Overseers:  
Charles E. Shorey, Edward C. Bucklin.

Broom Department:  
Overseer:  
Artemus W. Allen.

Insane Department:  
Supervisor—Charles M. Moody.  
Night Attendant—B. W. White.

## MAINE STATE PRISON.

---

INSPECTOR'S OFFICE,  
THOMASTON, ME., December 1, 1898.

*To the Honorable Governor and Council:*

In compliance with the provisions of the Revised Statutes we have the honor to transmit herewith our report of the condition of the Maine State Prison for the year just closed.

At the commencement of the year, December 1, 1897, there were two hundred eighteen (218) serving sentence, including the insane; at the close, November 30, 1898, two hundred twenty-four (224). The average has been two hundred nineteen (219), which is the largest since the prison was established. This large number has increased the subsistence and clothing accounts quite materially. There are to be discharged the year to come by reason of expiration of sentence, fifty-two (52). If as many are committed as usual, there will be a larger number to feed and clothe.

The general management has been satisfactory; the prisoners have been well fed, clothed, and discipline has been fully maintained; the buildings and grounds kept in a cleanly condition. For the health, mortality, the intellectual and moral status of the prisoners we refer you to the reports of the prison physician and chaplain, Dr. Smith and Chaplain Plumer.

The lack of funds has prevented any improvements or repairs. Many will be needed in the next two years and we earnestly recommend that such appropriation as the warden asks for this purpose be promptly granted.

The manufacturing departments have produced more goods than usual which have been well sold and show fair returns for labor. The overseers have been most faithful in the discharge

of their duties, firm in discipline, painstaking in instruction, watching alike for the best interests of the State and prisoner. Many thousand dollars worth of manufactured stock constantly remaining on hand, such as carriages, brooms, harness and furniture, serve to keep the cash balance so small that the warden is unable to take advantage of the discounts on many articles of merchandise bought for manufacturing purposes. There should be an appropriation for this purpose.

The inspectors are frequently asked why the prison is not nearer self-sustaining. The reasons are very apparent when the facts are considered :

First,—About thirty per cent of the prisoners are received each year on sentences as a rule of from one to three years each ; by provisions of the Revised Statutes they are allowed seven days off from every month for promptly obeying prison rules ; this leaves the actual time served for a three years' sentence, two years five months eight days ; for a two years' term, one year seven months fifteen days ; and for a one year sentence, nine months twenty-three days. They come with no trade or knowledge of the industries prosecuted at this place, and before their labor is of any value to the State they are discharged. Their labor is, therefore, of very little actual value to the State.

Second,—Every prisoner on entering, is furnished a new prison suit, on leaving, a new citizen's suit. The expense of travel from the place of sentence for prisoner and officer in charge is borne by the State, and the State pays in cash to each prisoner not less than five nor more than ten dollars to pay travel home. The last two items alone cost the State for the year just closed, \$1,502.40.

Third,—The unusual expense necessary to prison discipline, not known to similar industries outside of prison walls.

In our report two years ago we recommended that the legislature make provision for a matron at the prison. We still believe it would be wise to have some practical woman in charge of the female prisoners.

In all of our visits to the prison, we have been accompanied by the visiting member of the executive council. He has been a wise councillor indeed.

To the warden and all subordinate officers we return thanks for courteous treatment.

Very respectfully,

WHITMAN SAWYER,

A. W. GILMAN,

AUGUSTUS BAILEY,

*Inspectors of Prison and Jails.*

## WARDEN'S REPORT.

---

THOMASTON, December 1, 1898.

*To the Honorable Governor and Council:*

I herewith submit my second annual report of the Maine State Prison for the fiscal year just closed.

The number of convicts confined in the prison November 30, 1897, was 206; the number of insane 12, making a total of 218.

The number of convicts in custody November 30, 1898, was 213; the number of insane 12, making a total of 225, an increase of 7 over last year and an increase of 39 over two years ago, when I took charge of the institution.

