Concurred.

IN SENATE, January 15, 1877.

S. W. LANE, *Secretary.*

# REPORT.

---

*To His Excellency, the Governor, and Council of Maine :*

In compliance with the statute of the State, the undersigned, Examiner of Banks, has the honor and respectfully submits the following as his Fourth Annual Report :

## BANKS OF DISCOUNT AND DEPOSIT.

There are two of these banks now transacting business, the Eastern of Bangor, and the North of Rockland. Since my last report, the Mercantile of Bangor, on March 8th, surrendered its charter, paid out its entire capital, and has a surplus of about \$5,000.00 to be divided on final settlement. The two former are in a prosperous condition, paying their stockholders seven per cent. per annum.

The aggregate liabilities and assets of these banks, when examined, were as follows :

LIABILITIES.	
Capital stock.....	\$125,000 00
Circulation.....	3,512 00
Deposits.....	72,290 36
Due on dividends.....	2,175 00
Due to banks.....	3,076 81
Discount.....	1,804 29
Profits.....	31,686 79
	<hr/>
	\$239,545 25

ASSETS.	
Loans.....	\$165,321 36
Bank stock.....	700 00
Real estate.....	4,000 00
Due from banks.....	42,498 38
Bills of other banks.....	9,164 49
Cash and checks.....	17,861 02
	<hr/>
	\$239,545 25

## THE AMERICAN BANK OF HALLOWELL.

This bank failed and was placed in the hands of Receivers September 5, 1865. The settlement of its affairs was delayed on account of litigation, which was successfully determined in its favor.

The Supreme Judicial Court, March term, 1875, in Kennebec county, ordered a final dividend of 88 per cent. to be made to holders of outstanding certificates of indebtedness, all of which have been paid excepting \$1,669.00. Cash in the hands of Receivers to pay the same, at the rate of dividend ordered, and awaiting the presentation of the outstanding certificates, is \$1,468.72, the payment of which will complete the final adjustment of its affairs.

## SAVINGS BANKS.

The number organized in the State is the same as last year, viz : sixty-four, four of which became insolvent and were placed—one before and three since my last report—in the hands of receivers, as follows :

Winthrop Savings Bank, Winthrop, September 27, 1875. Emery O. Bean, Esq., of Readfield, Receiver.

Solon Savings Bank, Solon, December, 1875. H. M. Bodwell, Esq., of Solon, Receiver.

Bucksport Savings Bank, Bucksport, April 25, 1876. T. C. Woodman, Esq., of Bucksport, Receiver.

Lewiston Institution for Savings, Lewiston, May 10, 1876. E. F. Packard, Esq., of Auburn, Receiver.

The officers of the Winthrop Savings Bank, October 2, 1875, turned over to the Receiver the property of the bank then in their hands, amounting at their face value to..... \$52,122 83

The Receiver, November 5, 1875, recovered bonds and securities which had been stolen from the bank amounting at their face value to..... 66,100 00

Total.....\$118,222 83

The amount of claims allowed by the Commissioners was.....\$116,191 34

The Receiver has received for assets sold..... 66,239 07

The assets remaining undisposed of at their face value are..... 47,988 95

The market value of railroad bonds sold and those now remaining on hand, is largely below their face value.

The claims allowed against the bank, besides those of depositors, have been fully paid. A dividend of 40 per cent. has also been paid to depositors. The further percentage to be paid them is dependent upon the result of pending litigation. Should this be favorable to the bank, it is believed it will pay another dividend of about 30 per cent. Bonds amounting to about \$7,000 were pledged to the bank as collateral for money loaned. These were stolen with the other bank property. Of these \$3,900 were recovered and have been returned to the owners by the Receiver, on payment of their notes. The balance, which was United States bonds, has not been recovered. Parties who pledged them having refused to make payment of their notes unless the bonds were returned or paid for, the notes have been put in suit. Payment is resisted and the value of the collaterals claimed of the bank. With a view to an early and final adjustment of the affairs of the bank, the Receiver will urge a speedy trial of the suits pending in court.

