1876.

REPORT.

LAND OFFICE, December 1, 1875.

To the Governor and Council of Maine:

In compliance with the provisions of law, the Land Agent has the honor to submit this his Annual Report for the year ending November 30, 1875.

SALES AND CONVEYANCES OF LANDS.

In obedience to the Act approved February 23, 1875, "to facilitate the business of the Land Office and the disposal of the public lands," under the direction of the Governor and Council, the several classes of lands and timber designated in said act were, after having been explored and advertised as required by said act, sold at a public sale held at Bangor on the twentieth day of October, and by adjournment, on the twenty-ninth day of November last, as follows:

1. Lands held in fee by the State, containing 5,369 acres, for \$2,684.50.

2. Lands held in trust by the State for the Permanent School Fund, 6,671 acres, for \$2,001.27.

3. The right to cut timber until 1884, on one of the townships reserved in the grant to the European and North American Railway Company for the Permanent School Fund, for the sum of \$5,070.42.

4. The right to cut timber and grass on lots reserved in grants from the State, containing 19,182 acres, for \$3,448.57.

5. Lands reserved by the Commonwealth of Massachusetts for the future disposition of the Legislature, and since transferred to this State, 3,393 32-100 acres, for \$535.46.

6. Lots and sections of land situate in townships set apart and designated for settlement, the same having been determined to be unfit for settlement, 80,677 19-100 acres, for \$38,217.31.

There have also been conveyed during the past year, for cash and cash securities, 3,100 67-100 acres, for \$1,964.93; under

various resolves, mostly to actual settlers, as shown by schedule B, annexed to this report, 3,391 76-100 acres; to actual settlers on the surrender of outstanding land certificates, 9,623 41-100 acres; to actual settlers by conditional deeds for road labor notes, under resolve entitled "Resolve in relation to township fourteen, range four, in Aroostook county," approved March 15, 1861, 3,480 62-100 acres; to Swedish immigrants, in pursuance of "An act to promote immigration and to facilitate the settlement of the public lands," approved March 20, 1870, 300 acres. There have also been contracted to actual settlers, for road labor notes, 14,616 13-100 acres, for \$7,339.26. There have also been conveyed during the past year several tracts of land situate in the county of Oxford, which were sold at the public sale of lands and timber at Bangor, September 23, 1874, but as the purchasers failed to comply fully with the terms of sale, conveyances were not made until the present year, viz.: The right to take timber and grass from lots reserved for public uses, containing 1,949 acres. Also unconditional conveyances of other tracts, embracing 42,977 acres. For a particular statement of these conveyances see Schedules M and N.

SURVEYS OF LAND.

For the purpose of ascertaining the quantity of the vacant lands in townships number thirteen, range six, and seventeen, range seven, W. E. L. S., and the quantity and value of the timber standing thereon, to be advertised and sold agreeably to the provisions of "An act to facilitate the business of the land office and the disposal of the public lands," approved February 24, 1875, said lands were surveyed and explored by Ivory B. Gerry, surveyor, whose field notes of the surveys and reports of explorations were duly returned to this office.

EXPENDITURES ON ROADS AND BRIDGES.

The following expenditures on roads and bridges have been made under resolves of the Legislature:

By a resolve approved February 12, 1875, the sum of five hundred dollars was appropriated to be expended under the direction of the Land Agent, upon the New England road, so called, in the town of Kingsbury, which sum has been faithfully expended under the direction of William Lane, Esq., of Monson.

The sum of one hundred and sixty-five dollars and seventy-five cents has been expended under the direction of Daniel Randall, Esq., of Island Falls, in repairing the road in Silver Ridge plantation leading from Edgerley's mills to Kingman, in pursuance of a resolve entitled "Resolve in favor of Silver Ridge plantation," approved February 24, 1875, said sum being a balance of proceeds of land sold to build a bridge in said plantation in eighteen hundred and seventy-four.

By resolve approved February 23, 1875, the sum of two thousand dollars was appropriated "to be expended by the Land Agent on the bridge over the Mattawamkeag river in the town of Mattawamkeag on the Military road." Under this resolve the sum of \$1,779.61 has been expended and the bridge put in complete and thorough repair, leaving a balance of \$270.39 unexpended.

By a resolve entitled "Resolve in favor of the town of Island Falls," approved February 24, 1875, the Land Agent was directed to sell the lands belonging to the State and situate in the town of Island Falls, County of Aroostook, that were unfit for settlement, and to expend the proceeds on roads and bridges in said town. Under this resolve 3,001 51-100 acres of land were sold for the sum of \$1,864.90, which sum has been expended on roads and bridges in said town under the direction of Daniel Randall, Esq., of Island Falls.

By a resolve entitled "Resolve in aid of completing the road leading from Limestone to Hamlin," the sum of three hundred dollars was appropriated to complete said road. Under this resolve said sum has been judiciously expended, and the road completed from the south line of Hamlin plantation to the St. John river, in a thorough manner, under the supervision of Peter C. Keegan, Esq., of Van Buren.