The discipline of the prison for the past year has been exceptionally good, but few light punishments being resorted to during the year. A large per cent of the convicts, on account of bodily infirmities, are utterly worthless at any mechanical work, and in order to keep that class of convicts out of idleness, I leased a few acres of land near the prison, put them at work, and the result of their labor for the year 1898 is as follows:

Ten thousand five hundred ears sweet corn; 300 bushels potatoes; 200 bushels turnips; 4,000 head cabbage; 5,070 cucumbers; 85 bushels shelled corn; 50 bushels dried beans; 60 bushels string beans, and 18 tons of hay by purchasing grass standing, at \$3.50 per ton.

I would respectfully ask the legislature to consider the advisability of authorizing the purchasing of land enough for the use of the prison, thereby saving to the State the amount paid out for rent, furthermore to have the benefit of the large amount of dressing made at the stables and piggery, enriching the State's land, instead of our neighbors'.

I would refer you to the reports of the prison physician and chaplain for the work done in their departments.

I shall be obliged to ask the coming legislature for an appropriation for the use of the prison, on account of increased outlay in the expense, clothing and subsistence departments.

An appropriation should be made for a new piggery at an expense of about \$400, also for sewerage for the harness shop, thereby greatly improving its sanitary condition.

To the visiting officials of the prison and all subordinate officers, I extend my sincere thanks for the many courtesies received.

HILLMAN SMITH, *Warden.*

## CHAPLAIN'S REPORT.

---

*To the Honorable Governor and Council:*

Gentlemen: During the year closing November 30th, sixty-seven convicts sentenced for various crimes have been received into the Maine State Prison. Thirteen and four-tenths per cent of them could neither read nor write the English language when they came to the prison, though three of these could read and write their native language. Four and five-tenths per cent could read but could not write. Thirty-seven and four-tenths per cent had been instructed in the public schools. Twenty-six and nine-tenths per cent had completed the grammar school course of study in the towns and cities of their school days. Eleven and nine-tenths per cent had enjoyed the privileges afforded in the high schools of several of the states, and the remaining five and nine-tenths per cent had been instructed in boarding schools and academies.

Ninety-one per cent of these sixty-seven persons were habitual users of tobacco in one or both of the common forms of its use, only nine per cent had never used tobacco. Fifty-six per cent of them replied to the question respecting the use of intoxicating drinks, that they had been accustomed to use such drinks, some occasionally, some habitually but in moderate quantity, and the others in such measure as to be known as hard and confirmed drinkers. The remaining forty-four per cent professed to be strictly temperate. The study of these figures will reveal but little difference in the intellectual and moral character of these persons and that of those admitted to the prison in previous years. But little hope of any material change in these matters can be entertained until the causes yielding this fruit have been removed or purified.

## CORRESPONDENCE.

Letters have been regularly exchanged between the men and their families and acquaintances. I continue to write each week for such of the men as cannot write, but have them write their own letters as soon as they can be taught.

## LIBRARY.

But little change has been made in the library during the year. A few volumes have been added by purchase and others by donation. The custom of furnishing each man with a copy of some one of the leading magazines has been continued. These are distributed one new copy in each wing of the prison each week and changing from cell to cell. Thus the magazine put in cell No. 1 on Tuesday evening, will be given to No. 2 next Tuesday and has the possibility of going to one hundred and eight men. The copy in the west wing is passed onward in like manner.

## PERIODICALS.

A large number of the men are subscribers for the leading papers of the State, and their home paper. Others regularly receive papers from their friends. They are allowed to exchange their papers by the hands of the guards. The most of them by these means are well informed upon the current topics of the day.

## INSTRUCTION.

The work of teaching has been continued. We begin with teaching the alphabet, with the primer, or the first reader, whenever the proficiency of the student requires. Attention is also given to more advanced studies, but not to the neglect of those studying the elementary branches. The results from this part of my work, when compared with previous years has been quite satisfactory.

