SECRETARY,
JAMES PLUMMER.....Augusta

REPORT.

AUGUSTA, November 30, 1899.

To the Governor and Council:

In compliance with the statute requiring the State Assessors to "make a report annually to the governor and council of their proceedings, and to include therein a tabular statement of all statistics derived from returns from local assessors, with schedules of all corporations on which State taxes were assessed during the year," we submit the following report.

The Board of State Assessors has visited officially the present year every county in the State, and held meetings therein to which were summoned the assessors of each town. These meetings were attended by the assessors from 385 towns, and their valuation books, and the returns made by them on the blanks furnished by the State Assessors, were thoroughly examined and considered. The tabular statements appended, and which constitute a part of this report, are made up from the returns.

They show an increase in the aggregate of valuations of \$3,191,532, of which \$2,787,444 is the increase in real estate valuations and \$404,088, the increase in personal property. The entire valuation is \$287,691,790; the real estate constituting 78 per cent and the personal 22 per cent. The increase in real estate values came largely from new buildings and improvements; valuations of real estate otherwise had not changed much. The local assessors generally found it very difficult to affix values upon farms; not because the farms had deteriorated in producing capacity, but because purchasers are few and sales have to be made at depreciated value. They also found it difficult to affix values upon cotton, woolen and other mills, as well as the

property of water and electric light companies, owing to the lack of accurate information as to the earnings of such corporations.

If the annual statements of these corporations to their stockholders were also furnished to the local assessors, they would be able to estimate more correctly the value of their property. Returns similar to those made by the railroad corporations would give the desired information to the local assessors. The increase, \$404,088, in valuation of personal property comes from the live stock which has increased in value to the amount of \$483,145. This increase comes through a larger amount of neat stock and a higher average value.

Other kinds of personal property in the aggregate have a reduced valuation. That their valuation would be very greatly increased if the local assessors could bring this property from its concealment, there can be no doubt. The assessors find all visible property and impose upon it much larger taxes than would be necessary if the invisible property could be reached and taxed. Money at interest is taxed to the amount only of \$9,754,475, while live stock is taxed at \$12,316,049. This is not given in as a rule voluntarily and the assessors refrain from taking extreme measures in regard to it. Many show a disinclination to search the records each year to ascertain the amount of money loaned on mortgage. Stocks and bonds are taxed to a small extent apparently.

Electric light companies stock is taxed at \$220,545; water companies stock at \$524,765; gas companies at \$314,125; other companies stock on \$641,707; while railroad bonds are taxed to the amount only of \$14,850 and all other bonds to the amount of \$42,580. When we consider that the railroads and the street railways of the State have bonds outstanding to the amount of \$38,000,000, of which only \$5,146,628 are held by the savings banks and add to them the large amount of State, county and municipal bonds, together with those issued by water companies, electric light companies and other corporations, we must conclude that a very large amount of property of this kind escapes all taxation.

That the local assessors under present conditions will not reach them for purposes of taxation seems very evident. This practical exemption of a great amount of personal property

imposes an unequal burden upon the farms and other visible property. Thus is brought about unequal taxation and consequent complaint of injustice. The State Assessors are unable to equalize these disproportionate valuations except partially, and this equalization applies only to towns and the State tax, which is only a seventh part of the local tax on the average. The unequal burdens of taxation inhere mainly in the local taxes, and every town has the power to some extent to rectify the conditions, and hence its responsibility. The State tax is not the burden. The State tax rate is but $2\frac{3}{4}$ mills, while the average local rate is .0202 per cent.

Then it should be considered that a large part of the State taxes comes back to the towns in school money, so that very many of the small agricultural towns receive nearly, if not quite as much, as they pay in taxes to the State. That the present conditions of practical exemption of certain kinds of property should be changed seems clear.

Equal taxation can only be accomplished by adequate and just laws and the fearless discharge of their duties by the assessors.

That the assessors desire to make taxes equal, we have no doubt, and we desire to thank them for their manifest interest in our investigation and their ready co-operation.

We append schedules of all corporations on which State taxes were assessed during the present year, embracing savings banks, railroad companies, telephone and telegraph companies, loan and building associations and express companies; also the valuations of various classes of property as returned. The showing made by these returns should be very gratifying to the people of the State. It indicates a healthy growth of the State in property, and the returns as to the number of polls indicate an increase in population of over 9,000. We have good reason to believe that the growth of the present will be exceeded by that of the coming year.

WM. C. MARSHALL,
OTIS HAYFORD,
GEORGE POTTLE,
Board of State Assessors.

A Schedule of Valuation Returns as Made by the Assessors of each City, Town and Plantation for the Year 1899, with Summaries of the Same.

STATE OF MAINE.

The following Tables give the State Tax for 1900.

Be it enacted by the Senate and House of Representatives in Legislature assembled, as follows:

Section I. That each city, town, plantation, or any other place hereinafter named, within this state, shall be assessed and pay the several sums with which they respectively stand charged in the following lists; the same being in addition to the poll tax of one cent on each poll, a tax of two and three-fourths mills on the dollar of the present valuation for the current disbursements of the treasury, for the year nineteen hundred and for the school mill fund established by an act approved February twenty-seven, eighteen hundred and seventy-two.