The officers of the Solon Savings Bank turned over to the Receiver, December, 1875, the assets at cost to the bank, including accrued interest, amounting in all to.....	\$37,628 40
The claims allowed by the Commissioners were....	35,308 37
The amount received for assets collected and sold is	29,561 81
The amount of assets uncollected is.....	5,097 64
Two dividends have been declared and paid to depositors—	
One of 60 per cent. amounting to.....	21,185 00
One of 25 per cent. amounting to.....	8,827 08
Total.....	<u>\$30,012 08</u>

It is believed that a final dividend and settlement of the affairs of this bank will be reached at an early date.

The assets that came into the hands of the Receiver of the Bucksport Savings Bank (bonds and stocks at their cost to the bank and loans at their face) were \$166,556.13. The Commissioners reported the claims against the bank to be \$163,558.87.

The Receiver made a report at the October term of the Supreme Judicial Court in Hancock county, which was audited by the Court, showing that, including the money paid him by the Treasurer of the bank, he had received in cash arising from the sales

and collection of assets the sum of.....	\$63,909 55
and had paid out in expenses.....	643 10
	<hr/>
leaving a cash balance of.....	\$63,226 45
A dividend of 40 per cent. to depositors was authorized by the Court, payable November 1st, 1876, amounting to.....\$65,409 54 to which was added other bills, to be paid in full, as	
per order of Court.....	566 87
	<hr/>
Total.....	\$65,976 41

This sum was in excess of cash then received by the Receiver \$2,710.96. Nearly three-fourths of the dividend authorized has already been paid to the depositors.

The amount of assets that came into the hands of the Receiver of the Lewiston Institution for Savings was \$827,181.35, as they stood charged on the books of the bank when received. He has thus far received from assets sold and collected..... \$307,319 36  
Amount of assets undisposed of..... 487,300 00

No report of the Commissioners has yet been made, the time fixed by the Court in which they were to receive and decide upon claims against the institution not having expired. The books of the institution, when examined on the twenty-first of April last, showed liabilities as follows: Due to depositors, \$753,672.80; bills payable, \$50,000; profit and loss, \$23,508.55.

No dividend to depositors can be made till the January term of the Supreme Judicial Court in Androscoggin county, at which time it is believed the Receiver and Commissioners will make reports, and that a dividend of 50 per cent. will then be ordered. All possible dispatch is being made to reach a final dividend and settlement of the affairs of the bank at an early day.

The Receivers are discharging their duties efficiently, with commendable prudence and promptness.

The deposits and profits of the sixty banks now doing business, on the sixth day of November last, were \$27,818,764.70.

The assets, as compared with 1875, are as follows :

ASSETS.	1875.	1876.
Invested in United States bonds .....	\$759,196 93	\$602,419 16
“ State of Maine bonds.....	265,949 50	137,319 75
“ other State, county and municipal bonds	9,354,460 89	8,849,042 19
“ railroad bonds and stocks.....	4,217,289 51	3,371,021 68
“ bank stock.....	893,589 14	998,749 25
“ real estate.....	363,598 51	464,131 92
“ miscellaneous stocks, &c.....	833,944 15	613,947 34
Loans on real estate .....	8,666,484 70	8,156,544 66
Loans on collaterals, &c.....	5,838,946 71	3,854,901 73
Cash.....	888,954 24	751,687 02
	\$32,083,314 28	\$27,818,764 70

This statement shows a decrease in the deposits of the banks during the year ending November 6, 1876, of \$4,264,549.58, including \$1,029,963.95 deposits of the three banks that have been placed in the hands of receivers since the last annual report.

The decrease of depositors for the same period is 10,705. The whole number is 90,621. The average to each depositor is \$306. The decrease in the deposits the past year is due in part to the inactivity and depressed condition of business, the unusual withdrawal from actual necessity by the laboring classes from every department of industry throughout the State, and largely in consequence of a steady and continued run for nearly four months upon many of the large and strong banks of the State, which responded promptly to all calls upon them. This run, no doubt, was induced and grew up by a general mistrust and want of confidence in savings banks, consequent upon the failure of a few in this and other States, and the failure of many business men and commercial houses throughout the country.

