#### MAINE STATE PRISON.

INSPECTORS' OFFICE, THOMASTON, ME., December 1, 1899.

To the Honorable Governor and Council:

Complying with the provisions of the Revised Statutes, we have the honor to submit herewith, the annual report of the condition of the Maine State Prison and the several county jails for the year ending November 30, 1899.

The monthly inspections at the Prison by at least two members of the board of inspectors, have found this institution in a satisfactory condition. The interior of the Prison, insane department, hospital, woman's quarters, guard-house and offices have been kept neat and clean. The grounds outside and within the Prison walls have been well policed and presented an attractive appearance.

The same good discipline reported from year to year has been maintained. Punishments have been few. Not a complaint has been made of the food. There has been no contagious disease, and but few patients in the hospital. Four have died during the year, all from natural causes. Charles A. Plummer and Rose E. White escaped at the commencement of the Prison year, but both were captured. Plummer served full sentence; Rose E. White will.

The spiritual and physical status of the prisoners will be fully set forth in the accompanying reports of Chaplain Plumer and Dr. Smith.

The manufacturing departments show fair returns, considering the advance in all material used in the construction of carriages, harness, brooms, etc. The sales of manufactured products have been good. In the carriage department the showing is better than for several years; while the harness department

#### STATE PRISON.

shows a small depreciation as compared with the past two years, due to the fact that the warden has not sufficient funds to enable him to take advantage of the discounts which come to this department more than to any other. The broom department, hitherto of the most profit to the State, shows a marked decline, owing to the fluctuating market of broom corn; and with the present and prospective prices of raw material, brooms cannot be manufactured and sold at a profit to the State.

The overseers in every department have been faithful in discipline and instruction.

In all of our inspections at the Prison, we have been accompanied by the visiting member from the executive council, Hon. A. P. Gordon, whose counsel and advice has been wise and helpful.

We extend to the warden, deputy warden, chaplain, prison physician, and all subordinate officers, our thanks for courteous treatment during the year.

Very respectfully,

WHITMAN SAWYER, A. W. GILMAN, AUGUSTUS BAILEY, Inspectors of Prisons and Jails.

#### WARDEN'S REPORT.

THOMASTON, December 1, 1899.

To the Honorable Governor and Council:

GENTLEMEN: In compliance with the law governing our State Prison, I have the honor herewith to submit to you my third annual report of the institution, for the fiscal year ending November 30, 1899; including reports of the Prison inspectors, chaplain, physician, council committee and commission relating to the criminal insane, all containing information of general interest regarding the management and condition of the institution.

The financial and statistical condition of the Prison is herewith presented in the customary tabular form together with the correct list of the Prison population giving the changes that have taken place during the year just closed.

HILLMAN SMITH, Warden.

#### CHAPLAIN'S REPORT.

#### To the Honorable Governor and Council:

Gentlemen: Complying with the custom of past years I herewith report the work of the year ending November 30.

During this year sixty persons sentenced for various crimes, and three removed from the jails to the insane department, have been received into the Maine State Prison. Twenty-two and two-tenths per cent of them could neither read nor write the English language, and only one could read and write his native language. Four and eight-tenths per cent could read a little but could not write. Forty-nine and two-tenths per cent had been instructed in the public schools of this or other countries. Fifteen and eight-tenths per cent had completed the grammar school course of study in their native towns and cities. And eight per cent had taken the high school course of study.

Ninety and five-tenths per cent were users of tobacco, some only smoking, others chewing only, yet others using it in both ways, and only nine and five-tenths per cent had never used tobacco.

Fifty-eight and seven-tenths per cent, including one who only drank a little wine occasionally and two who never drank anything stronger than beer, had been accustomed to the use of intoxicating drinks, as moderate or hard drinkers. Forty-one and three-tenths per cent replied to the question respecting the use of intoxicating drinks, that they had never even tasted such drinks.

#### CORRESPONDENCE.

The most of the convicts make good use of the privilege of weekly correspondence with friends. I continue to write weekly for such as desire to write, but cannot, but have them write their own letters as soon as they can be taught.

#### CHAPLAIN'S REPORT.

#### LIBRARY.

A few volumes have been added to the library by purchase and donation. Many of the books have been in use many years and should be thrown aside and new books substituted. Five hundred dollars could be profitably expended in additions to the library. The library is a source of much pleasure and instruction to most of the convicts. We continue to take Harpers Magazine, The Century, The New England, The Cosmopolitan, and Munsey. These are passed among the men, one copy to each man each week. Also many old magazines given by friends of education and reform, are distributed and read.

#### PERIODICALS.

An unusually large number have received the leading papers of the State and country during the year. They are permitted to exchange their papers through the hands of the guards. Most of the men are therefore well informed upon the current events of the times.

#### INSTRUCTION.

This work has been continued. The alphabet and figures are taught. The primer and first reader are used. And the students are advanced as rapidly as their ability to learn and the circumstances will permit. The need of the student, and not the pleasure of the instructor, determines the subject and manner of instruction. Some beginning with the alphabet make wonderful advancement, with others more time and patience are required. It is with them a drill, but not fruitless at the end.

#### RELIGIOUS INSTRUCTION.

This part of our work has not been neglected. The accustomed services are continued; preaching at nine A. M., a service of Bible instruction with the women prisoners at two P. M., and a service of Bible reading and prayer in the hospital at four P. M. I am convinced, by experience with these men, that personal talk and prayer with them is not less important than the above named services.

Having the help of many who respond with gifts of religious papers, I have been able to furnish each who can read, with a religious paper each week. The improved living of some now with us, and letters from some who have served their sentence, and from their friends, reveal that we do not toil in vain.

With thanks to your honorable body, the officers of the prison and to all who have assisted me in my work for the help and encouragement given, I submit this report.

C. A. PLUMER, Chaplain.

Thomaston, Nov. 30, 1899.

#### PHYSICIAN'S REPORT.

To the Honorable Board of Prison Inspectors:

Gentlemen : I herewith submit to you my third annual report for the fiscal year ending Nov. 30, 1899.

The sanitary condition of the Prison the past year is nearly perfect as there has not been an epidemic of any nature, neither a contagious disease. The four deaths occurring were due to the almost helpless condition of the men when they entered; two dying of consumption, one of cancer of the liver, and the other of kidney disease. As a rule a prisoner begins to take on flesh, and improvement, physically, and I may say, morally. The food is excellent in quality and sufficient in quantity.

There have been no accidents of note, but two serious operations have been performed in the hospital, one for appendicitis, the other a tumor of the left side involving the rib and extending into the lung cavity, with recovery in both cases.

William Annis died of kidney disease January 7th; Granville Lewis of cancer of the liver May 4th; Damos Pelletier of consumption May 13th, and Patrick J. Feeney of consumption June 30th.

In closing permit me to thank you gentlemen, and the officers of the prison for the many courtesies extended.

> ADDISON R. SMITH, M. D., Prison Physician.

# REPORT OF THE COUNCIL COMMITTEE ON STATE PRISON.

#### To the Governor and Council:

I have visited the State Prison every month the present year, and have endeavored to acquaint myself with the workings of the institution; all of my visits have been in connection with the regular visits of the Inspectors, as I have deemed it advisable to have all interested present to consult upon any matter of importance that might arise and upon which consultation was expedient.

The warden and all subordinate officers have at all times extended to me every assistance in their power and I feel that I am under great obligations to them for the same.

In making my annual report, I am able to say, that the general management of the prison has been satisfactory; the various industries connected with the institution appear to have been carried on quite successfully; there are so many short term sentences the services in the manufacturing departments are of small value to the State for this reason: by the time the prisoners have become fitted to perform their duties their sentence has expired. In going through the several departments I have always found the prisoners at work and good discipline being maintained. I have no doubt the prisoners have been well treated as no one has made complaint to me.

The sanitary condition of the prison and the health of the prisoners has been all that could be desired. There has been no murmuring as to the quality or quantity of food furnished. I have always found the kitchen neat and the prisoners provided with wholesome food and of sufficient variety to keep them in a healthful state. Prisoners in the hospital have had proper care and attention and have been provided with such delicacies as their cases seemed to require.

The insane criminals seem to be cared for in a satisfactory manner, they are required to do some light work to keep their minds occupied and also as a source of income to the State.

The chaplain seems to be doing all in his power for the uplifting of the prisoners and his influence seems to have a desirable effect.

I have been assisted in my work by the inspectors, warden and subordinate officers of the prison, and I extend my thanks to them for the many courtesies I have received.

November 14; 1899.

Very respectfully,

A. P. GORDON, Visiting Committee.

3

# REPORT OF THE COMMISSION RELATING TO THE CRIMINAL INSANE.

#### To his Excellency, the Governor, and the Executive Council of the State of Maine:

Your commission, empowered by statutory enactment to have in charge the general management of the Insane Department of the Maine State Prison, would respectfully submit its annual report for the fiscal year ending November 30, 1899.

Your committee are cognizant of the fact that it has under its care a most unfortunate and unmanageable class; persons, not only suffering from derangement of mind, but largely bereft of will power in consequence of disassociated ideas and incoördination of the functional manifestations of the brain. Added to this distressing condition there is necessarily observed manifestations of great moral obliquity, as indicated in evidences of overwhelming tendencies to homicidal impulses and in some cases apparently congenital or acquired criminal instincts.

Notwithstanding the degenerative and morbid brain processes and inclination to overt and unusual acts of violence, we are able to report that no casualties have occurred; that no bodily suffering has been observed among the inmates, calculated to mar or destroy the comfort and physical well-being of any. But little sickness has occurred; and with the exception of two or three cases of temporary feebleness, occasioned by colds and the resultant functional weakness of the lungs for a short period, the health of the inmates has been unusually firm. This condition is due to several causes; notably among which are sufficient warmth, good ventilation, excellent sewerage and drainage and its bathroom, which promotes cleanliness. Added opportunities to maintain a good standard of physical health is in the enjoyment of daily exercise in the open air and in the facilities afforded in the cultivation of a garden and other agricultural employment.

Your commission, which as a whole visits once every month, have observed in the supervisorship of Mr. Moody, who has had the immediate care of the immates since the occupation of this department, evidences of faithful and efficient service and the maintenance of proper discipline. At each visit the corridors and cells have been found in a cleanly condition; and we cannot speak in too commendable terms of the observance of most excellent sanitary and hygienic conditions at all times. The food is well prepared and sufficient in quantity; it is plain, but nutritious and of sufficient variety to meet the physical wants of the inmates.

The prison physician, a member of this commission, has been prompt to meet the medical necessities of the inmates upon the application of the supervisor.

We cannot emphasize in too commendable terms the methods devised to afford the inmates increased facilities for garden and farm labor. These opportunities to labor in the summer, and that of outdoor exercise in the prison yard in the winter, sheltered by the prison walls from the cold winds, adds much contentment and comfort to these otherwise restrained lives. After all, wise restraint must necessarily be imposed, yet is it limited to a minimum degree.

In addition to the above facilities, a judicious amount of reading material is allowed; and the benefit of religious instruction is received from the chaplain. While life to them under the most favorable conditions is somewhat monotonous and burdensome, yet we believe the affirmation is reasonable and truthful when we assure the friends and relatives of this unfortunate class that as much liberty is afforded and as much opportunity for comfort is rendered to make life in a degree pleasant, as is consistent with their mental and physical conditions.

