Budget Message

By the Governor

JOHN H. REED
GOVERNOR

State of Maine
Executive Department
Augusta

Mr. President and Members of the 101st Legislature:

During the next few months you will be dedicated to the task of working out the best solution to each of the problems presented by the hundreds of bills and resolves that will be referred to your Joint Legislative Committees.

Among all of these bills and resolves no other area of debate will challenge your wisdom and judgment to the extent of those related to state finance.

With that conviction, and it is a conviction based on my experience in both the Legislative and Executive Branches of State Government, I have devoted much of my effort in recent weeks to a careful study of our income sources and the needs of Maine people that should be met at this time. The decisions I have arrived at, as reflected in the budget document, have been difficult.

The requests from the various department heads have had my careful scrutiny. I have had searching conferences with each of the department heads responsible for the major expenditures. Following these conferences I have made every attempt to reduce costs to the minimum reasonable needs to carry on state services at substantially the same levels as have been established by prior legislative action.

By this same conference method I have devoted an equal amount of time and study to our capital construction needs, and in this area I have made a determination of what the capital construction program should be.

I present these recommendations to you in brief form knowing that the carefully prepared budget document will detail these conclusions, item by item, for your consideration.

GENERAL FUND

Let us first consider the General Fund. For the biennium ending next June 30th, the 100th Legislature enacted measures providing total General Fund appropriations of \$128,484,000. I have concluded that to maintain this same level of service we will be required to provide \$143,381,000 in the next biennium. This is an increase of nearly \$15,000,000 for the two year period. While all of this detail will be disclosed to you in the budget document, I would like to direct your attention to the major items making up this apparent 11.6 per cent increase in General Fund operating costs.

Using approximate figures for the biennium, the statutory provisions that provide for educational state aid to the municipalities has increased by nearly \$7,000,000. This comes as a result of increased foundation program expenditures by the cities and towns along with the state sharing in a greater number of school districts and the substantial increase in state sharing of the costs of local school construction activity.

In our other educational responsibilities, the University of Maine's operational needs require additional appropriations of more than \$1,100,000. The new state educational television program will require funds in excess of \$500,000 and increased state retirement costs for teachers' pensions amount to about \$1,700,000.

In summary, therefore, nearly \$10,300,000, or about 68 per cent of this problem is directly related to these four areas in our educational efforts. Each of these cost increases have been substantially predetermined by the actions of prior legislatures.

State wage costs will be up by about 3½ per cent annually in the next biennium and will require increased appropriations of nearly \$2,700,000. The related increases in state retirement contributions add another \$500,000.

There are, of course, numerous other changes — some increases and a few decreases, but in the interest of brevity I will not tabulate them here.

Thus, with an indicated need of \$14,897,000 for increased General Fund appropriations the few major items previously mentioned account for more than 90 per cent of the overall problem that the budget document presents to you.

REVENUE ESTIMATES

The Bureau of Taxation and other departments involved in the revenue projecting process have estimated, under current laws, that our General Fund undedicated revenue for the 1963-65 biennium will be \$130,656,000.

As I outlined previously, my basic recommendation for appropriations to continue the current level of state service amounts to \$143,381,000. As you can readily see, it will be necessary to obtain \$12,725,000 in new revenue in order to balance the Part I budget. Part I being that section designed to carry on General Fund services as approved and appropriated for by previous legislatures.

SUPPLEMENTAL RECOMMENDATIONS

I now turn to those areas in which I have been convinced there is a proven need for increased or expanded services. These items have been carefully evaluated as to the priority of need and in my opinion are the minimum improvements we should strive to achieve in the coming biennium.

To summarize, I am recommending a basic General Fund appropriation measure of \$143,381,000 and supplemental appropriations of \$5,451,000 — a total of \$148,832,000 in General Fund operating appropriations for the coming biennium.

CAPITAL IMPROVEMENTS

Two years ago in my Budget Message I recommended that our Capital Construction appropriations be limited to the balances we could anticipate in the Unappropriated Surplus of the General Fund. I believed then and I believe now that if it were at all possible to balance the urgent needs against the modest \$4,000,000 estimated as available for construction purposes in the Surplus Account such a solution would be desirable.

