1987 MAINE SOCIAL SERVICES REPORT

Prepared By

Maine Division of Community Services

Maine Department of Hentel Health and Hentel Retardation

Maine Department of Human Services

With Contributions From Other State Agencies

Involved in Social Services

February 5, 1988

To The Honorable John R. McKernen, Jr., Governor:

The Depertment of Human Services, the Department of Mental Health and Mental Retardation, and the Division of Community Services are pleased to submit Maine's 1887 Social Services Raport which has been developed pursuant to 5 M.R.S.A., Chapter 148-A, Sections 1641-1643. It is intended to summarize the State of Maine's entire social services capability regardless of the specific agency or department in which a particular program may be placed. It addresses all social services, including certain health programs and income maintenance programs such as the Aid to Femilies with Dependent Children (AFDC) Program, the Food Stamp Program and related social services delivered by other state agencies.

For years, Mains citizans have had difficulty understanding the social services system because of the multiplicity of programs and the varied sources of information about them. This has been particularly true where different programs seemed to serve similar purposes or to serve identical groups of people. This document represents an affort to consolidate and to simplify program information. It is designed to enable the reader to gain a concise understanding of the scope and cost of the social service system.

The report presents social service progrem descriptions and budget information on all state edministered funds (including federal accounts) for state fiscal years 1985, 1986, 1987, 1988 and 1989. We expect this information to facilitate the departments' joint planning responsibilities and to enable greater public participation in that process.

This report does not include any FY 88 or FY 89 additional requests for resources to the Legislature made after November, 1997.

Submitted respectfully by:

Hollin Ives, Commissioner

Department of Human Services

Susan B. Parker, Commissioner

Department of Mental Health and

Mental Retardation

Nicola Kobritz, Director

Division of Community Services

## "HOW TO USE" THE MAINE SOCIAL SERVICES REPORT

- PAGES Purpose; This report is a tool to assist the reader in developing social service public policy. The report describes how state administered funds are expended or proposed to be invested to help people. It also describes the people helped and the units of social service production.

  COLOR This report has two sections.
- 1v 2 A. The green section summarizes social services in terms of total finances, broad classes of services, and key target populations.
- 3 72 B. The yellow section summarizes services edministered through state agencies. Readily recognized program areas are described by concisely Yellow stating in two page summaries:

The top page has the following format:

- 1. Problem Statement: The problems a program area is designed to address are briafly noted.
- 2. Mission-Philosophy-Expected Outcome Statement: The purpose, philosophy, and enticipated results of services are concisely noted, as are goals and objectives,
- 3. Services Provided: An overview of services delivered by the program area is presented.
- 4. Priorities for Service: The priorities utilized in a given program area are described.
- 5. Examples of Inter-Departmental Coordination. Only the highlights of such coordination are depicted, not the routine.
- 6. Policy Issues: Pressing issues confronting the program area are noted.

The lower page has fiscal details and the types of services provided to clients.

#### INTRODUCTION AND OVERVIEW

This document details how more than 700 million dollars of state and federal social services resources are planned to be expended in Maine with comparisons to previous expenditures.

"Social services" is a generic expression covering any helping activity or set of activities that intend to alleviate the effects if not the cause of a social problem or condition.

A social problem is a problem that society collectively identifies as a condition that needs change or relief directed toward it.

For example, alcoholism is a social problem and there are a host of social services directed at changing the behavior of the alcoholic including counseling, detoxification, shelter, support groups, etc.

Child abuse is a social problem and there are child protective services directed at it that may include case essessment, case management, counseling and in some instances legal intervention. There may be other social services used to alleviate factors contributing to the condition including day care, homemaker, emergency shelters, mental health services, etc.

Lack of proper shalter and warmth has been a critical social problem for many low-income families and we have a set of services to respond including heating assistance, counseling, and weatherization.

Similarly, our citizens who are mantally retarded; the person who is mentally ill, and the child who is emotionally disturbed, also require a multiplicity of services, as well as an ongoing affort to combat the continuing stigma associated with needing and using such services.

Maine is reportedly a "poor stata" as evidenced by 140,996 (13.0%) of its people living in poverty. Children in Maine represent 35.4% of the poor. Although the number of elderly poor has declined in the past few years, 15.3% of Maine's poor are over age 65 years.