# JAILS.

The several jails have been visited in turn by one or more of Inspectors as prescribed by law, and we report their condition as follow :

The Androscoggin County Jail at Auburn, one of the largest in the State, has been kept in very good order. There is a workshop attached to the jail which is successfully managed.

The jail at Houlton, Aroostook county, is one of our up-todate jails, it is one of the first in the State to be erected with steel cells. It is well kept and always found in excellent condition.

Cumberland County Jail at Portland is the largest jail in the State. It is always kept up to the standard as a model jail. The management of this jail with its large number of prisoners, although exceedingly difficult, is very satisfactory. This is the only jail in the State that has a matron to look after the welfare of the female prisoners. There is a workshop in connection with the jail for making inner soles and heels.

The Franklin County Jail at Farmington, though a small jail, answers the needs of the county. It is well conducted under Sheriff Fowler and kept in perfect order.

The Hancock County Jail, Ellsworth, is under the care of Sheriff Hooper, who takes pride in its management and performs his duties in an efficient manner. On the last visit of the Inspectors it was found in excellent order.

The Augusta Jail, Kennebec county, ranks as one of the best jails in the State. It has been well taken care of by Sheriff Mc-Fadden and is always found neat and orderly.

Knox County Jail at Rockland, is a new building, comparatively speaking, and is furnished with steel cells, improved locks and other modern conveniences. It is well managed under the direction of Deputy Sheriff Thomas. The jail at Wiscasset, Lincoln county, has been much improved by Sheriff Albee and is kept in as good condition as circumstances will admit. The old jail was erected in 1808 and with its dark cells and poor ventilation it is kept as well as can be expected.

The Oxford County Jail at Paris is one of the newest and most conveniently arranged jails in the State. Both the interior and exterior are carefully looked after and are found in a praiseworthy condition. This jail has steel cells and improved locks.

Penobscot County Jail at Bangor is also one of the large jails of the State. It has a stone-yard attached where all the tramps are well exercised for eight hours a day. The discipline is excellent and the labor of the prisoners well managed. Sheriff Brown seems to be the right man in the right place.

There is no jail in Piscataquis county, nor is there one in Sagadahoc county.

The Somerset County Jail at Skowhegan was newly built a few years ago and is fitted with all the modern improvements. It is well cared for and has ample accommodations for the needs of the county. The cells are of steel and the sanitary condition is good.

The Belfast Jail in Waldo county, although an old jail, is kept in good order. Good discipline is maintained by Sheriff Norton. The sanitary condition has been improved and the food is well prepared.

The Washington County Jail at Machias, under the supervision of Deputy Sheriff Gilson has been satisfactory in discipline. The food has been sufficient in quantity and well cooked. We have recommended that greater care be observed in sanitary arrangements.

The York County Jail at Alfred has improved materially under Deputy Sheriff Anderson, the new jailer, and there is a marked improvement. There is a workshop connected with this jail for making heel stock.

During the past year we have noticed a marked improvement in most of jails. On the whole, they are well-managed, the discipline is good and the sanitary conditions and ventilation greatly improved. The food has been sufficient and well prepared. There has been but few escapes and those have been recaptured in a short time. Punishments have been light as the reports of the several sheriffs of the jails will show and there have been few, if any, complaints from the prisoners in regard to food, treatment, etc.

In nearly all the jails the prisoners wear the regulation convict suit. Good reading matter is provided in many of the jails and in all the moral welfare of the prisoners is carefully looked after. As a rule the health of the prisoners has been very good.

> Respectfully submitted, WHITMAN SAWYER, A. W. GILMAN, AUGUSTUS BAILEY,

Inspectors of Prisons and Jails.

## ANDROSCOGGIN COUNTY JAIL-AUBURN.

County Officers—A. M. Penley, Seth Chandler, George Parcher, County Commissioners; George E. Huskins, Sheriff and Jailer; J. H. Soule, Turnkey; no regular physician; John Horne, Overseer of Workshop.