However, desirable as it might be, the facts deny such a decision. We must, if we are to reasonably face up to the needs, give considera-

tion to another General Purpose Construction Bond Issue and to do it with the full realization that principal and interest payments in future years must be appropriated from General Fund income sources.

In determining what capital projects should receive priority I have worked closely with the Bureau of Public Improvements. This agency has painstakingly arranged all the requests according to their urgency of need.

My final decision was that we should enact a Capital Construction Program of \$22,577,000.

Since the Bureau of Public Improvements will submit a detailed report to you on all projects, I will simply summarize them in this message:

Department	Biennium Amount (to the Nearest \$1,000)
Adjutant General	\$ 41,000
Aeronautics Commission	3,047,000
Economic Development	23,000
Aroostook State Teachers College	61,000
Farmington State Teachers College	913,000
Fort Kent State Teachers College	462,000
Gorham State Teachers College	1,230,000
Washington State Teachers College	388,000
Maine Vocational - Technical Institute	386,000
Northeastern Maine Vocational Institute	366,000
Bureau of Public Improvements	1,805,000
Forest Service	103,000
Health and Welfare	54,000
Augusta State Hospital	693,000
Bangor State Hospital	505,000
Pineland Hospital	426,000
Boys Training Center	5,000,000
Stevens Training Center	248,000
Reformatory for Men	76,000
Reformatory for Women	148,000
Maine State Prison	467,000
Governor Baxter School for Deaf	35,000
Military & Naval Children's Home	29,000
Maine Port Authority	133,000
Maine Maritime Academy	205,000
Sea and Shore Fisheries	8,000

State Park Commission	1,462,000
Maine State Police	196,000
University of Maine	4,065,000
TOTAL	\$22,577,000

To finance the Capital Construction Program I recommend a General Fund Bond Issue of \$17,000,000, the use of \$4,000,000 from the Unappropriated Surplus, \$1,433,000 from a self-liquidating bond issue and \$144,000 from the Highway Fund.

The self-liquidating bond is for dormitories and dining facilities at teachers colleges, a principle established by previous legislatures. The Highway Fund Allocation is for 75 per cent of the cost of an addition to the State Police Headquarters Building. This is the same percentage ratio on State Police costs shared by the General Fund and the Highway Fund. A minor increase in the highway allocation may be necessary to include the \$144,000.

FINANCING THE GENERAL FUND REQUIREMENTS

At this point I will review the General Fund requirements indicated by the recommendations I have made.

OPERATING REVENUES AND APPROPRIATIONS

The basic appropriation measure	\$143,381,000
The supplemental appropriation measure	\$ 5,451,000
TOTAL	\$148,832,000
Estimated General Fund Undedicated Revenue	\$130,656,000
DIFFERENCE	\$ 18,176,000
The capital construction measures	\$ 22,577,000
From previously recommended sources	\$ 22,577,000

It is apparent, if these recommendations receive your approval, as I sincerely hope they do, we will require \$18,176,000 in additional General Fund Revenue.

TAXATION

In facing up to the vexing problems of taxation I have read and re-read the many published reports that relate to the problem. I have taken advantage of my associations with my fellow governors at the several conferences I have attended, and, of even more significance, I have talked with many, many Maine citizens. My carefully considered conclusion is that an increase from 3 per cent to 4 per cent in our present sales and use tax offers the best solution to our problem. The estimated biennial income from this sales tax increase is \$18,210,000. Assuming, as I recommend, that the change be made effective July 1, 1963 to be first reflected in August revenues.

Your first considerations, of course, are the facts surrounding the indicated needs for increased appropriations. If you conclude, as I am

confident you will, that this 101st Legislature should meet these needs, you logically will consider what tax source can be enacted as fair and equitable. Certainly the existing sales tax collection machinery offers minimum collection and administrative expense and in my opinion is the best solution to the difficult problem.

At all times I shall be ready to review these major finance areas with you and with you consider alternatives as they may apply to either the appropriation or the income side of these substantial finance problems that we must jointly face.

HIGHWAY FUND

The Highway Fund Budget as presented provides for another progressive two-year highway program.

State Aid, Special State Aid and Town Road Improvement allocations are continued at the same levels as approved by the 100th Legislature.

All Federal Funds made available would be matched by appropriate State Funds to support a record highway construction program for Maine in the amount of nearly \$59,000,000 for the biennium, including \$2,500,000 per year for state projects, advanced engineering and reconstructing highways at hazardous locations.

This budget is balanced by the use of \$2,000,000 from the Unappropriated Surplus of the Highway Fund for debt retirement plus \$7,000,000 from the proceeds of bonds as previously authorized by the Legislature and approved by referendum vote by the people.

I firmly believe that this budget, as presented, represents sound recommendations covering the construction and maintenance of both our main highways and secondary roads, both of which are so essential to the economy of Maine.

I also recommend that this Legislature follow the procedures of prior sessions by recognizing the merit in making provisions for highway financing in the two years following the coming biennium. So far as we can now determine, additional highway bond financing should be authorized in the amount of \$5,100,000 for the continuation of the program in the biennium beginning July 1, 1965 and ending June 30, 1967. In your consideration of this recommendation I would point out these important facts related to the soundness of our past, present and, as recommended, our future highway financing. Actual bond retirement during the seven-year period, 1958-1964 inclusive, will total \$22,550,000 and is estimated at \$16,100,000 in 1965, 1966 and 1967, or a ten-year total of \$38,650,000. As a result of these substantial highway bond retirements during this ten-year period, I project the total outstanding highway bonds to be \$43,950,000 at the end of 1967 and note that as long ago as 1953 this total of outstanding highway bonds was \$37,130,500, an increase of less than \$7,000,000 in fourteen years.

In consideration of the progressive highway program adopted by prior Legislatures, highway financing in Maine has been and, I am sure, will continue to be on a sound financial basis.

A final recommendation on the subject of highways is that in order to continue our policy of equitable taxing we should bring up to date the Maine highway-user tax study of 1960.

LIQUOR COMMISSION

A financial problem of increasing urgency has been developing in the State Liquor Commission.

The maximum permanent working capital of the Commission is limited to \$3,000,000. This limitation was established in 1945, since then 30 new stores have been added and gross sales have increased from \$18,000,000 to \$27,000,000.

The limitation has forced the commission to operate with an extremely marginal inventory. In many instances they have found it difficult to adequately stock their stores.

In order to correct this situation I recommend that the maximum permanent working capital of the commission be increased to \$3,500,000, and that consistent with current laws the governor and council could approve and transfer from the General Fund Surplus, as available, permanent advances until the new maximum is reached.

Legislation will also be introduced to further improve the commission's efficiency.

MANPOWER DEVELOPMENT

The Manpower Development and Training Act of 1962, a Federal Program, provides vocational and on-the-job training for unemployed and underemployed persons.

Training under the Act is designed to provide workers with new skills and upgrade their present skills. This program has been operated with a reasonable degree of success in this state.

Present financing is provided wholly by Federal funds. However, with the fiscal year commencing July 1, 1964 it will become necessary for the State to appropriate matching funds in order to participate.

It is my desire that you lend a high priority in your deliberations to the continuation of this Program.

PORT DEVELOPMENT

The State of Maine has a specific interest in the potential of expanding world markets. In order that the State be prepared to take advantage of its opportunities to participate in an expanded World Trade Program, it is necessary that we employ foresight and planning.

It is, therefore, my suggestion that a comprehensive study be made of one of Maine's greatest natural assets — its harbors.

It is envisaged that such a study should be the foundation of a systematic plan of future development.

In my opinion, a professional report on this subject should be provided for the consideration of the 102nd Legislature.

CONCLUSION

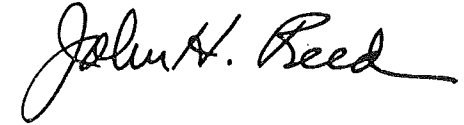

In conclusion, let me assert that it has been my objective in presenting this budget to strive for the continued progress of Maine, realistically meeting the increased requirements placed upon state services, while effecting all possible economy in government operations.

At this time I wish to acknowledge the assistance of Mr. Raymond C. Mudge, Commissioner of Finance and Administration; Mr. Roland M. Berry, Budget Officer; Mr. Niran Bates, Director of the Bureau of Public Improvements, their staffs, and the heads of the various departments and agencies for their helpful cooperation.

I am sure we share a mutual concern for efficiency in state government, for providing needed services, and for the judicious expenditure of our tax dollars.

I am confident you will apply sound judgment to this budget and will dedicate your efforts in the coming months to resolving the vital fiscal questions before you.

In so doing, the 101st Legislature will earn the gratitude of the people of Maine who aspire as we all do, toward a better life in a progressive state.

Appropriation Bills

APPROPRIATION BILL

STATE OF MAINE

IN THE YEAR OF OUR LORD NINETEEN HUNDRED SIXTY-THREE

APPROPRIATIONS FROM GENERAL FUND

AN ACT to Appropriate Moneys for the Expenditures of State Government and for Other Purposes for the Fiscal Years Ending June 30, 1964 and June 30, 1965.

Emergency preamble. Whereas, acts and resolves passed by the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the said 90-day period will not terminate until after the beginning of the next fiscal year; and

Whereas, certain obligations and expenses incident to the operation of departments and institutions will become due and payable on or immediately after July 1, 1963; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine, as follows:

Appropriations for necessary expenditures of government. In order to provide for the necessary expenditures of government and for other purposes for the next two fiscal years — from July 1, 1963 to June 30, 1964 and from July 1, 1964 to June 30, 1965 — the following sums or as much thereof as shall severally be found necessary, as designated in the following tabulations, are appropriated out of any moneys in the General Fund not otherwise appropriated. Upon receipt of allotments duly approved by the Governor and Council based upon work programs submitted to the State Budget Officer, the State Controller shall authorize expenditures of these appropriations and revenues accruing thereto, together with expenditures for other purposes necessary to the conduct of State Government on the basis of such allotments and not otherwise.

It is the intent of the Legislature that allotments for personal services, capital expenditures and amounts for all other departmental expenses shall not exceed the amounts shown in the budget document or as they may be revised by the Committee on Appropriations and Financial Affairs unless approved by the State Budget Officer and the Governor and Council.

It is further the intent of the Legislature that the Institutional Reserve Fund be established and defined, as a vehicle to provide relief, when need exists and on a commodity basis only, to those institutions where actual average population in any fiscal year exceeds the basic estimates of population upon which the budget was approved and where such relief cannot be absorbed within regular legislative appropriations. Funds provided in this Reserve Fund are not to be transferred between accounts, for the purpose upon which this fund is based or any other purpose.

It is further the intent of the Legislature that the figures in parentheses shown just before each dollar amount provided for Personal Services in this Act, or as adjusted by other Legislative action, shall represent the total number of authorized permanent positions in such account. The appropriations made for Personal Services are made with the proviso that the total number of permanent positions in any account shall not be increased during either year of the biennium over the total numbers shown in parentheses and used by the Legislature in computing the total dollars to be made available for Personal Services. To provide some degree of flexibility, each department, institution or agency may apply to the Personnel Department for an exchange between job classifications, and such action may be approved if by so doing the total amount determined to be available for Personal Services, in such account, for any one year is not exceeded.

It is further the intent of the Legislature that no state agency shall establish permanent new programs or permanently expand existing programs, which are beyond the scope of the programs of the agency already established and recognized by the Legislature, until such program and the availability of such money shall be submitted by each agency to the Department of Finance and Administration-Budget Office for evaluation and recommendation to the Legislature, and until funds are made available therefor by the Legislature.

It is further provided that the Controller is authorized to close his books as soon as practicable after the close of the fiscal years ending June 30, 1964 and June 30, 1965. Any bills presented after those dates may be paid from appropriations for the ensuing year on recommendation of the Controller if within the amounts of approved allotments.

Whenever it appears to the Commissioner of Finance and Administration that the anticipated income of the State will not be sufficient to meet the expenditures authorized by the Legislature, he shall so report to the Governor and Council and they may curtail allotments so that expenditures will not exceed the anticipated income.

At the end of each fiscal year of the biennium, all unencumbered appropriation balances representing state moneys, except those that carry forward as provided by law, shall be lapsed to Unappropriated Surplus as provided by the Revised Statutes, Chapter 15-A, Section 20. At the end of each fiscal year of the biennium, all encumbered appropriation balances shall be carried forward to the next fiscal year, but in no event shall encumbered appropriation balances be carried more than once.

