## STATE PRISON.

---

We desire in this brief report to present to you the true condition of the Prison, and the result of the business transactions connected with the same during the year; also a summary report of the several jails.

The Prison history which has been written the past year, has been somewhat different from any preceding year since our connection with the Institution. The stern requirements of the law have been met, and the officers of the Prison and the Sheriff of Knox County are entitled to credit for the manner in which they performed their duties.

There has been a slight increase in the number of convicts at the Prison during the year (more having been received than were discharged), which either shows that more crime has been committed, or more of the perpetrators have been brought to justice.

The inventive genius of the criminal has been at work inventing ways to commit crime, and it would be strange if new schemes were not invented and improved appliances made use of. In connection with this, we call your attention to the attempted bank swindle upon the Farmington Bank by the aid of the telegraph, and the perpetrator is yet at large although the crime was committed last August.

The young man who is inclined to do wrong finds plenty of teachers to instruct him "in the ways that are dark and tricks that are mean."

The jail in many counties is a place where much bad instruction is imparted. The custom of allowing the prisoners of

all ages and crimes to mingle together and communicate, one with another, is wrong, and should be remedied, and we know of no better way than to confine them in separate cells, prohibit communication, and all prisoners convicted of a State Prison crime to be sent to the State Prison, if their sentence be one year or more.

The advantages obtained, are good trades and strict and beneficial discipline during the sentence, and the convict goes out a wiser, if not a better man, and with his trade can obtain an honest living.

This we believe to be in the interest of economy and good government, and if followed would be a means to lessen crime among the young, of which many of the prisons are being filled.

The average man, when he takes up the annual report of the State Prison or Reform School, is most interested to know, and the first question asked is, What has been the expense of them to the State during the year? The financial part of the report being all which interests him.

The expenses paid at these institutions are not all that crime costs, and the policy which has in view only the immediate cost, might not in the end be the best.

The cost to the State of running the State Prison for the past year will be found to be in excess of the year previous, as will be shown by the following,—and by careful examination of the Warden's report you will find that the increased cost comes by a falling off of the profits in the carriage and harness departments, and not in additional cost of subsistence, clothing, or fuel and lights.

Total expense of the Prison to the State, including all salaries and money appropriated for repairs of buildings and additions to Prison library for the past six years, has been as follows :

For 1880.....	\$24,551 31
“ 1881.....	16,754 42
“ 1882.....	14,742 26

For 1883.....	\$10,510 70
“ 1884.....	9,200 00
“ 1885.....	12,119 54

The sum of \$5,500.00 was appropriated for a new blacksmith shop, which has been and will be expended for said purpose.

It will be seen by referring to the report of the Warden, that the gain in the carriage and harness departments for the past years has been less than the preceding year. This deficiency was not unexpected, when taking into account the depression in business, which not only effects the product of the Prison but business in general.

The new blacksmith shop which has been built during the year is a great improvement, being larger and more convenient than the old one, and is as good as could be built with the appropriation. A few modern appliances, such as are usually found in shops of this kind which are operated by private capital, would aid in ventilation and accomplish more work by same number of men.

The old chapel is fitted up for a store-room for iron, and is connected with the new shop, handy and convenient. The shoe shop, which has been for two years unoccupied, has been made into a chapel, is much larger and more convenient than the old one. Other improvements have been made as far as the means would admit, and the small sum appropriated for 1886 for repairs can be beneficially expended.

During the year no escape has been made from the Prison, and the convict which escaped four years ago, and has been most of the time since in the territories of the West, has been re-captured and returned to the Prison to pay the debt which he owed the State, by serving the year of unexpired time at hard labor.

This is a striking lesson to the convicts, and will have a beneficial effect upon the discipline of the Prison.

Good discipline is maintained, and the rules and regulations are strictly enforced and obeyed, or punishment meted out in

accordance with the misdemeanor, and much credit is due the officers who have this in charge.

The sanitary condition of the Prison is good, and all apartments are always found neat and tidy, and in order, and the property of the State economically used.

As this is a year when there is no session of the Legislature, we omit many suggestions and recommendations that would more properly come before that body.

In conclusion we are happy to say that the affairs of the Prison are conducted in a business-like manner, and the financial condition of the Prison is satisfactory, its credit good, its accounts correctly kept, and a true monthly trial balance has been taken every month for the past five years. Although the cash on hand at the close of the year was but *seventy-seven cents*, we are pleased to say that all demands against the Prison that were due are paid.

For further explanation of the affairs of the Prison, financial and otherwise, we refer you to reports of the Warden, Physician, Chaplains, Teacher and Councillor, which will more fully explain the condition of all departments.

## WARDEN'S REPORT.

---

STATE PRISON, WARDEN'S OFFICE, }  
THOMASTON, December 1, 1885. }

*To the Honorable Governor and Council:*

My report for the year ending November 30, 1885, is herewith most respectfully laid before you.

By it will be shown that, in common with others, our industries have suffered from the universal depression of business throughout the country; that while our relative expenses have decreased, so have receipts.

