ANNUAL REPORT

OF THE

LAND AGENT

OF THE

STATE OF MAINE

FOR THE YEAR ENDING

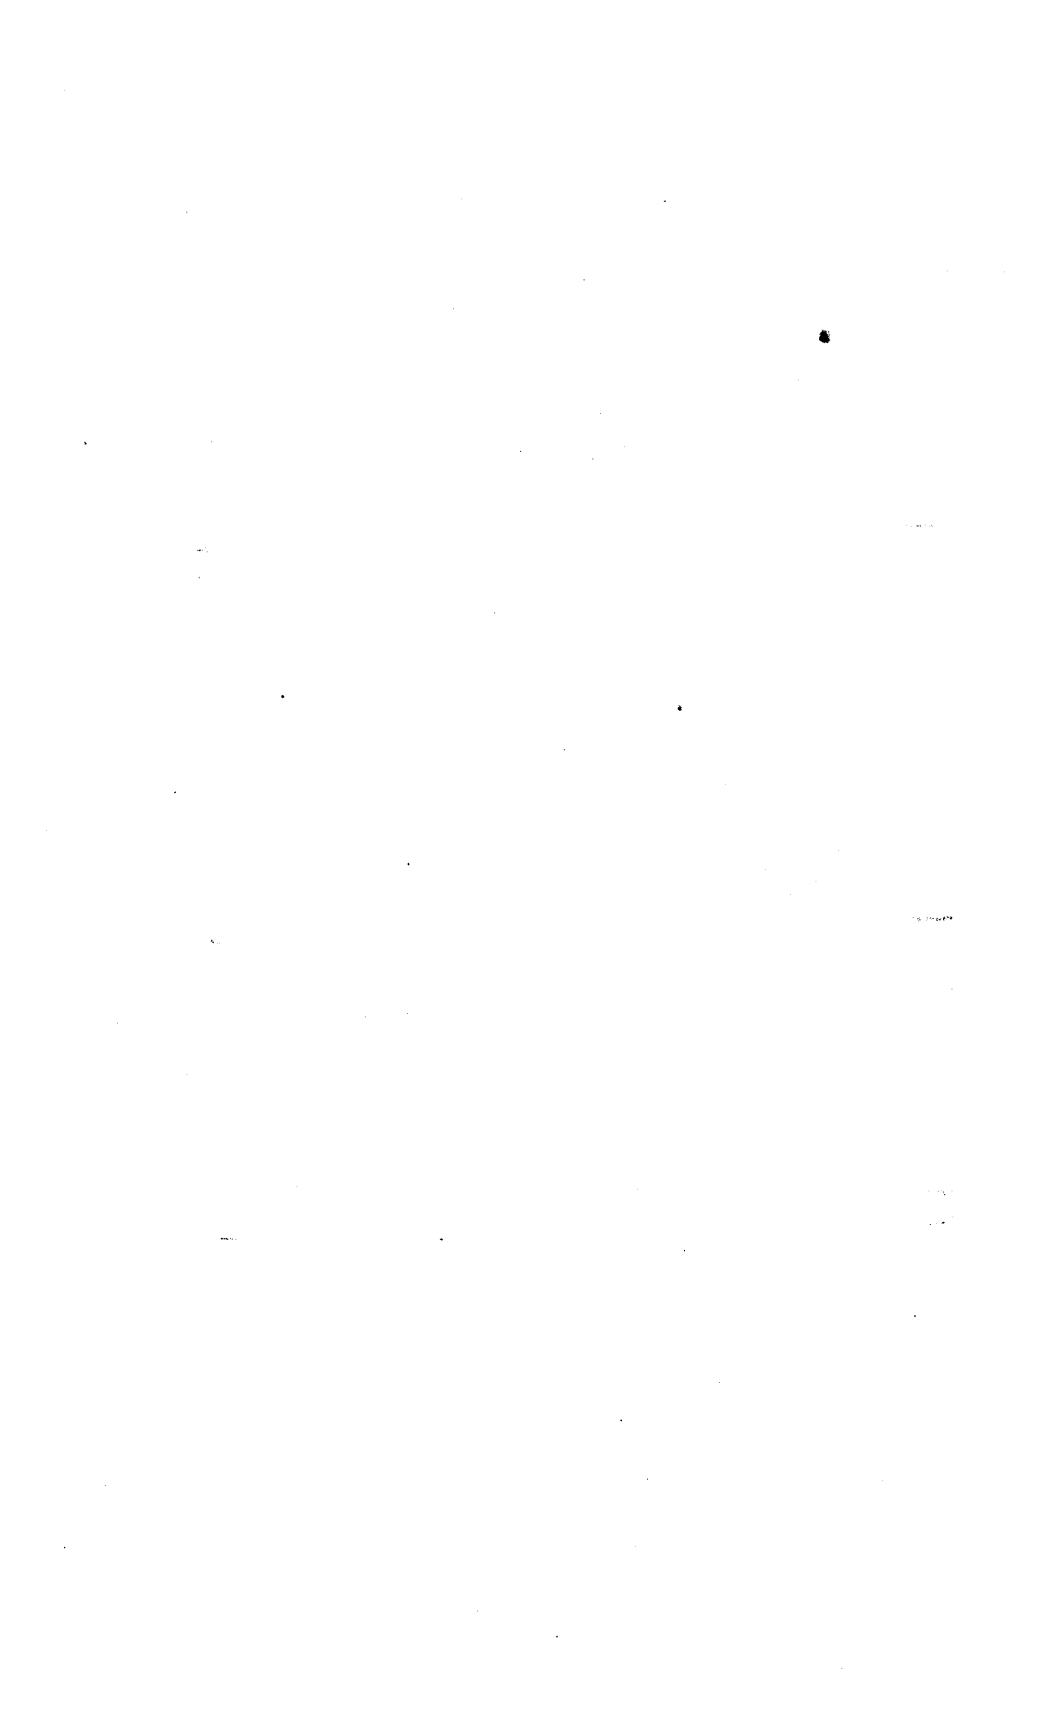

NOVEMBER 30, 1870.

Published agreeably to a Resolve approved February 23, 1865.

AUGUSTA:

SPRAGUE, OWEN & NASH, PRINTERS TO THE STATE.

1871.

REPORT.

To the Governor and Council of Maine :

In compliance with the provisions of law, the Land Agent has the honor to submit this, his Annual Report, for the year ending November 30, 1870.

SALES OF LAND DURING THE YEAR.

By reference to the schedules marked A, B, C, D and E, it will be seen that there have been conveyed of the public lands, during the past year, under legislative acts and resolves, 1,250.65 acres ; on the surrender of outstanding Land Certificates, 7,701.23 acres ; under the Treaty of Washington, 4,246.14 acres, amounting in all to 13,198.02 acres, which have been conveyed by deed. There have also been contracted to settlers by Land Certificates, for road labor notes, amounting to \$5,405.88, 10,811.76 acres ; and 3,400 acres have been contracted to be conveyed to Swedish immigrants, under the provisions of chapter 173 of the public laws of 1870.

In pursuance of the provisions of a resolve, entitled " resolve in favor of Maine Wesleyan Seminary and Female College," approved March 22, 1864, and a resolve entitled " resolve for the purpose of carrying into effect chapter three hundred and thirty of the resolves of one thousand eight hundred and sixty-four, in favor of the Maine Wesleyan Seminary and Female College," approved Feb. 5, 1870, and order of Council of April 8, 1870, notice has been published agreeably to the requirements of said resolve, that sealed proposals will be received at the Land Office until the twenty-sixth day of December next, for the purchase in eighth sections of the " timber and lumber " for the term of ten years from the twenty-first day of October, 1870, growing upon the north-west and south-east quarters of township number eight in the fourth range, west from the east line of the State, in

the county of Aroostook. The south half of township number two, range four, west of Bingham's Kennebec Purchase, in the County of Franklin, has also been advertised to be sold at auction, at the Land Office in Bangor, on the twenty-eighth day of December, 1870, in pursuance of a resolve entitled "resolve making appropriation in aid of the Milford and Princeton Turnpike," approved February 15, 1866, and order of Council of August 31, 1870.

Pursuant to the provisions of a resolve authorizing and directing the Land Agent to sell for cash, "all lands, the fee of which remains in the State, lying in township number three range one, north of Bingham's Kennebec Purchase, in the county of Somerset," notice has been given that sealed proposals will be received, until the twenty-ninth day of December next, for the purchase of lot number one hundred and thirty-three, containing five hundred and eighty-two acres, being the only land in said township owned by the State.

SURVEYS OF THE PUBLIC LANDS DURING THE YEAR.

