Also schedules of all corporation taxes assessed by the Board during the year. There is also included the fourth biennial valuation of the State as fixed by this Board which will be the basis for State and county taxes for the years 1899 and 1900. The total valuation of the cities, towns and plantations for 1898 as returned by their assessors is as follows, real estate \$221,355,754, personal estate \$63,144,504, total \$284,500,258, an increase over similar returns for 1897 of \$2,623,457. To make comparison with the amount returned in 1896 when the last equalization was made we find an increase of \$6,141,604. Nearly one-fourth of this increase is on account of property which in 1896 was returned as exempted from taxation, and which, partly in 1897 and the remainder in 1898 was placed in the taxable lists. There was in 1896 returned as exempted by vote \$2,923,455 and in 1898, \$1,495,440, a decrease of \$1,428,015.

The conviction is quite universal among the taxpayers of the State, that all the property of the State should bear its fair share of the public burdens, and that, as was expressed by Governor Powers in his address to the legislature of 1897, "To exempt or to fail to tax is simply to add so much more to the amount placed upon property which is included in the lists; and often this additional burden is placed upon property which can ill afford to bear it." The total valuation of the State including wild lands as fixed by this Board is \$329,516,244, an increase of \$1,015,250 above the State valuation of 1896.

We have not endeavored to show a large increase in the valuation, but rather to make a fair equalization upon a conservative basis. There is abundant evidence that the assessors of a large portion of the municipalities have exercised more care in making their valuations than in former years, and as a result, the task of equalization is made easier.

We cannot commend too strongly the importance of careful comparison and revision of local valuations. Unequal taxation is unjust taxation. In no other way can be made effective that wise provision of our fundamental law, that "all taxes upon real and personal estate shall be apportioned and assessed equally,

according to the just value thereof." The plantations of Chapman, Connor, Eagle Lake, New Canada, Reed, St. John, Wade and Westfield in Aroostook county heretofore taxed by the State as wild lands are this year valued as plantations and their personal estate included. The poultry statistics received from all the cities, towns and plantations are published in detail as required by law. On account of the space required for these statistics we have omitted the usual detail of the statistics of live stock, but upon pages 150 to 152, inclusive, may be found a summary by counties, of the number, value, and average values of each class of live stock in the State. During the years 1897 and 1898 the Board has held all the meetings in different parts of the State required by law, and also has held numerous special hearings at the State House, and upon request visited many of the cities and towns.

In conclusion we desire to express our grateful appreciation for the valuable assistance rendered us by State, county and municipal officers.

OTIS HAYFORD,