Of the sixty banks, three suspended payment during the year, viz: the Thomaston, in December or January last, the Waterville and Brunswick in May. These banks, owing to the depreciation of some of their investments, were insolvent, and in order to do

no injustice to their depositors, suspended payment. The Water-ville Savings Bank has placed itself in a sound condition, and is now receiving deposits and transacting business apparently with restored confidence. This was effected by an agreement entered into by its depositors, to reduce the deposit account of each depositor; so as to divide its losses upon investments equitably among them. The Thomaston and Brunswick Savings Banks are endeavoring to effect a like result, but as yet without success, a small number of depositors in each bank, representing a very small proportion of the deposits, refusing to become parties to such agreement.

Last year the securities owned by the banks upon which the payment of interest coupons and dividends were suspended, amounted to \$1,190,380.23. This year to \$1,105,955.89, being \$84,424.34 less this than last year.

The non-paying securities, as compared with 1875, are as follows:

A detailed statement of the foregoing for the year 1876, is given of each bank in the abstract of examination by the Examiner, herewith submitted.

Fifty-six out of the sixty banks named in the abstract of the annual reports of the treasurers herewith submitted, that are reported therein as having sufficient available assets to pay their liabilities, are solvent and worthy of public confidence. The four therein named which are reported as not having sufficient available assets to pay their liabilities, are the Thomaston, which is about twenty per cent. insolvent; the Brunswick, about twelve

per cent.; the Camden, about three per cent.; and the Orono, about two per cent.

Three of the sixty banks have not declared dividends the past year. Fifty-seven have declared and paid dividends at the following rates, viz: 37, three per cent. semi-annually; 8, three per cent. and two and one-half per cent. semi-annually; 1, three per cent. and two and three-fourths per cent. semi-annually; 7, two and one-half per cent. semi-annually; 1, two per cent. and two and one-half per cent. semi-annually; 2, three per cent., each passing one dividend.

Of the thirty-seven banks that paid dividends of 3 per cent. semi-annually, twenty-four were banks having deposits less than \$200,000.00. The institutions have generally the past year confined their dividends to the earned profits of the preceding six months, after deducting taxes and expenses. In doing this they have been unable to pass but a very small per cent. to a reserved fund, and in many cases nothing.

Of the 90,621 depositors in the savings institutions of the State, 74,628 hold deposits whose balance is \$500 and less, amounting to \$8,418,851.45, an average to each of \$112.86; 8,899 whose balance is over \$500 and not exceeding \$1,000, amounting to \$6,323,802.91, an average to each of \$710.61; 6,914 whose balance is over \$1,000 and not exceeding \$5,000, amounting to \$10,975,022.00, an average to each of \$1,587.36; 137 whose balance is over \$5,000, amounting to \$1,008,494.36, an average to each of \$7,361.27. This statement indicates that a little over five-ninths of the whole deposits stand to the credit of depositors holding small balances—comprising 83,527 deposit accounts, while those holding balances above \$1,000 comprise only 7,094 deposit accounts. It is believed that this large number of small accounts are due largely to the laboring men, women and children of our State who have in seasons of prosperity reserved and laid aside a portion of their wages for future need, and who since the adverse condition in the labor market, have been compelled from time to time to reduce their deposits, thereby bridging over the present period of stagnation in the various branches of industries, and preserving themselves from falling into absolute destitution. A want of opportunity to do this would be a fruitful source of poverty, pauperism and crime. Our savings institutions afford this opportunity of putting safely aside means for the day of adversity. They appeal to all classes, to their love of independ-

ence, to their pride, to their domestic affections, in short to their manhood, educating them to habits of sobriety, industry, economy and self-reliance. A candid consideration and a careful study of the workings of these institutions, will show that they have been and are serviceable to more and larger uses than to which they were originally applied, their operations have been expanded and enlarged, the State and country have been enriched through their influence and ministration. It must be conceded that the management and protection of the large amount of funds now held by these institutions, draws continually upon the generosity, benevolence and philanthropy of the few men who have them in charge, and are constantly devoting much of their time, patience, experience and financial knowledge to them, without reward, save that which comes from acts of true benevolence. These institutions being benevolent, and creatures of the State, should receive generous and judicious legislation relating to the burdens to be placed upon them, so far as is consistent with the interest and welfare of the State.

