REPORT.

To the Honorable Governor and Council of Maine:

I have the honor herewith to present my Report as Agent of the Passamaquoddy Tribe of Indians, for the year ending November 30th, 1877.

The expenditures will be more fully shown by my account herewith submitted, with the accompanying vouchers.

The appropriations for the year, as will appear by a resolve of the Legislature, approved February 7, 1877, were as follows, viz:

Stove and chimney for hall at Peter Dana's		
Point	32	06
Overdrawn balance of the year 1876	375	08
	\$5,255	67
Appropriations for 1877	4,945	08
-Balance due Agent	\$310	59

As will be seen by the foregoing report, my expenditures in some instances have exceeded the appropriation, particularly the appropriation for distressed poor. One member of the tribe, Peter Mitchell, became insane, and was removed to the insane hospital at Augusta, and still remains there.

The expense during his sickness, for himself and family, previous to his removal to the hospital, and the expense of his removal there, drew largely on the poor fund. As the matter now stands, the town of Princeton is holden by the hospital for a portion of his support; but it seems to me, as he is really a State pauper, his whole support at the hospital should be charged to the State. At the time of his commitment by the authorities of Princeton (which was done at my request), they supposed he was to be considered a State patient, and I think it proper that his support should be charged directly to the State.

There are thirty-three widows in the tribe, and the greater part of them are very destitute. I have allowed them from one to five dollars each, per month, as the necessities of each case in my judgment required.

The amount paid them, and the expense on account of sickness, (including Peter Mitchell's bill), and funeral expenses, has exceeded the appropriation for distressed poor, by \$354.68.

I think the prospect for the coming year is not very encouraging, as at the present time there is a great deal of sickness, and very little prospect of work for those to do that are well.

I would recommend an appropriation of two thousand dollars for the coming year for distressed poor.

The buildings belonging to the tribe are all in good repair, and no appropriation will be needed for that purpose.

As the facilities for getting firewood at Pleasant Point are very poor, I would recommend an appropriation for that place of one hundred dollars; twenty dollars for Pembroke, thirty dollars for Calais, and fifty dollars for Peter Dana's Point.

I would recommend an appropriaton of fifty dollars for repairs upon the road leading from Peter Dana's Point to the Granger Turnpike.

I would recommend an appropriation of one hundred dollars for contingent expenses.

The school at Pleasant Point has been very successful the past year, the parents and children both taking more than usual interest in it, which is quite encouraging.

I regret very much to say, that at Peter Dana's Point there is not the interest manifested in the school, either by the parents or the children, that I would like to see.

I secured the services of Mr. D. Dresser as the teacher. He had taught the school before, and understands them thoroughly, and I know he did all that could be done to make the school a success.

The members of the tribe as a general thing have taken more than usual interest in farming the past year, and I would recommend an appropriation of one hundred dollars for dressing for land.

I find upon taking the census of the tribe, there are in all 503; five less than last year.

Of the whole number at the time of taking the census, 255 were males and 248 females.