There shall be paid from the General Highway Fund the cost of accounting, auditing, purchasing and legal services furnished from the General Fund appropriations. This revenue shall be credited to the General Fund.

SUPPLEMENTAL APPROPRIATIONS ACT

AN ACT Making Supplemental Appropriations for the Expenditures of State Government and for Other Purposes for the Fiscal Years Ending June 30, 1964 and June 30, 1965.

Emergency preamble. Whereas, acts and resolves passed by the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the said 90-day period will not terminate until after the beginning of the next fiscal year; and

Whereas, certain obligations and expenses incident to the operation of departments and institutions will become due and payable on or immediately after July 1, 1963; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine, as follows:

Appropriations for necessary expenditures of government. In order to provide for the necessary expenditures of government and for other purposes for the next two fiscal years—from July 1, 1963 to June 30, 1964 and from July 1, 1964 to June 30, 1965—the following sums or as much thereof as shall severally be found necessary, as designated in the following tabulations, are appropriated out of any moneys in the General Fund not otherwise appropriated. Upon receipt of allotments duly approved by the Governor and Council based upon work programs submitted to the State Budget Officer, the State Controller shall authorize expenditures of these appropriations and revenues accruing thereto, together with expenditures for other purposes necessary to the conduct of State Government on the basis of such allotments and not otherwise.

It is the intent of the Legislature that allotments for personal services, capital expenditures and amounts for all other departmental expenses shall not exceed the amounts shown in the budget document or as they may be revised by the Committee on Appropriations and Financial Affairs unless approved by the State Budget Officer and the Governor and Council.

It is further the intent of the Legislature that the figures in parentheses shown just before each dollar amount provided for Personal Services in this Act, or as adjusted by other Legislative action, shall represent the total number of authorized permanent positions in such account. The appropriations made for Personal Services are made with the proviso that the total number of permanent positions in any account shall not be increased during either year of the biennium over the total numbers shown in parentheses and used by the Legislature in computing the total dollars to be made available for Personal Services. To provide some degree of flexibility, each department, institution or agency may apply to the Personnel Department for an exchange between job classifications, and such action may be approved if by so doing the total amount determined to be available for Personal Services, in such account, for any one year is not exceeded.

It is further the intent of the Legislature that no state agency shall establish permanent new programs or permanently expand existing programs, which are beyond the scope of the programs of the agency already established and recognized by the Legislature, until such program and the availability of such money shall be submitted by each agency to the Department of Finance and Administration-Budget Office for evaluation and recommendation to the Legislature, and until funds are made available therefor by the Legislature.

It is further provided that the Controller is authorized to close his books as soon as practicable after the close of the fiscal years ending June 30, 1964 and June 30, 1965. Any bills presented after those dates may be paid from appropriations for the ensuing year on recommendation of the Controller if within the amounts of approved allotments.

Whenever it appears to the Commissioner of Finance and Administration that the anticipated income of the State will not be sufficient to meet the expenditures authorized by the Legislature, he shall so report to the Governor and Council and they may curtail allotments so that expenditures will not exceed the anticipated income.

At the end of each fiscal year of the biennium, all unencumbered appropriation balances representing state moneys, except those that carry forward as provided by law, shall be lapsed to Unappropriated Surplus as provided by the Revised Statutes, Chapter 15-A, Section 20. At the end of each fiscal year of the biennium, all encumbered appropriation balances shall be carried forward to the next fiscal year, but in no event shall encumbered appropriation balances be carried more than once.

There shall be paid from the General Highway Fund the cost of accounting, auditing, purchasing and legal services furnished from the General Fund appropriations. This revenue shall be credited to the General Fund.

AN ACT Increasing Sales Tax.

Emergency preamble. Whereas, the essential needs of State Government require that additional revenue be raised by this Legislature; and

Whereas, the revenue to be collected under this act may not be sufficient to provide for said needs during the next fiscal biennium unless the tax is imposed on retail sales made on and after the date of the beginning of the next fiscal year, namely, July 1, 1963; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine, and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine, as follows:

Sec. 1. R. S., c. 17, § 3, amended. The first sentence of section 3 of chapter 17 of the Revised Statutes, as last amended by section 7 of chapter 227 of the public laws of 1961, is further amended to read as follows:

'A tax is imposed at the rate of 3 % 4% on the value of all tangible personal property, sold at retail in this State on and after July 1, 1963 and upon the rental charged for living quarters in hotels, rooming houses, tourist or trailer camps, measured by the sale price, except as in this chapter provided.'

