Road Surface Conditions

## STATE OF MAINE STATEWIDE MOTORCYCLE CRASHES 2013 - 2017

#### Preface

This publication is a statistical review of reported motor vehicle crashes that involved motorcycles in Maine during the five-year study period 2013 - 2017. The statistics are compiled from crash reports submitted to the Department of Transportation by the Traffic Division, Department of Public Safety. The Traffic Division receives all police uniform crash reports Form 13:20 A, from state, county and local police agencies.

The enclosed charts, graphs, listings and summaries were produced using the Department of Transportation's Computerized Crash Records System. Except for adjustments to locations and crash-type information for accuracy, no attempt has been made to modify the raw data received from the reporting agencies. However, because crash scenes are often dangerous and chaotic, some inaccuracies in data collection are possible.

A comparison of this report with other summaries of crashes and fatalities may also reveal inconsistencies due to changes in crash classification, late submittals, and differing reporting criteria.

The Department of Transportation and the Department of Public Safety wish to express our sincere thank you to all law enforcement agencies and officers for the work they do on crash investigations. Without their dedication, this report would not be possible.

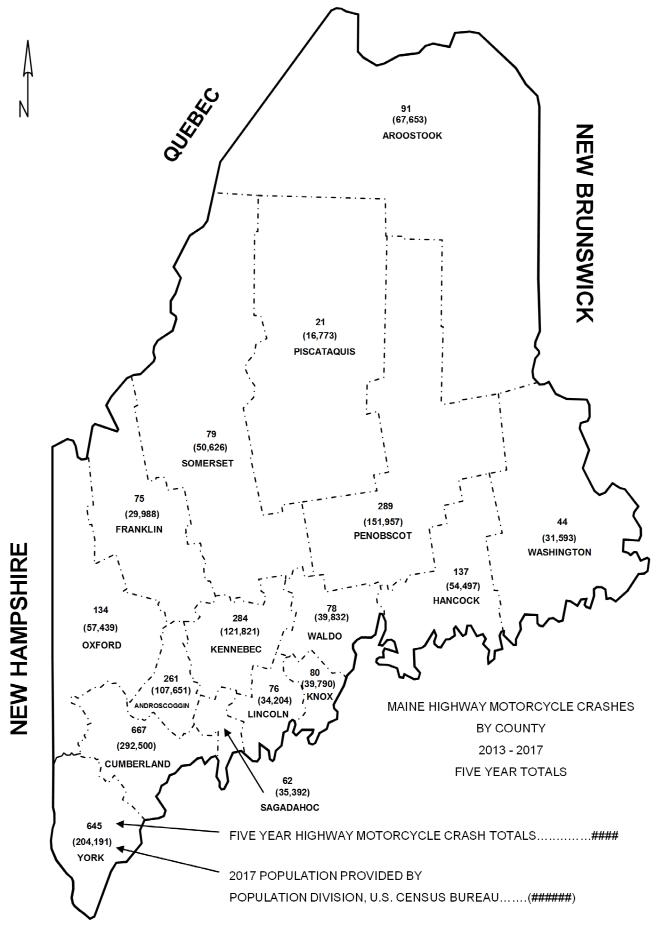

A link to this publication can be found on the maine.gov website at: https://www1.maine.gov/mdot/safety/crash-data/

Weather Conditions 17
Road Surface Conditions 18
Vehicle Type 19

## STATEWIDE TRUCK CRASHES 2013 - 2017

#### Preface

This publication is a statistical review of reported motor vehicle crashes that involved trucks in Maine during the five-year study period 2013- 2017 The statistics are compiled from crash reports submitted to the Department of Transportation by the Traffic Division, Department of Public Safety. The Traffic Division receives all police uniform crash reports Form 13:20 A, from state, county and local police agencies.

The enclosed charts, graphs, listings and summaries were produced using the Department of Transportation's Computerized Crash Records System. Except for adjustments to locations and crash-type information for accuracy, no attempt has been made to modify the raw data received from the reporting agencies. However, because crash scenes are often dangerous and chaotic, some inaccuracies in data collection are possible.

A comparison of this report with other summaries of crashes and fatalities may also reveal inconsistencies due to changes in crash classification, late submittals, and differing reporting criteria.

The Department of Transportation and the Department of Public Safety wish to express our sincere thank you to all law enforcement agencies and officers for the work they do on crash investigations. Without their dedication, this report would not be possible.

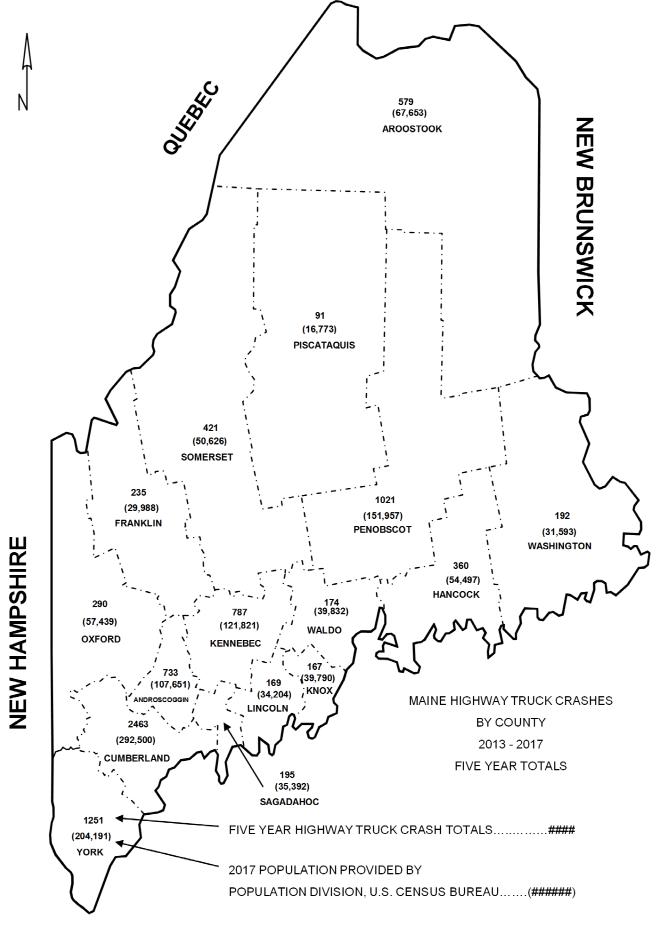

A link to this publication can be found on the maine.gov website at: https://www1.maine.gov/mdot/safety/crash-data/

We welcome your comments and suggestions on this report at:
