ADMINISTRATIVE & FINANCIAL SERVICES

RYAN LOW  
COMMISSIONER

MAINE REVENUE SERVICES

JEROME D. GERARD  
ACTING EXECUTIVE DIRECTOR

October 1, 2009

Senate President Mitchell  
Speaker of the House Pingree  
Members of the 124th Maine Legislature:

Pursuant to 5 MRSA Section 13070-J, the State Tax Assessor is required to submit a report to the Legislature identifying the revenue foregone as the result of the Jobs and Investment Tax Credit (JITC), the Research Expense Tax Credit (R&D), the Seed Capital Investment Tax Credit, the Shipbuilding Facility Credit, the Credit for Pollution-Reducing Boilers, and public funds spent on the Business Equipment Tax Reimbursement Program (BETR). Attached are four reports that provide you with this information.

The first attachment lists corporations and individuals that reduced their Maine income tax liability with the JITC, the R&D credit, and/or the Seed Capital credit for tax year 2007, as well as the value of those credits. Tax year 2007 is the last year for which we have full information on both corporate and individual filers. Statutes governing the release of confidential taxpayer information prevent us from reporting the names of the corporations or individuals that benefited from these tax credits. No taxpayer took advantage of the Credit for Pollution-Reducing Boilers for tax year 2007.

The second attachment explains the Shipbuilding Facility credit. As required by statute, the report provides information on the level of employment, yearly investment and the cumulative amount of investment. Since the inception of the credit, the level of employment has been such that the annual cost to the state treasury has exceeded the base credit amount of \$3 million per year.

The third attachment is a list of BETR recipients. For purposes of this report, businesses that filed for reimbursement during the fiscal year ending June 30, 2009 are listed. BETR recipients filed between August 1, 2008 and December 31, 2008 for eligible property taxes paid during calendar year 2007. For that period the state reimbursed \$65,590,668 million to over 1,800 companies.

Public Law 337 (LD 1468) enacted during the last legislative session amended the definition of "economic development incentive" in Section 13070-J to include not only the incentives listed above, but "federal and state statutorily defined programs that receive state funds, dedicated revenue funds and tax expenditures as defined by section 1666 whose purposes are to create, attract or retain business entities related to business development in the State." The additional incentives identified in this new law can be found in the [Maine State Tax Expenditure Report 2010 – 2011](#) prepared for the Joint Standing Committee on Taxation on January 15, 2009.

If you have any questions on this report please do not hesitate to contact me.

Sincerely,

Jerome D. Gerard

Cc: Ryan Low  
Grant Pennoyer, Office of Fiscal and Program Review

### **Jobs and Investment Tax Credit**

The Jobs and Investment Tax Credit (JITC) provides a credit of 10% of the investment of at least \$5,000,000 in personal property that creates at least 100 new jobs within 2 years of the investment. Retail facilities are excluded from taking the credit. The JITC used in any one year is limited to the lesser of \$500,000 or the tax liability of the taxpayer. Any unused credit may be carried forward for up to 7 years for a maximum credit claimed of \$3,500,000.

### **Research Expense Tax Credit**

The Research Expense Tax Credit (R&D) provides a credit equal to the sum of 5% of the excess of qualified research expenses over the average research expenses of the prior three years, and 7.5% of the basic research payments to educational institutions and certain research organizations. The credit is limited to 100% of the first \$25,000 of tax liability and 75% of the tax liability over \$25,000. Any unused credit may be carried forward for up to 5 years.

### **Seed Capital Investment Tax Credit**

The Finance Authority of Maine administers this program. The Authority issues a tax credit certificate to eligible investors. The amount of the credit is equal to 40% of the certified investment amount or 60% of the certified investment amount if the eligible Maine business is located in a high unemployment rate area. The timing for claiming the credit is 25% in the taxable year the investment is made and 25% per year must be taken in each of the next 3 taxable years.

### **Business Property Tax Reimbursement**

The BETR program provides for a reimbursement of property taxes paid on qualified tangible, personal, depreciable property held for business use, and first placed into service in Maine after April 1, 1995. Public utilities, cable television companies, or providers of radio paging, mobile communications, satellite direct TV, or television distributions services are ineligible for BETR reimbursement. In addition, office furniture, lamps and lighting fixtures, buildings, and land are excluded. Reimbursement of 100% of taxes paid is limited to 12 years. After 12 years, the reimbursement percentage declines until reaching 50% in year 18. The 50% reimbursement rate remains in effect for the remaining life of the property. Taxpayers using the High Technology Tax Credit on reimbursable property are not eligible for BETR on that property, and lose that year of BETR eligibility when either one of those credits are taken. Recently enacted legislation will lower BETR reimbursement to 90% of eligible taxes in FY10 and FY11 and beginning with property first placed into service after April 1, 2006 property located in retail sales facilities exceeding 100,000 square feet will no longer be eligible for BETR. Property placed in service in Maine that is first subject to property tax on or after April 1, 2008, is eligible for the Business Equipment Tax Exemption (BETE) program. The BETE program exempts all eligible equipment from property tax.

**Attachment #2**  
**MAINE'S SHIPBUILDING FACILITY CREDIT THROUGH 2008**  
 How the Program Works

A credit against withholding taxes otherwise due is allowed for up to \$3,500,000 each year for as many as 20 years if an employer:

- 1) Owns, operates or proposes to build a shipbuilding facility in Maine;
- 2) Proposes to make at least a \$200,000,000 investment in a shipbuilding facility in Maine;
- 3) Employs at least 3,500 full-time Maine employees covered by health insurance and a retirement plan, and;
- 4) Does not qualify for the Maine Employment Tax Increment Financing program (36 MRSA. § 6751) at the time of application for the shipbuilding facility credit.

The Commissioner of the Department of Economic and Community Development must certify the applicant as eligible.

The base amount of the yearly credit is \$3,000,000, with a bonus of up to \$500,000 for employee levels above the threshold amount of 5,000. Until January 1, 2003, no credit was allowed if employment level drops below 5,000. After that date, no credit is allowed if employment level drops below 3,500, with a reduced credit available if employment level is between 3,500 and 5,000.

The cumulative credit amount may not exceed \$60,000,000. No credit is allowed after the year in which a qualified applicant has launched its 30<sup>th</sup> qualified ship. A qualified ship is one that is launched after 1998 and was constructed at the facility in which the qualified \$200,000,000 investment is made. The credit ends December 31, 2018.