By a resolve approved February 24, 1874, the sum of two hundred and fifty dollars was appropriated "for the repair of the Shin pond road, leading from Patten to the lumbering regions." Under this resolve the sum of two hundred and twenty-seven dollars was expended in the year eighteen hundred seventy-four, leaving a balance of twenty-two dollars and forty-one cents, which has been expended on said road the past year under the direction of Ivory B. Gerry, Esq., of Sherman.

An appropriation of one thousand dollars was made by resolve approved March 3, 1874, to be expended under the direction of

the Land Agent in building a bridge across the Mattawamkeag river at Kingman, provided that the bridge be constructed within one year from the date of the approval of said resolve. At the date of last annual report the work on this bridge had been commenced, and has since been completed within the time limited by the resolve, and the sum appropriated has been paid to the persons authorized to receive it.

LOCAL AGENTS FOR SETTLING LANDS.

The following persons, residing in the vicinity of lands set apart and designated for settlement, were appointed agreeably to section twenty-eight, chapter five of the revised statutes, "to superintend the location of settlers, the payment of their road labor, and the performance of their several duties :"

Name.	Township.	Corporate Name.	P. O. Address.

RAILWAY AND OTHER CLAIMS.

In the last annual report reference was made to claims preferred by the European and North American Railway Company to different parcels of land, under the State grant to said company, by reason of which claim the lands were withdrawn from the sale, to await the final decision of the title. Subsequent to the said report a conference was suggested by the company with the Governor and Council, for the purpose of adjusting all differences and settling all controversies arising under the grant. The conference was assented to, and resulted in a final and complete settlement of all disputes known to exist between the company and the State; and mutual deeds were executed to carry the agreement into effect. By this arrangement the company relinquish all claim to all lands in controversy except only such as came within the reservations made in Massachusetts grants "for the future disposition of the Legislature," lying on the waters of the Penobscot river, all which reservations were released to the company, subject to the possession of any occupant of more than seven years' continuance.

The arrangement thus made was assented to and executed in accordance with what was believed to be the true and legal construction of the terms of the grant. The title thus quieted removed the only remaining objection to the sale of the lands under the resolve, and they were accordingly sold, with other lands belonging to the State, as already stated in the previous part of this report.

In this arrangement all known causes of action existing with the company were discharged, the existing suits having been previously adjusted, so that no litigation from that source either exists or is probable.

In this connection it may also be remarked that the only suit pending during the past year, in reference to matters connected with the Land Office, was that relating to the title of the public lots reserved in the township of Vanceboro'. Prior to the last report, the case had been tried, and was then held by the court under advisement. Since that time an adverse decision has been rendered, the record disclosing certain defects in the organization of the plantation which rendered it void. The subsequent incorporation of the town, however, has perfected the title in the inhabitants.

RECORDS AND ARCHIVES.

Under resolve chapter 286, approved March 3, 1874, "relating to the plans and records in the State Land Office," the Land Agent during the year past has partially performed the duty imposed thereby, by taking such measures as have been regarded necessary for the preservation and convenient use and reference of the records, plans and documents now in the office, including those recently received from the Commonwealth of Massachusetts. The importance and nicety of the work, however, has prevented him from as yet completing it. The records and documents referred to are of the greatest value, and will so remain for all time, and the greatest care should be taken not only for their preservation but convenient use and reference. As a very general thing State deeds have always been made according to certain plans and surveys, the description being simply by number and range. And it has been almost equally common that the same mode of description has been continued through the successive deeds made to new purchasers. This practice makes necessary a constant reference to the original plans and field notes of the survey, as indeed here alone is the only place where accurate descriptions of bounds and monuments can be found. And when it is taken into consideration that almost every township and lot of land in the State is held by grant from this State or Massachusetts, and that in this Land Office alone can the requisite information be obtained upon the points above suggested, too high an estimate of the value of these records and documents, plans and field notes cannot be entertained. The absolute importance of their preservation and proper compilation, so as to facilitate their examination and use, cannot then, as it seems, be over-estimated. It is with this view of the matter that the work is being done with great care and faithfulness. The great amount of labor devolved on the office during the year has prevented a completion of the work, and the finishing of it must necessarily pass over to another year.

SUMMARY.

The recent amendment of the Constitution, making the Land Agent a Legislative and not a Constitutional officer of the government, and the sale of the lands already effected, as stated in this report, naturally raise the question, what remains to be done before closing the office, and of what use is its continuance?

These questions would also seem to require an answer under the provisions of the act of 1875, chapter 26, section 3. During the time which has expired since the passage of that act, the Land Agent has to report that, under the direction of the Governor and Council, he has brought to a termination all unsettled business connected with the office and relating to the lands belonging to the State, to the best of his ability, but there still remains much for the office to perform, and which demands future action to a greater or less extent.