For the purpose of ascertaining the quantity and quality of the lands to be advertised and sold in compliance with the "resolve making appropriation in aid of the construction of the Milford and Princeton Turnpike," approved February 15, 1866, and order of Council of August 31, 1870, Charles V. Barker, Surveyor, was employed to run the exterior lines of township number three, range five, and the south half of township number two, range four, west of Bingham's Kennebec Purchase, in the county of Franklin; and for the purpose of carrying into effect, chapter 103 of the resolves of 1870, in favor of the Maine Wesleyan Seminary and Female College, the same surveyor was further employed to divide into eighth sections, the northwest and southeast quarters of township number eight, range four, west from the east line of the State, in the county of Aroostook, the field notes and plans of which have been duly returned to the Land Office.

The remainder of township number eighteen, range five, now comprising parts of the towns of Dickeyville and Madawaska, the fee of which is in the State, has, during the past summer, been surveyed into lots for settlement by Albert A. Burleigh, Esq., Surveyor. This tract, containing about ten thousand acres, was nearly all occupied by French settlers, which rendered the work

of running the lines between their possessions, in such a manner as to preserve the rights of all, very laborious and perplexing. Mr. Burleigh was also employed to run and establish the new line between said towns of Dickeyville and Madawaska, and to locate roads in townships number five, range three, and eleven, range one, for the accommodation of settlers.

In order to protect the lands of the State, lying in the town of Mount Chase, in the county of Penobscot, from the depredations of trespassers, it was found necessary to renew such of the lot lines as had become obliterated, and for this purpose, Ivory B. Gerry, Esq., of Sherman, was employed as surveyor, to run and re-establish the lines and corner bounds of such lots as were thus exposed.

And to Hon. Noah Barker, as surveyor, was committed the work of laying out lots of one hundred acres each, for settlement, in townships number fourteen and fifteen, range three, west from the east line of the State, in the County of Aroostook, the last named township being known as "New Sweden," and the locating of such roads as should be found necessary to aid in carrying into effect an act, entitled "an act to promote immigration and to facilitate the settlement of the public lands," approved March 23, 1870.

LOCAL AGENTS.

Agreeably to section twenty-eight, chapter five, of the Revised statutes, the following persons, residing in the vicinity of lands set apart and designated for settlement, were appointed to "superintend the location of settlers, the payment of their road labor, and the performance of their several duties":

Local Agents of Lands for Settlement.

EXPENDITURES ON ROADS AND BRIDGES.

The following expenditures have been made, during the past year, on roads and bridges, under resolves of the Legislature :

The sum of \$300, appropriated by the Legislature at its last session, to aid in building a bridge across the Meduxnekeag stream, in plantation number eleven, range one, and the sum of \$200, to aid in building a bridge over Beaver Dam brook, in Island Falls plantation, in the county of Aroostook, have been paid over, respectively, to the assessors of said plantations—said bridges having been built in a substantial manner, agreeably to the terms of said resolves.

The sum of \$200, appropriated by resolve, approved March 1, 1870, to aid in opening a road through parts of Island Falls and Crystal plantations to Sherman, has been expended under the superintendence of William Irish, Esq., of Sherman.

Upon the Castle Hill road, leading from Presque Isle to Dalton, in the County of Aroostook, the sum of \$489.86 has been expended under the superintendence of Allen M. Dudley, Esq. The whole amount appropriated by resolve of March 1, 1870, was

\$500, thus leaving a balance of \$10.14 to be expended the ensuing year.

Charles T. Bussell, Esq., of Oakfield plantation, was appointed to superintend the expenditure of \$1,500, appropriated by resolve approved March 9, 1870, for constructing the State road leading through the southerly part of township number five, range three, west from the east line of the State. Under his superintendence, nearly all of this road has been turnpiked and completed in a most thorough and substantial manner.

By resolve, approved March 1, 1870, the sum of \$300 dollars was appropriated, to be expended under the direction of the Land Agent, to aid in building a bridge over Fish stream, in Island Falls plantation, to be paid when said bridge is completed. This bridge is now in process of construction under the superintendence of Daniel Randall, Esq., of Island Falls plantation, and will probably be completed before the first day of January next.

The sum of \$600, appropriated by resolve approved March 10, 1870, to aid in opening a road from the north line of Limestone, through townships letters F, and G, range one, west from the east line of the State, as also the sum of \$22.20, the unexpended balance of last year, have been expended in opening said road, under the direction of Hon. William Small of Fort Fairfield.