The average number of convicts during the year has been 176, against 157 in 1884. The gross cost of their maintenance—including all salaries—above the proceeds of labor, has been \$11,119.54. There has also been expended upon buildings, for repairs, \$205.30 in addition to the \$1000 specially appropriated for that purpose.

By the expenditure of \$4912.47 of the sum of \$5500 appropriated for the erection and furnishing of a needed new blacksmith shop; a thorough building, 165 feet long and 50 feet wide, for its greater length has been constructed, fitted up with eighteen forges and necessary appurtenances.

It is believed that with the remaining \$587.53 unexpended balance, with what we can do ourselves, we shall be able to provide for the better removal of smoke and gasses, which will make the structure comfortable and convenient. No charge has been made for convict labor or services of regular overseers, either upon the new building or for repairs on old

ones, though such diversion has materially reduced current earnings.

Notwithstanding the net earnings from the harness department are not what they could be desired, I am not prepared to advise its abandonment.

Your personal knowledge of our condition and needs renders special suggestions unnecessary.

You are respectfully referred to statement "A" for showings of the transactions in the several departments.

To statement "B" for consolidated showing of total losses and gains.

Statement "C" shows the Prison assets and liabilities, which would have been \$2300 less had the balance of appropriation for officers' salaries, for that amount, been received prior to the expiration of the year.

The item therein named as "contingent surplus" is the balance of the sum set aside to cover possible losses, and the making good of just claims that may arise under warranties of merchandise sold.

Prompt payments have been continued during the year for all merchandise purchased, and no over-due bills allowed.

There has been no escape during the current year, and none are at large by escape during the last five years.

One convict, whose health seemed to require it, was placed at work with others outside, under a keeper, July 23, 1881, and escaped. He was returned September 25, 1885, and is now serving the remainder of his sentence.

The usual statistical tables are hereunto appended.

Respectfully submitted.

G. S. BEAN, *Warden.*

## PHYSICIAN'S REPORT.

---

MAINE STATE PRISON, }  
December 1, 1885. }

*To the Inspectors and Warden:*

GENTLEMEN:—As Physician and Surgeon of this Institution, I herewith respectfully submit my annual report of the condition of the department under my care during the year. The high standard of sanitary requirements has been maintained throughout the year, every effort being made to prevent disease and preserve the good health of the inmates. James Henderson, aged 70 years, died, November 29th, of Abdominal Dropsy, after remaining in the Hospital nearly eight months. This was the only death from disease the past year and the only one since October 9th, 1883, a period of over two years.

Andrew Hughes, an insane convict, was sent to the Insane Hospital at Augusta, June 29th.

Would again call your attention to recommendations made in my reports of former years in relation to better water supply, improvements in heating Prison, and other matters of sanitary importance. The good results thus far obtained are due in a large measure to rigid maintenance of cleanliness bestowed in every part of the Prison, and the fine dietetic arrangements carried out under the direction of the Warden. It is by this means that disease can be largely controlled, and the Institution kept in a healthy condition. The late theory in regard to *germ* diseases requires us to look well after *sinks, buckets, spittoons*, and all vessels that may contain bacteria and allied organisms of communicable or contagious diseases.

The convicts have been successfully vaccinated again this year, and every few weeks an inspection is held for this purpose.

To you, gentlemen, and Deputy Warden Hinckley and his assistants, I am greatly indebted for the uniform kindness and consideration extended to me as medical officer of the Maine State Prison.

H. C. LEVENSALER, M. D.

## CHAPLAINS' REPORT.

---

*To the Board of Inspectors, and Warden of Prison:*

GENTLEMEN :—Little of special interest has occurred in connection with the Chaplaincy of the Prison during the year ending November 30th, 1885.

As has been the custom for some years, the duties of the office have been discharged by the pastors of the several churches in Thomaston.

Our aim has been to inspire such feelings of contentment in the minds of the convicts as would lead to a greater degree of comfort on their part, and to less anxiety on the part of those who are charged with the enforcement of discipline; and also to instruct and exhort in such a manner that our unfortunate brother might be led to genuine repentance, honest purposes of reform, and to saving faith in Christ. We are confident that our efforts have not been wholly in vain.

The new chapel, which was opened in the early spring, is roomy and cheerful; and being so situated as to command a view of the surrounding country, its time of service affords to some of our hearers their only opportunity to look beyond the high wall that surrounds them.

It is only natural that their circumstances should make chapel service more attractive than it was before, and increase the possibilities of good results therefrom.

Thanking you for the uniform courtesy you have shown us, we respectfully submit the above report.

S. L. HANSCOM.  
FREDERICK TOWERS.

## TEACHER'S REPORT.

---

*To the Inspectors of Maine State Prison :*

I am happy to say that the year just closed has been one of interest to me, and of unusual success in efforts made to teach and instruct the ignorant and unfortunate who come here to pay the penalty of their crimes, committed, it may be, under circumstances that would have made criminals of others, upon whom no suspicion of crime has ever rested.

