withdraw from forty to fifty thousand dollars annually from the operative funds of the **State**. And no systematic provision has yet been made to supply the deficiency thereby created.

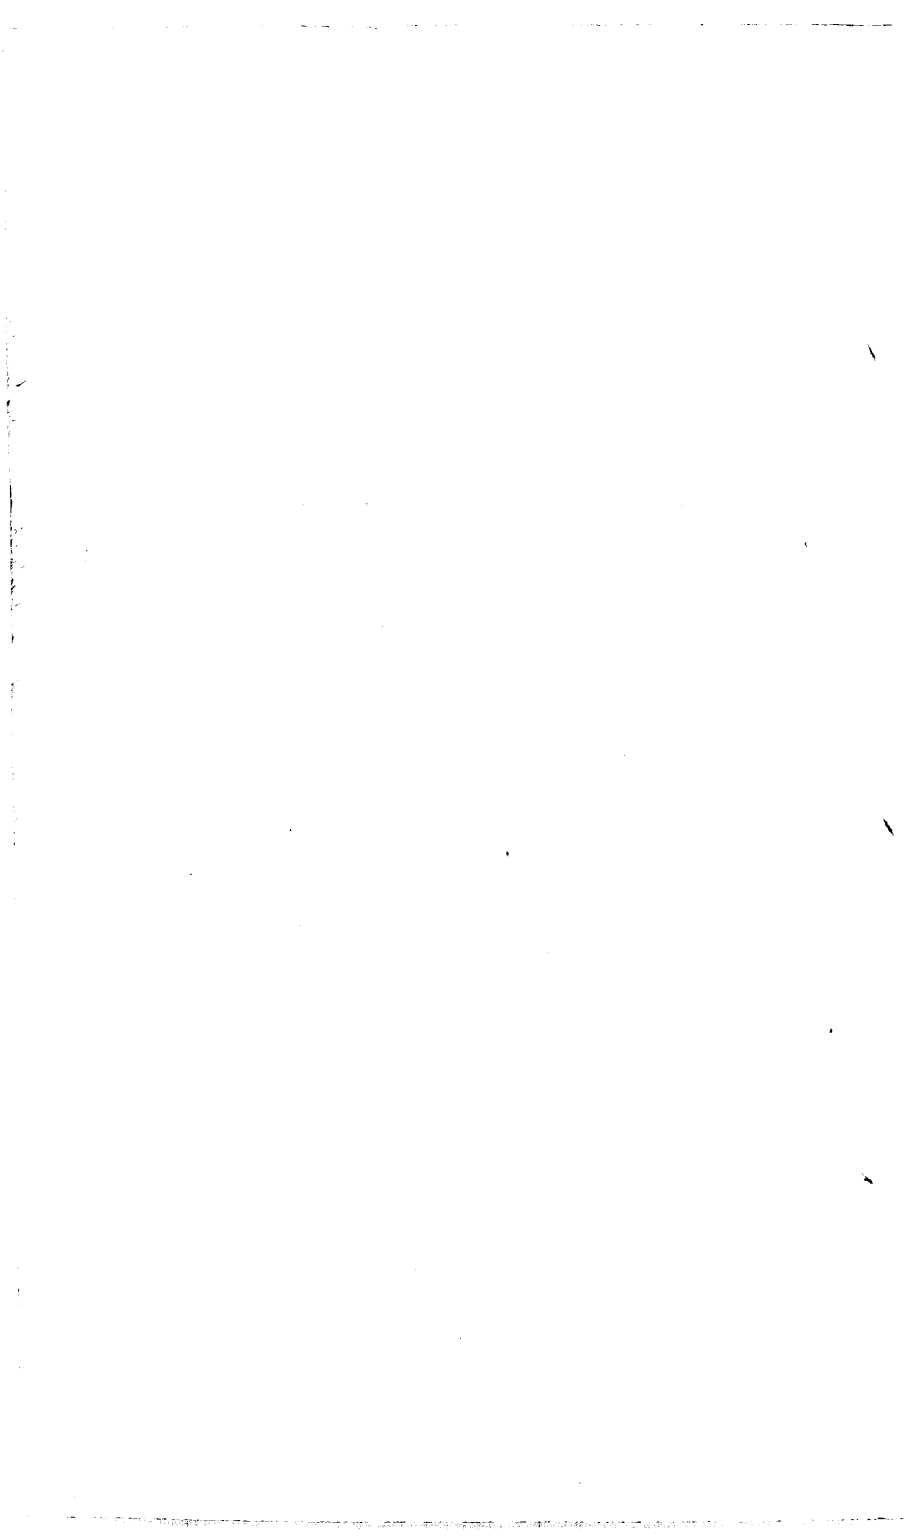

How far it is practicable or expedient, that a system should be adopted for defraying the ordinary expenses of the **Government**, without resorting to the practice of temporary loans, is a subject wholly within the province of the **Legislature**.