## RELIGIOUS SERVICES.

These services have been held with but little interruption. The violent wind of November 27 occasioned the fires in the chapel to fill the room with smoke so that we were unable to hold the

usual service. With this exception I have not failed to hold each regular service. The afternoon service with the female prisoners has been regularly held. Also the service of scripture reading and prayer in the hospital. Having the aid of several young people's societies, Sunday school workers and others in the evangelical churches, and the Woman's Christian Temperance Union in collecting papers. I have given a religious paper to each convict nearly each week of the year.

The interest manifested in these services, and the encouraging letters which have come from some of the discharged men afford abundant evidence that the service given them is not fruitless, but will yield a harvest of good citizenship, home love and Christian living,

With sincere thanks to your honorable body, the officers of the prison, the Woman's Christian Temperance Union, the young people's societies and all others who have assisted in my work, for the help and encouragement given I submit this report.

C. A. PLUMER, Chaplain.

Thomaston, November 30, 1898.

## PHYSICIAN'S REPORT.

---

*To the Honorable Board of Inspectors of the Maine State Prison:*

Gentlemen: I herewith submit to you my second annual report for the year ending November 30, 1898.

The past year has found the prison in an overcrowded condition most of the time, although it has not seemed to effect the physical condition of the men or mar the sanitary condition of the prison. The steam heating of the harness department, the largest building where the men labor, has greatly lessened the suffering of the men of colds and its immediate results.

There has not been a contagious disease during the year and very little sickness for the amount of men confined and no accidents worthy of mention. I would recommend, as in my report of last year, an increase in the bathing facilities, and a sewerage connection to the closets in the harness shop, which the warden will probably speak of in his report.

During the year two deaths have occurred; Mrs. Mary Cowan, a life convict, whose illness extended over a year, and August M. Prawda, also a life convict, who died quite suddenly with a complication of diseases. In closing, permit me to thank you gentlemen, and all the officers of the prison for their united efforts in assisting me in my duties.

Respectfully submitted,

ADDISON R. SMITH, M. D.

Prison Physician.

## REPORT OF THE COUNCIL COMMITTEE ON STATE PRISON.

---

### *To the Governor and Council :*

In submitting my annual report I am able to say that during the past year the administration of the affairs at the prison has generally been very satisfactory.

I have visited the prison each month in company with the Prison Inspectors, with whom I have conferred in matters relating to the institution.

The financial condition of the prison is fully set forth in the report of the Warden and the Prison Inspectors.

The usual good discipline has been maintained during the year ; but few convicts have been punished for insubordination, and the punishment only such as the offense called for.

Whenever requested, I have given the prisoners an interview and listened to their complaints, which have not been numerous, and investigation has satisfied me that such complaints were without cause.

The sick have had good care and nursing, and in some cases have been more comfortable and better provided for than they would have been outside the prison.

The insane criminals have received the careful attention that their condition called for, and whenever possible they have been required to do light work as a source of income as well as to keep their minds occupied.

The sanitary condition of the prison is good ; the kitchen has always looked clean and well kept ; the food wholesome and of such variety as would meet the needs of convicts expected to return to the State from the products of their labor, a portion of the expense which their punishment has made necessary.

The chaplain has carefully administered to the spiritual needs of the convicts, and has maintained the interest created in the educational work. He is zealous in his efforts to make the discharged convict a useful citizen.

At times during the year the capacity of the prison has been taxed, but at the present time contains about the usual number.

During the illness of Warden Smith, which was of some three months duration, his place was taken by Deputy Warden A. C. Wyman, who was a faithful and efficient officer, and performed his duties very acceptably.

I am under obligations to the Inspectors and the prison officials for many courtesies received during my visits to the institution.

November 30, 1898.

HENRY W. MAYO,  
Visiting Committee.