The able Commission appointed under resolve of the last Legislature, "to codify, amend or add to the laws relating to savings banks, as they in their judgment believed to be for the best interest of the State," have met and prepared a bill to be reported to the Legislature, a copy of which I have studiously examined. Regarding the bill as a careful codification and revision of the existing statutes, and embracing all the essential additional provisions and amendments required relative to the government, powers, duties, privileges and liabilities of these institutions, and embracing all the suggestions that I deem proper and needful, I would respectfully call attention to its provisions and its importance, hoping the Legislature may enact it, with such changes, if any, as it may deem expedient.

It is believed the bill will give to our savings bank system much strength, and the safeguards that for a long time it has needed, which experience has fully demonstrated. The following is a synopsis of the most important amendments and changes to the law as embodied in the bill :

Limits are carefully and judiciously prescribed in which deposits may be invested, specifically designating the securities in which they may be made.

Semi-annual dividends are limited to two and one-half per cent.

The amount to be received from any one depositor upon which a dividend is to be made, is restricted to two thousand dollars.

The State tax on deposits is fixed at one-half of one per cent. per annum.

Trustees of each bank, once in six months, are to set apart from its earnings, a sum equal to one-fourth of one per cent. on the whole amount of deposits, for a reserved fund, until it amounts to five per cent. of its assets.

A copy of the statement, in detail, of the condition of each bank, as made by the Examiner at his annual examination, is to be published by each bank immediately after such examination.

It is made imperative upon the Bank Examiner, upon the insolvency of a bank, to apply to the court for an injunction, subject only to the action of the trustees, who are authorized whenever the assets of any bank shall be reduced in value below the amount of deposits, to apply to a Judge of the Supreme Court and the Bank Examiner, to reduce the deposit account of each depositor, so as to divide such loss equitably among all, thus rendering it solvent, and authorizing it to continue its business.

The institutions are placed on an equal footing, notwithstanding anything in their respective charters or acts of incorporation to the contrary.

#### INVESTMENTS.

If there is anything connected with the management of Savings Banks in which the trustees should be controlled by law, it is in regard to the kinds of securities and the manner in which investments of deposits shall be made. Upon this largely depend the security and safety of the banks. Limiting and defining by law the securities in which investments shall be made, affords to depositors the opportunity of knowing the way and manner their deposits are to be invested. It will have a salutary effect in checking unwise and hazardous investments. The wisdom of such a provision of law must be obvious.

#### DIVIDENDS.

The restriction of dividends on individual deposits above two thousand dollars is regarded as sound policy. It is just, and a rational method of restricting the operations of savings banks to their legitimate purpose. But few large deposits are placed in these banks for long periods. In case of a run or money panic

the large deposits that are placed there on short time are the first called out and their withdrawal drains the resources too rapidly. They are sensitive and embarrassing in time of financial insecurity.

Many of our banks are unfavorably influenced by the impression that as the law now is, that it would be hazardous and a source of danger to them if they should declare less than three per cent. semi-annual dividends. This is the case with a large majority of the smaller, which are less able to pay this rate than most of the larger banks. This also arises in many cases from an unwise competition for deposits. The limit of dividends by law to two and one-half per cent. semi-annually, taking into consideration taxes, expenses, the present low rate of interest, and the absolute necessity of setting apart some fixed portion of the earnings for a reserved fund, must be regarded in accord with the policy contemplated in the institution of savings banks, that of absolute security to depositors, with such dividends as are compatible with this condition.

