REPORT.

*To the Honorable the Governor and Executive Council of
Maine:*

In presenting the Twenty-Eighth Annual Report of the State Bank Examiner, it affords much satisfaction to state that, notwithstanding the past year has been one of liquidation, involving an enormous decline in values, the surplus above liabilities of \$4,000,000, which was held by the savings banks of Maine at the close of last year, has remained unimpaired, and their condition is such that they were never more worthy the confidence of the public than at the present time.

In the abstract from the first semi-annual examinations which is made a part of this report, the present worth of the assets of the bank at the time of examination is estimated, as nearly as is possible, from the record of sales of the same securities during the week or month that the statement of the standing and condition of the bank is published. From the aggregate value of the assets as estimated, is deducted the actual liabilities of the bank, and the balance is the "surplus above liabilities."

This surplus is largely composed of premiums above the par value which the securities would command if offered for sale in open market; and consequently the same stability only, exists of the surplus of the bank that is maintained by the market value of its assets. If the prices advance, the surplus increases; but if they decline to par, the surplus may entirely disappear.

The income is based upon the par value, and its power to earn is not increased by an appreciation of the value of the stock or bond.

If a savings bank purchased fifty thousand dollars of United States four per cent bonds, at the time they were available at par, its income from the investment has been 4 per cent, or \$2,000 per annum; within a few years the value of the bonds increased 20 per cent, and the bank thereby gained \$10,000 in its surplus, but the income remains at \$2,000 per annum, while the rate of interest, based upon the enhanced value of the investment, is reduced to $2\frac{3}{4}$ per cent per annum.

The average depositor naturally and properly scrutinizes the "surplus above liabilities" in the published statement of the bank's standing, and although, as has been shown, it is not a matter of absolute stability, yet in consideration of the fact that many of the leading stocks of the country have suffered a depreciation of more than 50 per cent since 1881, while the securities held by our savings banks have not diminished in value, is evidence of wise and sagacious management on the part of their trustees.

The number of depositors in the fifty-four savings banks is 105,680, of whom 84,892 are depositors of less than \$500 each, and the average amount to the credit of each is \$311.44. This is an increase of 3,858 accounts, and an increase of \$3.34 to each during the year.

At the close of last year there were 20,840 depositors of more than \$500 each, and at the present time there are 20,788, which indicates that the increase of deposits during the year is from the accumulation of small sums.

The aggregate of deposits in the savings banks November 1, 1883, was \$31,371,868.87; on May 1, 1884, \$32,275,744.49, and November 1, 1884, \$32,913,835.16, showing an increase during the first six months of \$903,875.52, and during the last half of the year of \$638,090.67.

The fluctuations which have occurred in the growth of the savings banks of this State during the past decade may be seen by the following table:

BANK EXAMINER'S REPORT.

	Number of Banks.	Amount of Deposits.	Number of Depositors.	Average to Each.
1874,	58	\$31,051,963.73	96,799	\$320

1879,	59	23,052,663.00	75,443	278
1880,	55	23,277,675.32	80,947	287

1882,	55	29,503,889.71	95,489	309
1883,	54	31,371,868.87	101,822	308
1884,	54	32,913,835.16	105,680	311

The Reserved Fund continues to show a healthy growth, increasing the first six months, \$22,463.18, and \$35,871.92 between May 1 and November 1, and reaching an aggregate of \$1,098,431.37 at the close of the present year.

Regular semi-annual dividends have been paid by all the savings banks at the following rates :

One bank.....	6	per cent per annum.
Three banks.....	5	“ “
Eight “	4½	“ “
Forty-two banks.....	4	“ “

The amount of these several dividends was \$1,284,444.80. There remained in the savings banks November 1, \$887,169.95 in undivided profits.

The amount invested in United States and District of Columbia bonds November 1, 1883, was \$5,584,400.37 and November 1, 1884, \$4,739,840.58, making a decrease during the year of \$844,559.79.

Within the year investments in the bonds of the State of Maine have decreased from \$55,910 to \$28,610.

The county, city and town bonds held by the savings banks have increased from \$10,287,412.51 to \$10,883,981.09. This includes \$934,000 of Maine, \$3,362,000 of Ohio, \$2,439,000 of Indiana, \$830,000 of Illinois, \$587,000 of Missouri,

\$238,000 Minnesota, \$232,000 of Iowa, \$218,000 of Kentucky, and \$220,000 of Michigan.

The aggregate of railroad bonds owned by the savings banks is \$4,363,381.46, which includes \$1,765,000 of the railroads of this State. The amount invested in railroad bonds has increased during the year \$923,550.60.

Investments in corporation bonds and corporation stocks, etc., amount to \$1,175,359.42. This item includes the railroad stocks held by the savings banks.

The real estate in possession of the savings banks by investment and foreclosure amounts to \$1,124,087.65.

The savings banks own national bank stock to the amount of \$1,583,537.22, a gain of \$48,228.89 from last year.

The loans on mortgages of real estate have increased during the year ending November 1, 1884, from \$5,216,929.17 to 5,438,608.56, while all other loans have increased during that period from \$4,434,537.03 to \$4,608,680.04.

The uninvested cash, November 1, amounted to \$751,868.94, the greater portion of which is deposited in national banks at 3 per cent interest.