Sec. 2. R. S., c. 17, § 4, amended. The first sentence of section 4 of chapter 17 of the Revised Statutes, as amended by section 2 of chapter 402 of the public laws of 1957, is further amended to read as follows:

'A tax is imposed on the storage, use or other consumption in this State of tangible personal property, purchased at retail sale on and after July 1, 1957 **1963**, at the rate of 3 % 4% of the sale price.'

Sec. 3. R. S., c. 17, § 5, amended. Section 5 of chapter 17 of the Revised Statutes, as last amended by section 3 of chapter 402 of the public laws of 1957, is further amended to read as follows:

'Sec. 5. Adding tax to sale price. Every retailer shall add the sales tax imposed by this chapter, or the average equivalent of said tax, to his sale price, except as otherwise provided, and when added the tax shall constitute a part of the price, shall be a debt of the purchaser to the retailer until paid and shall be recoverable at law in the same manner as the purchase price. When the sale price shall involve a fraction of a dollar, the tax shall be added to the sale price upon the following schedules:

Amount of Sale Price		Amount of Tax

STATE LIQUOR COMMISSION

AN ACT to Allocate Moneys for the Administrative Expenses of the State Liquor Commission for the Fiscal Years Ending June 30, 1964 and June 30, 1965.

Emergency preamble. Whereas, acts and resolves passed by the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

Whereas, the said 90-day period will not terminate until after the beginning of the next fiscal year; and

Whereas, certain obligations and expenses incident to the operation of the State Liquor Commission will become due and payable on or immediately after July 1, 1963; and

Whereas, in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

Be it enacted by the People of the State of Maine, as follows:

Sec. 1. Allocation of Liquor Commission Fund. In order to provide for the necessary expenses for operation and administration of the Maine State Liquor Commission, the following amounts, or as much as may be necessary, are allocated from the revenues derived from the operations of the commission:

	1963-64	1964-65
Personal Services	(329) \$1,492,686	(329) \$1,506,738
All Other	728,205	730,853
	<u>\$2,220,891</u>	<u>\$2,237,591</u>

Amounting to \$2,220,981 for the fiscal year ending June 30, 1964 and \$2,237,591 for the fiscal year ending June 30, 1965.

Upon receipt of allotments duly approved by the Governor and Council based upon work programs submitted to the State Budget Officer, the State Controller shall authorize expenditures from these allocations on the basis of such allotments and not otherwise.

Sec. 2. Legislative intent. It is the intent of the Legislature that the allocation of funds by the Legislature, as provided by this act, shall apply to the administrative expenses only of the Liquor Commission and that such allocations shall be allotted and approved under provisions of the Revised Statutes of 1954, chapter 15-A, as amended. It is not intended to affect the use of the Working Capital, provided for by the Revised Statutes of 1954, chapter 61, section 13, or other activities required of the State Liquor Commission by the Revised Statutes of 1954, chapter 61, as amended.

It is further the intent of the Legislature that the figures in parentheses shown just before each dollar amount provided for Personal Services in this act, or as adjusted by other Legislative action, shall represent the total number of authorized permanent positions in such account. The allocations made for Personal Services are made with the proviso that the total number of permanent positions in any account shall not be increased during either year of the biennium over the total numbers shown in parentheses and used by the Legislature in computing the total dollars to be made available for Personal Services. To provide some degree of flexibility, each department, institution or agency may apply to the Personnel Department for an exchange between job classifications, and such action may be approved if by so doing the total amount determined to be available for Personal Services, in such account, for any one year is not exceeded.

Sec. 3. Exclusion. Exclusive of the provisions of sections 1 and 2 above, the commission may expend up to \$50,000 for Capital Expenditures in each year of the 1963-64 and 1964-65 biennium.

Emergency clause. In view of the emergency cited in the preamble, this act shall take effect July 1, 1963.
