REPORT.

STATE LIBRARY, }
December, 1882. }

To the Honorable the Legislature of the State of Maine :

In compliance with the laws of the State, I have the honor to submit to your honorable body the following biennial report of this department of the public service.

The amount received by appropriation for the year 1881, was four hundred seventy-nine dollars fifty-six cents. For the year 1882, five hundred dollars, making a total of nine hundred seventy-nine dollars fifty-six cents received for the use of the library for the two years.

The expenditure for the same period has been nine hundred forty-one dollars and twenty-one cents, leaving a balance of thirty-eight dollars and thirty-five cents. The amount has been expended by me under the direction of the Trustees, with whom I have settled an account each year. The accounts with vouchers are on file in the office of Secretary of State.

A full list or catalogue of all additions made to the library for the same period is herewith submitted. The additions have been secured by purchase, by donations, and by exchange, as follows :

Acquired by purchase.....	Law Books.....	114	Volumes.
“ “	Miscellaneous....	110	“
“ “	Pamphlets	108	“
“ by donations.....	Books.....	53	“
“ “	Pamphlets.....	75	“
“ by exchange.....	Books....	681	“
“ “	Pamphlets.....	457	“

The increase of the library from all sources as shown by the above statement is 958 volumes and 640 pamphlets, exclusive of books and documents received from our own State Government.

I have endeavored to expend the money judiciously. I ask your examination of the catalogue.

It will be seen that the general growth and prosperity of the library have continued uninterruptedly during the past two years. Increasing embarrassment is felt in finding space in the present quarters for the proper display or even disposal of the books and pamphlets of the library. They have to be stored away in the back rooms where they are not readily accessible.

For the past two years I have pursued the policy of making the general library more distinctly a library of reference and of American history, though not exclusively so. Care has been taken to gather up the material which may furnish the original sources of history in the future. All histories of a local character, biographies and genealogies which may supply facts for the future historian, are as far as possible secured.

To the law library have been added the most important text books. This department is also enriched each year by the addition of all important reports and documents and session laws of nearly every State and Territory in the Union, as will be seen by the catalogue of exchanges. This part of the library is invaluable. Its use by the Courts of the State, the lawyers and legislators in the performance of their duties, has been greater during the past two years than at any previous period. The lawyers in all parts of the State, as well as the judges of the courts, avail themselves of the privileges of the library.

I have no doubt you will consider carefully the needs of the library, and make for it a generous appropriation.

The laws and regulations relative to the care of the library are annexed, and made a part of this report.

J. S. HOBBS, *State Librarian.*
