## 2006 MUNICIPAL VALUATION RETURN STATISTICAL SUMMARY

Maine law requires the State Tax Assessor to annually establish the equalized just value of all taxable property in each municipality. Known as the State Valuation, these figures are used by other agencies as a basis for various purposes, including allocation of money appropriated for State General Purpose Aid for Education, State Revenue Sharing to municipalities and apportioning County Taxes.

Part of the State Valuation process includes the preparation of a statistical summary of certain municipal information that must be annually reported to MRS by municipal assessing officials. A wealth of information detailing valuations and exemptions by selected categories, assessment ratios and tax rates, on a town by town basis, is compiled.

The data on the following pages is a compilation of the Municipal Valuation Return filed by each municipality. Any errors or misinformation that appears in this summary should be reported to the Property Tax Division at 207-287-2013.