#### RESERVED FUND.

Connected with this question of dividends to depositors, is that of the reserved fund, which is an indispensable element of strength and safety. If savings banks could be protected from any possible loss, no reserved fund or surplus would be required. This cannot be; integrity, care and financial skill may greatly diminish the chances of misfortune, but cannot prevent them entirely. Sooner or later losses will come; burglars may do their work; investments must at times, as at the present, be made at a premium that will make returns at par on the day of redemption; securities depreciate in value, and are required to be sold at a discount to meet unexpected calls. In these and many other ways savings banks are exposed to losses. In order to accumulate means that will enable the banks to meet their losses and the demands of all their depositors, and to attain character for good management, and uninterrupted dividends, some portion of the earnings must be set apart for a reserve or surplus fund. In no other way can the depositor be protected against loss. The setting aside of some portion of the earnings for a reserve should be obligatory, upon this the safety of these institutions depends. The amount of reserve which should be required is a question upon which there might be a difference of opinion. The weight of opinion so far as it has been expressed by the officers of these institutions, is that

a reserve or surplus of ten per cent. of the assets would not be excessive. As our statute now is, practically nothing is added to a reserved fund. A reserve works no injustice to any one; no danger attends its accumulation; without one the security of the depositor is impaired. A bank having a large reserve can pay a higher rate of dividend to its depositors than one having none, as a reserve continually draws interest to be divided.

#### TAXATION.

The rate of State tax that should be imposed upon the deposits of the savings institutions is a question upon which honest opinions will differ. With one exception, that of New Hampshire, the banks in Maine are paying a higher tax than any other State in New England. The tax in Massachusetts is three-fourths of one per cent., reduced from one to three-fourths per cent. about two years since. In Connecticut one-half of one per cent. on real estate loans, on other investments one per cent. In Rhode Island one-fourth of one per cent. In Vermont all deposits of \$250 and less are exempt from taxation, the balance with names of the depositors are returned to the town clerk for taxation.

There are but a few banks in this State that out of their earnings at the present low rate of interest, can pay one per cent. tax, one-fourth of one per cent. to a reserve fund, (now so much needed) and expenses, and pay a two and one-half per cent. semi-annual dividend to depositors,—not over one-fourth of the banks could safely do this. A majority would be obliged, in order to pay the one per cent. tax, the one fourth per cent. to a reserved fund and expenses, to reduce their semi-annual dividends to two and one-fourth per cent., if they would keep themselves within their actual earnings. Upon a careful and close calculation of the earnings of the banks, I am of the opinion that nearly all would be able to pay a tax of three-fourths of one per cent., pass one-fourth of one per cent. to a reserved fund, pay expenses, and declare semi-annual dividends of two and one-half per cent. It is out of the question for the banks to get high rates of interest for money without incurring too great risks. Three or four years ago the banks could much easier have paid one and one-half per cent. than three-fourths of one now. When the tax was raised from one-half of one per cent. to one per cent., money was demanding much higher rates than at any time for the past two years. These are facts respectfully submitted as worthy of consideration

upon the propriety of changing and fixing a reduced rate of taxation.

#### PUBLICITY.

The Commission, not overlooking the importance of the publicity of the condition of the banks, have inserted a provision in their bill requiring each bank to publish a copy of the report in detail of its annual examination by the Examiner, immediately after examined, in the local newspaper in the place where established. This wisely affords depositors throughout the State means for all necessary information in regard to the condition of the banks in their several localities. It will give confidence and strength to them and is desirable as one of the best checks upon illegitimate operations. Want of knowledge relative to the condition and standing of moneyed institutions is one of the great causes of erroneous opinions and unjust suspicions concerning them. By affording the public knowledge, savings banks can win and hold the public confidence by deserving it.

#### INSOLVENCY.

The provision of the bill requiring the Bank Examiner, in case of the insolvency of a bank, to apply to the court for an injunction, taken in connection with the provision authorizing the trustees to apply to a Judge of the Supreme Court and the Bank Examiner whenever the assets of any savings institution shall be reduced in value below the deposits, to reduce the deposit account of each depositor, so as to divide such loss equitably among all, thus rendering the institution solvent, and authorizing it to continue its business, is regarded politic and timely. The provisions are apparently well guarded, and will protect the rights and interests of the depositor and promote the public welfare.

The management of the banks the past year amid so much distrust and fear on the part of depositors, has been a constant anxiety and tax upon the mind, energy, knowledge and financial skill of the officers of these institutions, such it is believed as has never been experienced before in the State. I am gratified to say that they have been discreetly and judiciously conducted, both in the interest of depositors and the public.

WILLIAM W. BOLSTER, *Bank Examiner.*

AUBURN, December 1, 1876.