By resolve approved March 10, 1869, the sum of \$1,200 was appropriated to be expended under the direction of the Land Agent, in building a bridge over Molunkus stream and repairing the Military road through township number two, range three, in the county of Aroostook, but on examination, it was found that the sum appropriated was insufficient for building a suitable bridge. A small portion of the appropriation was, therefore, expended in repairing the road and making some slight repairs on the old bridge, in order to make it safe for public travel until the meeting of the Legislature. The Legislature at its last session made an additional appropriation of \$600, but by an oversight the sum of \$1,200 appropriated the preceding year was not re-appropriated, and, in consequence of this omission, the bridge has not yet been built. On examining the old bridge in April last, it was found to be so much decayed as to be utterly unsafe for public travel. Joseph Libbey, Esq., of Molunkus, was, therefore, directed to expend upon it such a sum only as would be sufficient to make it safe until the necessary appropriation could be made for the construction of a new bridge. In making the repairs

necessary for this purpose, the sum of eighty dollars and fifty cents was expended.

By a resolve entitled "Resolve in aid of building a bridge over Aroostook river at Fort Fairfield," approved Feb. 23, 1866, the sum of \$2,500 was appropriated in aid of building a "good and substantial covered bridge, with substantial abutments sufficient to sustain a superstructure that shall compare favorably with the bridge erected at Maysville over the same river, *provided*, that before the money shall be drawn, the inhabitants of Fort Fairfield and vicinity shall have said bridge completed in all its parts to the acceptance of the Land Agent;" and, by a subsequent resolve, approved February 18, 1867, this resolve was so far modified as to allow the Land Agent to pay the sum of \$1,500 when all necessary abutments and piers required in the erection of said bridge, shall have been completed, and \$1,000 more upon the completion of the bridge; and said resolve was also further amended, so far as to allow the bridge to be built without requiring the same to be "covered" as specified in said resolve. The abutments and piers of this bridge were completed in a substantial and workmanlike manner in the year 1868; but owing to an omission to insert in the "general appropriation bill" the sum appropriated by the original resolve, the sum of \$1,500 was not paid until August, 1869. Since that time a good, substantial, *covered* bridge has been erected, under the superintendence of Hon. Isaac Hacker, and is a permanent structure—much better than the one erected across the same river at Maysville, and referred to in the resolve.

In addition to the \$2,500 appropriated by the State, about \$5,500 were expended in the construction of this bridge by the town of Fort Fairfield, making the entire cost of the bridge about \$8,000.

The bridge over the Aroostook river at the picturesque and thriving village of Caribou, in the town of Lyndon, has been completed; and although it is not a covered bridge, it is one of the most thoroughly built and nicely finished structures which span that river. The cost of this bridge is about \$6,400,—\$3,000 of which have been paid by the State. The want of this bridge has been much felt by the citizens of Lyndon, and those having occasion to travel from Caribou village and vicinity, to Tobique on the St. John river.

The appropriation made by resolve, approved February 23, 1869, to repair the bridge over the Aroostook river at Maysville, was

expended in the latter part of that year, under the direction of Hon. Joel Bean, but his return of expenditures, was not received in season to be included in last year's account.

A good substantial bridge having been built the past season over Fish river, at the mills near its mouth, by the town of Fort Kent, the sum of \$300 appropriated by resolve approved March 3, 1868, and \$700 appropriated by resolve approved March 9, 1869, for the purpose of building said bridge, have been paid over to the selectmen of said town, pursuant to the provision of said resolve.

The appropriation of \$800, for the repair of the road leading across Indian township in the County of Washington, has been expended under the superintendence of Hon. Putnam Rolf, whose accounts have been settled. The public travel over this road, from Princeton to Lincoln, has very much increased since the completion of the European and North American Railway from Bangor to the latter place, and it is thought that an annual appropriation will be necessary to keep this road in suitable repair.

Of the sum of \$300, appropriated by resolve approved March 17, 1870, to be expended in repairing the bridge over the Mattawamkeag river, in the town of Mattawamkeag, the sum of \$148.12 has been expended, under the direction of Hon. Asa Smith, in repairing the small bridge, and graveling the approach at the easterly end of the main bridge. New stringers, resting on firm granite abutments, and new planking, and a good and substantial railing, have been furnished for the small bridge, and the work has been done in a faithful and satisfactory manner.

By resolve approved March 14, 1870, the sum of \$4,000 was appropriated, to be expended in repairing the road known as the "Canada road," from the north line of Moscow' to the boundary line, a distance of about sixty miles. After an examination of this road, made by Hon. Thomas S. Lang, under instructions from this department, it was deemed advisable, owing to the great length of the road, to divide it into three sections, in order that the work of repairing, on different portions of the road, might be done at the same time, and in proper season, and while progressing, be properly inspected. On the first section, extending from the north line of Moscow to "The Forks," was apportioned the sum of \$2,000, which was expended under the direction of Omah Clark, Esq., of Carratunk. On the second section, extending from "The Forks" to the north line of Bingham's Purchase, the

sum of \$1,200 was apportioned, which was expended under the direction of Jonas H. Colby, Esq.; and on the third section, extending from the North line of Bingham's Purchase to the Canada line, the sum of \$800 was expended, under the superintendence of Otis Holden, Esq., of Moose River. From reliable information received at this office, it is believed that the appropriation has been faithfully and judiciously expended.

The Legislature, at its last session, appropriated \$500 in aid of repairing the county road through the town of Moscow, in the county of Somerset, to be expended under the direction of the Land Agent, provided said town should expend a like sum on said road; and satisfactory evidence having been furnished that said sum had been faithfully expended on said road, agreeably to the terms of said resolve, the sum appropriated as aforesaid, was subsequently expended, under the direction of John Carney, Esq., of Moscow.

It is believed that the appropriations made by the last Legislature, for the building and repairing of roads and bridges, have been faithfully expended. The work was generally done early in the season. The summer was unusually dry, and the roads, upon which repairs have been made, have been improved much more than they would have been in a less favorable season.

LANDS RESERVED FOR PUBLIC USES.

By resolve approved March 5, 1870, the Land Agent was authorized to exchange public lots number eighty-one and eighty-three, in township number six, range five, Aroostook county, "for other lands of equal value in said township, allowing said public lots to revert to the State for settling purposes." Upon an examination of the lands in said township, it was found that there were only two vacant lots the fee of which was in the State, with the exception of three lots number fifty-seven, sixty and sixty-one, which had been designated and set apart under the provisions of a resolve entitled "resolve directing the Land Agent to designate and set apart certain lots of land in aid of mills in Moro plantation, in the county of Aroostook," approved February 26, 1870, and that those two lots were not of sufficient value to be exchanged for the lots named in the resolve. It was, therefore, found to be impracticable to make the exchange contemplated by the resolve.

Under the authority of a resolve entitled "resolve authorizing the Land Agent to change the location of public lots in plantation

number eleven, range one, Aroostook county, approved February 26, 1870, lots number eleven, A twelve, twelve, and twenty-five, Burleigh's survey, have been exchanged for public lots number twenty-three and twenty-four, in said plantation.

The necessary legal steps have been taken to have the reserved lands in the following described townships located, agreeably to the provisions of chapter five of the Revised statutes, viz: township numbered eighteen, in the third range, now town of Grant Isle; that part of townships number eighteen in the fourth and fifth ranges, now town of Madawaska; that part of townships number eighteen, in the fourth, fifth and sixth ranges, which now constitute the town of Dickeyville; township number eighteen, range seven, and part of township number eighteen, range six, now town of Fort Kent; township number seventeen, range eight, now St. John plantation; and township number seventeen, range nine, now St. Francis plantation. All of said towns are in ranges west from the east line of the State, in the county of Aroostook.

LANDS HELD IN COMMON WITH OTHERS.

Under "resolve authorizing the Land Agent to obtain proposals for the purchase of certain lands, or cause partition thereof," passed March 17, 1870, the Land Agent is happy to report that the European and North American Railway Company have honorably proposed to relinquish any claim which they may have to the settlers' lots in township number thirteen, in range four, being one of the towns specified in said resolve, so that the settlers may be quieted in their possessions. This being done, there is nothing in the way of the State giving the settlers in question, a good title to their lots, according to the terms of their certificates.

In respect to townships number seventeen and eighteen, in range seven, specified in said resolve, being unable to obtain satisfactory proposals from the co-tenants for the conveyance of their portion of the lands held in common, proceedings have been instituted in the name of the State for partition of the lands, in accordance with the directions of the resolve. The case is still pending in the Supreme Judicial Court for the county of Aroostook.

SCANDINAVIAN IMMIGRATION.