While it is necessary that crime should be punished, both for the safety of community and the good of the criminal, yet it is important not to lose sight of the fact that criminals are often made from circumstances ; and that kind treatment, education and religious influences are the greatest factors in restoring them to society. In a letter received from one who has gone out to start in life anew, is this : “ Kindness shown me there did more to make a man of me than all their bolts, bars and solid walls.”

A prison without reformatory influences is but a nursery of crime, and its graduates will go out to prey upon community with increased power, as revenge will add its force to their depraved natures. With this in view, and a knowledge of good accomplished, my work in this department is interesting ; and although there are failures in some cases, yet enough good is accomplished to recommend this work to the good will of all who desire the best good of these erring men and women.

Of the sixty-four received here the present year, more than half needed instruction ; and all of them who came previous

to May last, unable to read or write, can now write letters to their friends, and are reading books from the library, and such papers and magazines as I am able to provide for them. Let us hope that all efforts made in their behalf will be crowned with success, and that a large number of them will become respectable and law-abiding citizens. The ambition of many is to be able to read and write, while some are anxious to improve the opportunities afforded for a more complete education.

Crimes come from various causes, the leading and main one being intemperance; and I come to this conclusion from my experience here, and from published statistics carefully prepared.

Thanks are due the publishers of the *Zion's Advocate* and *Bethel Flag*, Portland, *Gospel Banner*, Augusta, for copies of their papers, and to many friends, both in the State and out, who kindly furnish me with old books, magazines and religious papers for distribution.

Allow me to say, that this way of doing good is always open to those who wish to improve it.

The work of the ladies of the *Woman's Christian Temperance Union* must not be forgotten, for their Christian services with the women here each Sabbath has resulted in great good; and their annual distribution of flowers to all, with their neatly printed scripture mottoes, serve to remind them, that, though shut out from the world because of their crimes, they are not forgotten, and that work and prayer go hand in hand for their return to an honest and Christian life.

With thanks to officers and others for whatever of encouragement they may have afforded me in this work, I cheerfully submit this report.

Respectfully yours,

D. J. STARRETT, *Teacher*.

## Report of the Executive Council Committee.

---

IN EXECUTIVE COUNCIL, }  
December 29, 1885. }

Having been appointed by the Governor as special committee of the Council to visit the State Prison, I herewith present my report.

I have visited the Prison several times during the past year, and my observations have been more of the general management than of details.

The good discipline which is maintained in the Prison speaks well for the officials in charge. The prisoners are well clothed and fed, and but little sickness among them, there having been but one death for the past two years.

The buildings are in fair repair, and neatness characterizes all throughout; yet a coat of paint would improve the looks and durability of the wooden buildings.

The blacksmith shop, which has been so inconvenient in the past, has been removed during the summer and given place to a substantial, commodious, well-lighted shop, furnished with the latest improved forges, showing that the appropriation made by the Legislature last winter for that purpose has been economically and judiciously expended.

Also, the chapel has been very much improved during the summer, with but trifling cost to the State, and made a very attractive place, where religious services are held each Sabbath, and, it is hoped, good impressions made.

The harness shop is hardly suitable for the work done there. The ceiling is low and the room much crowded. It is hoped

that the felt need will be realized by the State and a new shop placed there in the near future.

Owing to the general depression in business, it cannot be expected that manufactured products of this Institution would find as ready sale as in seasons of prosperity.

Warden G. S. Bean is a faithful officer for the State, a man of large business capacity and of sterling integrity, and manages the affairs of the Prison with good judgment and for the best interest of the State. At all of my visits to the Prison, I have found on the part of the Warden and Inspectors, a desire that there should be a thorough and careful examination of every part of the Prison property, with books and accounts.

Respectfully submitted.

G. R. FERNALD.

## JAILS, 1885.

---

The condition of the several jails in the State is satisfactory, with a few exceptions. The law relating to classifications of prisoners is not as fully complied with as is desirable. The Inspectors will, at an early day, confer with the jailers upon this subject. A new jail is in process of erection at Ellsworth, which will, without doubt, be a credit to the county of Hancock. The jailer's house and adjoining buildings at Belfast were burned March 14th; in this case the wrong building seems to have been destroyed.

Reports in detail are given from all the counties, with statistical tables and other matters. Table D is a suggestive one, from many points of view.

Number committed to jails in 1884 was 3,072.

“ “ “ 1885 “ 3,395.

Showing an increase of 323.

Number committed for drunkenness, 1884 was 1,320.

“ “ “ “ 1885 “ 1,761.

Showing an increase of 441.

Number sentenced to jail for selling liquors, 1884 was 150

“ “ “ “ 1885 “ 188

Showing an increase of 38.

As a general rule, these statistics show that in some counties where there are no jails there is less crime. In several counties no sentences are seen for drunkenness or for selling intoxicating liquors. It is probable that there are different ways of administering the law in different counties.