I.—*Settlers and Settling Lands.*

After sifting out from the lands in the several townships set apart for settlement, those lots adjudged unfit for that purpose, about 34,781.23 acres remain to be disposed of to settlers. These impose a duty to be performed. A list of lots thus left to be disposed of will be found in Schedule P, annexed to this report.

In addition to these, the State still holds the title of 142,067.60 acres more, which have been taken up for settlement, and for which certificates have been granted to settlers, who are now at work performing their settling duties and earning their titles. With each one of these an account now stands open on the office books, which accounts are to be adjusted, and when fully satisfied deeds are to be made by the State. These duties consist largely of road labor to be performed, under the general supervision of the Land Agent, but under the particular oversight of local agents appointed for the purpose. A list of lots thus held by the State for which certificates are now outstanding will be found in Schedule "O," annexed.

II.—*Conditional Sales.*

The recent sales of lands under the resolve and act of the last two legislative sessions have nearly all been made on a credit of one and two years for two-thirds of the price paid, but few sales having been made for cash, except the right to cut timber and grass on the public reserved lots. In all cases when such credit has been given a conditional deed has been executed, and the purchaser forbid cutting any timber upon the lands without permission from the State Land Agent. The whole sum thus due on these conditional deeds is \$69,778.69. The duty of collecting this and looking after the security, granting permits, &c., is of course important, and unless carefully watched may readily result in loss.

III.—*Reserved Lots.*

The care and oversight of the public lots reserved in the grants made by this State and Massachusetts, until the township is incorporated, is also with the Land Agent, and has heretofore required no little attention. The townships in which these reservations have been made and which have as yet not been incorporated are several hundred in number. Many, indeed the most of these, however, require no attention, inasmuch as the right to take off timber and grass has been sold, and nothing further will be necessary to have done until some organization is effected.

IV.—*Islands.*

Among the very numerous islands in the ocean and bays which skirt the shores of Maine, many are still the property of the State, but exactly which is not known. No full schedules have ever been made of them, though plans of them exist among the documents donated to the State by Massachusetts. During the past year progress has been made in ascertaining the state of the title to these islands, but the difficulty of the task and very great number of them makes the work a slow one. Frequent applications are made for the purchase of one or another, but no sales have been ventured in the present state of the records. The perfecting of these schedules with proper entries of the character, position, and other necessary information respecting the property, forms an important duty yet to be performed.

V.—*Swedish Colony.*

This colony of immigrants so happily planted upon our domain, has become so firmly located and settled as not to be overlooked. Though a success thus far, yet it is not so completely established that the work can be said to be finished. The fostering care and oversight of the State is still invoked, as necessary to the full success of the mission which the colony has so happily inaugurated. This care is now devolved upon the Land Agent, where it most properly belongs.

VI.—*Records and Archives.*

Attention has already been directed to the important subject of repairing, preserving and reducing to order for future use and reference, the great mass of documents, maps, field notes and

records, which for more than half a century have been accumulating in the Land Office, and enriched by those vastly valuable ones recently donated to us by the parent Commonwealth, going back in our history to the earliest settlement of the country. This work has already been commenced upon, but further time will be necessary in order to its completion. Reference is here made to remarks on this subject on a previous page of this report.

VII.—*Furnishing Information.*

The statute requires that plans and field notes of surveys containing description of growth, soil, &c., shall be deposited in the Land Office, open for inspection at all times when the Land Agent or Assistant is in the office, and that "he shall aid in furnishing information about the public lands to all persons who seek for it at his office." As might be naturally expected under the circumstances detailed in the foregoing remarks, when a very large portion of all the land owners in the State hold their titles under original grants from Maine or Massachusetts, the number of applicants for information is constantly great from all parts of the State. The nature of these calls show that this demand will not, at least for a very long time, cease. To meet it, it is necessary that some custodian of the documents should exist to whom application may be made, and who may not only afford the information desired, but also such certified copies as may be required in judicial and other proceedings.

VIII.—*Appropriations and Supervisory Duties.*

The custom has prevailed for almost the entire history of our State, for the Legislature annually to make grants of sums to be expended for various purposes of internal improvement, such as the making and repairing of roads, building of bridges, &c., in nearly all of which cases the duty has devolved upon the Land Agent to oversee the expenditure. Indeed this service has added largely every year to the duties and responsibilities of the office. Unless the State proposes to deny all future appropriations of this kind, provision must be made to meet this service in future.

Such, in the main, are the duties which remain for the Land Office Department to perform, and which the Land Agent has felt it his duty respectfully to report for the action of the proper authorities.

FINANCIAL.

The amount of cash paid into the State Treasury during the past year is sixty-two thousand eight hundred eight dollars and seventy-two cents, as follows:

On general account	\$20,351 24
“ account of permanent school fund.....	38,665 27
“ “ reserved lands.....	3,792 21
	<hr/>
	\$62,808 72

The receipts and disbursements of cash may be seen by reference to the accounts and trial balance annexed to this report.

PARKER P. BURLEIGH, *Land Agent.*

APPENDIX.