In accordance with the "Act to promote immigration, and to facilitate the settlement of the public lands," approved March 23,

1870, township number fifteen, in the third range, in the county of Aroostook, was assigned for the location of the expected Colony, by the Board of Immigration, and with the concurrence of the Governor and Council. As soon as favorable information was received respecting the success of the enterprise, Hon. Noah Barker was selected as surveyor, to run out and locate lots and roads on the township, for the expected settlers, and his return was duly made to the Land Office. The township was an unbroken forest, with not an inhabitant or road upon it, but of rich soil, and being well watered, seemed to be peculiarly proper for the purpose to which it was appropriated. In order in some degree to make ready for the immigrants, the trees on five acres of each lot, to the number of twenty-six lots in all, were felled, and a comfortable log house erected on each, and furnished with a cook-stove and some other small articles, all under the supervision of the Land Agent, but by the authority of the Governor and Council.

The Colony arrived by way of Halifax and St. John, on the twenty-third day of July last, consisting of fifty individuals. Subsequent arrivals have increased the number to one hundred and two, who have gone to work with a will to clear their lands, and make other improvements upon them. The name of "New Sweden" has been adopted for the township, and certificates have been issued to the several immigrants, under the hand and seal of the Land Agent, but in the name of the State, assuring each a good title to his lot, in accordance with the terms of the act.

As the Board of Immigration have been particularly charged with the work of superintending the enterprise, a particular reference is here made to their Report.

ASSISTANTS IN THE LAND OFFICE.

Hon. Noah Barker was employed as assistant, from the commencement of the year until the thirteenth day of June, when he left for the purpose of making surveys in townships numbers fourteen and fifteen, range three; and Edwin C. Burleigh, Esq., was employed as an assistant from the fourth day of May to the close of the year.

The Land Agent was absent from the office, from the thirteenth day of June to the twelfth day of August, and from the ninth day of September to the first day of October, inclusive, attending to duties connected with the Maine Swedish Colony, under general instructions from the Governor and Council. These duties, in con-

nection with the persevering and very successful efforts of the Commissioner of Immigration, deemed absolutely necessary to the success of the Colony, have thrown much additional care, responsibility and labor upon the office during the past year.

FINANCIAL.

