At the commencement of the enterprise the stock of the company was fixed at \$25 per share, and 391 shares were subscribed for at that rate. A few of those shares were not paid for by the subscribers, but were sold at auction by the directors—the amount of receipts into the treasury from the sales of the original stock was \$9,681 84. Subsequently more stock was created and thrown into the market and offered (in accordance with a vote of the stockholders) at \$10 per share, of which 204 shares were sold and paid for at that rate, making the sum total paid into the treasury, (as appears by the treasurer's books) to be \$11,721 84 for stock sold.