## REPORT OF THE COMMISSION RELATING TO THE CRIMINAL INSANE.

---

*To his Excellency the Governor and the Executive Council of  
the State of Maine:*

The committee, who are entrusted with the care of the criminal insane at the department provided for that purpose at the State Prison, would respectfully submit their annual report.

But little has transpired in this department during the past year which has not been the ordinary experience of former years since methods were instituted to care for this class at the department of the prison. No accidents have occurred to cause physical suffering, and no casualty has transpired worthy of note, except we might mention the escape of one inmate, who, however, was detected in a few days and returned to the department. The dietary of the department, the bill of fare of which was introduced into the committee's report of last year, has been in all respects maintained, affording for the patients wholesome and nourishing diet.

The introduction of increased facilities at the prison for gardening has furnished additional opportunity for manual labor in this department, so that nearly all of the inmates have received the advantage of quite constant labor in the open air during the entire warm season. As a result of this opportunity, a large share of mental restfulness and contentment has prevailed and physical improvement has been observed in all who have availed themselves of this beneficial employment. As a further result of the labor in this department we may mention that 10,000 ears of corn, 300 bushels of potatoes, 75 bushels of turnips, 4,000 heads of cabbage, 60 bushels of string beans and one acre of yellow corn were raised.

It will be observed that aside from the beneficial physical and mental results of such labor to the inmates it has been a source of financial profit to the prison. The committee are of the opinion that the instituting of this increased labor in gardening should be continued, as it was unattended with accidents and can be made of still further profit to the prison.

The increased number of convicts in the prison during the past year has made it apparent that the department where the insane are now domiciled must in the immediate future be occupied by the former class. We have been informed that the legislature will be asked by the proper prison authorities to provide for the relief of the prison by an appropriation to construct a distinct and suitable building for the insane.

We would respectfully call your attention to the former reports of this committee in relation to what it regards as a proper locality for caring for the criminal insane.

Commendable progress has been made in the immediate care of the patients. Mr. Moody has been in charge of this department as attendant since its occupancy.

One patient whose sentence had expired during the year and who had recovered from insanity, was discharged. Two patients, James Allen and William V. Gilman, have died during the fiscal year, the former of pneumonia and the latter of pulmonary consumption. Mr. Allen had been insane for many years and was transferred from the Maine Insane Hospital to this department. Dementia had existed for a long period. Mr. Gilman at various times had been an inmate of the former institution and had been deranged much of the time for many years.

We append the numerical status of this department :

Number remaining November 30, 1897.....	23
Admitted since .....	—
Discharged since .....	1
Died since .....	2
Number remaining November 30, 1898.....	20

BIGELOW T. SANBORN, M. D.,

ADDISON R. SMITH, M. D.,

HILLMAN SMITH,

Commission relating to Criminal Insane.

## JAILS.

---

The several jails throughout the State have been visited by one or more of the Inspectors as often as the law directs. The larger jails where there are work shops have been generally visited by a majority of the board.

It is pleasing to report that the management of these work shops, as a whole, has been very satisfactory. We still urge the importance of work shops in more of the jails; better discipline can be maintained and it is far better for the criminals if they can be employed.

There have been but few escapes during the year; the jailors and turnkeys have cautiously guarded those committed to their care.

In the jails where there are no work shops, we have suggested that after the prisoners have had their proper exercise in the corridors, they should be locked into their cells. They are imprisoned for punishment, confinement, reflection and reform.

We advise the county officers to provide each prisoner in their jail with a regular convict suit, not only as a means of security, but of economy. Most of the jails use them with gratifying results.

We report the condition of the several jails as follows:

We find the Androscoggin County jail at Auburn has been kept in very good condition; the work shop has been greatly improved and it is now one of the best in the State. It is well provided with guards, and is perfectly secure. The present jailer, Mr. Hill, is a manager of men, and knows how to draw the best elements in them to the front. During his term of office there has been but little insubordination and the institution has been managed very successfully.

Aroostook jail at Houlton is comparatively new, yet it is not sufficient for the needs of the county. We have visited it during the year when the sixteen cells were inadequate for the number of inmates. It has been well kept and is convenient in its arrangements. The food has been wholesome and sufficient.

Cumberland County jail at Portland is the largest in the State. It has had its usual number of prisoners and at one of our visits we found several women. The female prisoners were employed under a matron. Their work is largely washing and repairing clothing for the inmates. The male prisoners are engaged in making heels and inner soles for boots and shoes. The great number confined here make the duties of the jailer and turnkey very hard. We found the bedding fair, the jail clean and well kept, and the sanitary condition all that could be desired.

We find the Franklin County jail at Farmington in good condition and its accommodations sufficient. At one of our inspections we found only one prisoner. The jail is neatly kept and properly cared for.

Hancock County jail at Ellsworth has had but few inmates during the year. The best of discipline has been maintained; the food is sufficient, the bedding and cells neat and clean.

Kennebec County jail at Augusta is a good building, well fitted for a place of confinement. The food is good, both in quality and quantity. The present sheriff is a good disciplinarian and the institution is well managed. The prisoners are not required to labor, but are largely confined to their cells.

Knox County jail at Rockland is still kept in a satisfactory manner. It is conveniently arranged for a proper classification of prisoners, and the discipline and cleanliness of the jail far exceed that of some former years.

Lincoln County jail at Wiscasset is an old structure and is but little used. It has been for a long term of years under the management of the present jailer and it is evident that he is quite satisfactory to the people of Lincoln County as well as to the Inspectors.

Oxford County jail at South Paris is up to date. The jailer is well qualified for his position and takes great pride in the grounds about the jail as well as the interior. The prisoners are not employed, but still the best of discipline is maintained.

Penobscot County jail at Bangor has been most successfully managed during the year by Sheriff Brown. The inmates wear convict suits and are kept constantly employed. The food is well prepared and sufficient in quantity; the jail is always presentable, every department of it is neat and orderly.

Somerset County jail at Skowhegan is new and conveniently arranged. Sheriff Viles discharges his duties in a very satisfactory manner. As far as possible the prisoners are classified according to age and crime. Their moral welfare is well cared for. They are provided with good reading matter and have the best of advice and counsel.

Waldo County jail at Belfast is well disciplined by Sheriff Norton. It is kept neat and clean and the expenses are light.

Washington County jail at Machias is successfully managed by the present jailer. The interior is clean and well kept. Some complaints have been made by the prisoners in relation to the food, but upon investigation, we are satisfied that they have been fed on plain and wholesome food and enough of it.

At York County jail in Alfred there has been added during the year, a work shop for the manufacture of heel stock. It has been leased with the labor to Mr. Horn of Auburn who has had for several years the lease of the shop and labor in Androscoggin county. Inspections for the first three quarters found this jail in a good clean condition with discipline well maintained. The fourth quarter inspection recently made was very unsatisfactory. It was Saturday afternoon when prisoners are excused from the work shop. There were one hundred and nineteen all roaming the corridors at pleasure; no discipline, whatever. The corridors, cells and bedding in a very filthy state. This condition of affairs was immediately reported to the Sheriff and County Commissioners and we have promise of better management.

Respectfully submitted,

WHITMAN SAWYER,

A. W. GILMAN,

AUGUSTUS BAILEY,

Inspectors of Prison and Jails.

## ANDROSCOGGIN COUNTY JAIL—AUBURN.

County Officers—Geo. Parcher, Seth Chandler, A. M. Penley, County Commissioners; Benjamin J. Hill, Sheriff, Jailer and Turnkey; no regular physician; Ralph Goff, Overseer of Workshop.

Number of prisoners in jail November 30, 1897. 123.

Number of prisoners in jail November 30, 1898. 109.

Number of prisoners in jail November 30, 1898 for this county. 109.