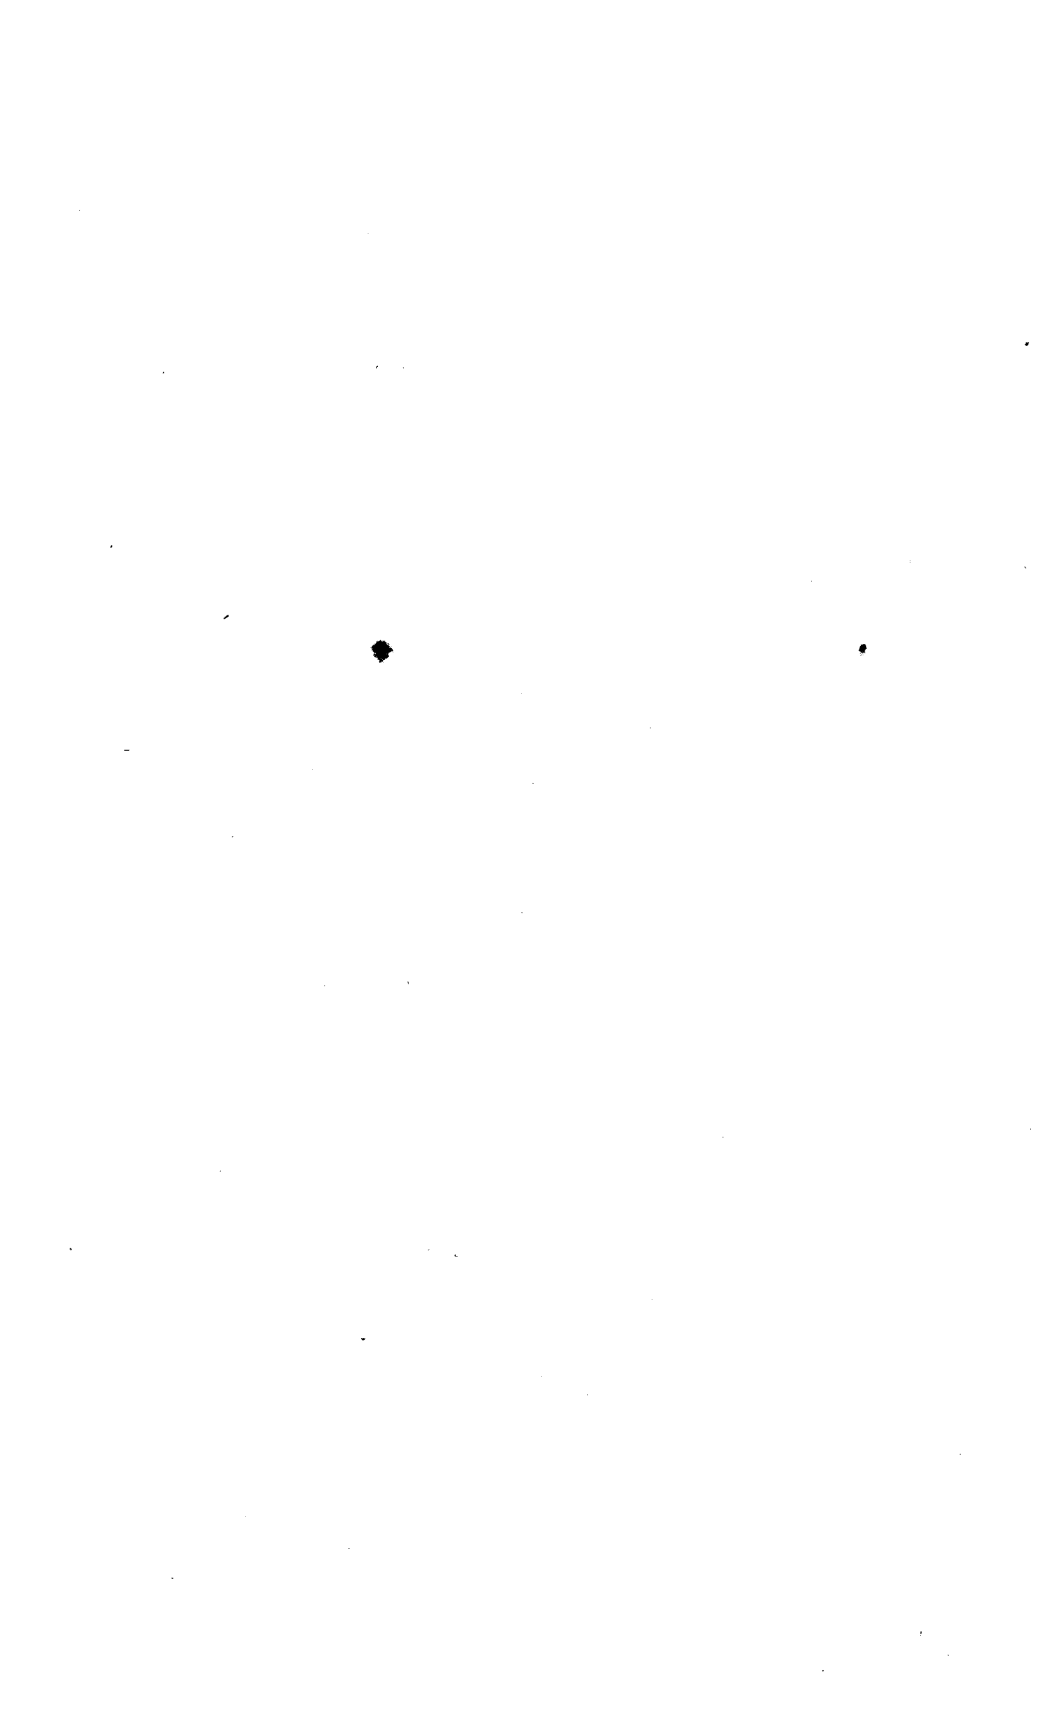

The amount of cash paid into the treasury during the past year, is fourteen thousand three hundred ten dollars and twenty-seven cents, as follows :

On permanent school fund	-	-	-	\$12,801.34
“ general account	-	-	-	1,508.93
				<hr/>
				\$14,310.27

A large proportion of the logs cut the past season on the Penobscot and Mattawamkeag waters, could not be driven to market for want of water, so very severe was the drought; and as the stumpage of a large proportion of the timber cut on the public lands of the State, is not payable until the timber is brought to the booms, the amount paid into the treasury is something less than was anticipated.

The receipts and disbursements of cash may be seen by reference to the accounts and trial balance annexed to this Report.

PARKER P. BURLEIGH, *Land Agent.*