The savings banks have paid the State Treasurer for taxes the present year, \$191,817.63, an excess of the amount paid in 1882 of \$1,728.24. This result justifies the recommendation of the Bank Examiner that the rate of taxation should be modified, and verifies the prediction contained in the report of 1882 that such a reduction would tend to increase rather than diminish this revenue to the State.

During the year a final settlement of the affairs of the Solon Savings Bank has been made by H. M. Bodwell, Esq., who was appointed Receiver in December, 1875. Five dividends have been paid by the Receiver, and the depositors have received 2 per cent in excess of their claims as allowed.

The affairs of the Newport Savings Bank have not yet been brought to a final settlement. The Receiver, J. W. Hobart, Esq., has paid four dividends to the depositors, aggregating 70 per cent of their claims, and he expects within a few months to make a final dividend of 5 per cent.

The People's Twenty-Five Cent Savings Bank of Bath, the deposit accounts of which were reduced, by decree of the Supreme Judicial Court, on the 20th day of April, 1883, to 80 per centum of their then existing value, has, by petition of its Trustees, dated October 29, 1884, represented to the Court that a larger sum has been realized for a portion of its assets than the value then estimated by the Court; and prays that a *pro rata* dividend of the excess may be authorized.

Notice of the pendency of the petition has been published, and the third Tuesday of December has been appointed by the Court for the consideration of the same.

In June, 1879, the Wiscasset Savings Bank was enjoined, by decree of the Supreme Judicial Court, from receiving or paying deposits or paying dividends, and the injunction was continued until the October term in 1880. By a bill in equity brought by the trustees of the bank at the October term of the present year, representation is made that during the time the bank was under the injunction, its earnings amounted to \$6,072.55, which profits, belonging to the depositors of the bank at that time, have never been divided; and praying that the bank may be authorized, by decree of Court, to make an equitable distribution of such undivided profits. The Court has ordered that a hearing shall be given in the matter, at Wiscasset, the first Tuesday in December, instant.

Since my last report, the Portland Trust Company has completed its organization and opened its doors for business. Its paid-in capital is \$100,000, and it has authority to increase the same to \$1,000,000. The Board of Trustees is composed of the following gentlemen: Harrison J. Libby, Mark P. Emery, William W. Brown, William G. Davis, Philip Henry Brown, Frederick N. Dow, Charles F. Libby and William E. Gould, of Portland; Frederick Robie, of Gorham; Samuel A. Holbrook, of Freeport; Joseph S. Wheelwright, of Bangor; Henry S. Osgood, of Augusta; Andrew P. Wiswell, of Ellsworth; R. B. Shepherd of Skowhegan, and Leonard Williams of Yarmouth.

At a meeting of this Board, held in Portland, November 6, an Executive Committee and officers were elected, as follows : Executive Committee, H. J. Libby, W. G. Davis, Mark P. Emery, Philip Henry Brown and William E. Gould ; President, Harrison J. Libby ; Vice President, William E. Gould ; Secretary, Harry Butler.

The purpose of this company is to fill a place similar to that of trust companies of other cities, and hitherto unoccupied in this State. It will transact a general trust company business—viz: act as agent for the transfer of stocks ; as trustee to countersign bonds ; as executor, administrator, guardian, trustee or receiver, and undertake other duties of a fiduciary nature ; buy and sell bonds and other securities, receive deposits and loan money.

The charter of the company has been carefully drawn, with the intention of making security for depositors the first requisite, a reserve of 25 per cent of its demand deposits being required by law. The remarkable growth and success of other trust companies, all of comparatively recent origin, would argue well for the future of this institution. It is favorably located in rooms expressly fitted up for its convenience in the new First National Bank building, and, from the character and standing of its management, it should prove a benefit to the general public, not only in Portland, but throughout the State.

The change from annual to semi-annual examinations, made by the last Legislature, secures a most desirable familiarity of the Bank Examiner with the details of the current transactions of each bank. This change in the law was made at the suggestion of savings bank officers, and nothing is farther from the truth than the supposition that any well-conducted bank is opposed to frequent and efficient examinations. In addition to the work of the Bank Examiner, each of the savings banks is examined annually, and some of them quarterly, by the trustees. It is in the interest of economy and safety, that officers of savings banks should receive such

compensation for their services that they can afford to devote their best endeavors to the success of the bank.

It is the duty of the trustees to be sufficiently conversant with its affairs to discern the fact, if an officer has greater interests outside than inside the institution with which he is connected, and whenever such a discovery is made by them, it is their imperative duty to demand the resignation of that officer.

By the death of Hon. Joseph Dane, which has occurred during the present year, the Kennebunk Savings Bank has lost a most faithful and efficient officer. He was not only devoted to the best interests of his own institution, but he believed in the system of savings banks as affording a most effective means of cultivating and encouraging habits of thrift and frugality, and it was largely due to his efforts that the excellent law relating to savings banks was enacted by the last Legislature.

The Treasurer of the Orono Savings Bank, Mr. E. P. Butler, died last March. He was elected executive officer of the bank at its organization, and his trustworthy character gave it the implicit confidence of the people of that locality.

Bank Examiner.