Other factors contributing to or influencing social problems besides poverty include:

- wages in employment are generally lower in Maine for all occupations and Maine ranks 48th compared to other states in median income
- nearly one in ten people aged sixteen years and over has a work disability (9.7% or 68,000 persons)
- the number of familias headed by women is also increasing and the poverty rate is greater among women at all ages.
- Maine has a large proportion of older housing and housing that is not adequately insulated

State agencies and programs have been created to respond to the specific social issues of specific target populations and to bring relief, if not change, to social problems. These agencies were created by legislative authority and their activities are influenced by the Legislature, the Congress through the federal bursaucrecy and sometimes by the courts. The Executive Branch of government is expected to manage the programs upon receiving direction by the Legislative and Judicial branches of government.

State agencies are dependent on input and support from Meine's citizens in order to retain the responsibility for dealing with social problems with adequate resources.

Each program area within each agency defines service units differently and similar services across agency lines may have variations, s.g., hours, miles, days,

Units may vary in definition by program areas. Most face to face services are measured in hours, but some treatment and residential services are measured in days. Transportation is either measured in trips, passengers or miles.

Programs can offer the definitions of their perticular services usually in their perticular state plans and the brevity of this report does not offer detailed information on the definition of services.

Expenditures of funds are usually either by specific program area or by specific type of disability. For example, while we can say we expend a certain amount of monies toward the problem of child abuse and neglect in our Child Protective services or expenditures for services to the person who is mentally retarded, it is more difficult to identify that part of expenditures in either Child Protective services or the Bureau of Mental Retardation which are used to identify, counsel, and refer for treatment those who are also alcohol abusers.

The three state agencies do not routinely collect specific income level information on the people receiving social services. Some services are besed upon need regardless of income and the need to collect detailed income level information has not been present. Although we know that most of the mental retardation population receives SSI benefits and nearly half of child protective services femilies receive AFDC benefits, they are limited to specific income levels captured by target groups, services or progress.

State agencies have staff available to elaborate on the details behind this brief overview of social pervices.

This report is developed pursuant to 5 M.R.S.A., Chapter 148-A, Sections 1641-1643, as amended. The 1983 Maine Social Services Report served as a base year document.

<sup>1</sup> Excluded some health and income supplementation in FY 1983.

Page 1

<sup>2</sup> Excludes Family Planning funds which are included in Heelth.

<sup>3</sup> During FY 1988, the Driver Education Evaluation Program and the Maine Alcohol and Orug Clearinghouse merged with OADAP, which accounts for the significant increase in all sources of funds.

<sup>\*</sup> Beginning with Projected FY 88, DMH&HR Admin. reflects the inclusion of State Forensic Services.

# 1987 Maina Social Services Report

#### SUMMARY #3B HOME ENERGY ASSISTANCE PROGRAM FINANCED AND ADMINISTERED BY THE DIVISION OF COMMUNITY SERVICES

## 1. PROBLEM STATEMENT.

Due to the rising cost of energy, many of Maine's poor find themselves unable to afford to heat their homes adequately during the winter months.

# 2. MISSION-SYSTEM-PHILOSOPHY-EXPECTED OUTCOME STATEMENT: GOALS AND OBJECTIVES

The Home Energy Assistance Program (HEAP) makes funds available to assist low-income households to meet the costs of home energy through direct payments to households or to home energy suppliers.

## 3. SERVICES PROVIDED.

Assistance with: cost of purchasing fuel; emergency heating needs; replecement/repair of unsafe or inefficient heat sources; weetherization; emergency housing.

#### 4. PRIORITIES FOR GERVICE.

- -Elderly, BD and over (55 and over for off-reservation Indiana)
- -Hand1 capped
- -Families with children under 24 months and certain handicapped persons

#### 5. INTER-DEPARTMENTAL COORDINATION.

The Division of Community Services and the Department of Human Services share information on client aligibility in order to reduce administrative costs. The two agencies also make referrals and coordinate assistance efforts.

## POLICY ISSUES.

Securing the cooperation of subsidized housing operators to upgrade subsidized housing units in need of rehabilitation and improved weatherization. Securing adequate funding. Currently able to serve lass than 65% of the potentially eligible population at approximately 24% of their estimated average annual fuel bills. Timeliness of the availability of administrative funds to hire and trein staff and establish administrative systems. Avaiability of dry wood in December for those clients who use wood. Refine and integrate computer capabilities of DCS and twalve community action agencies. Benefit level determined based on energy need matrix. Insuring timely payment of benefits.

## 1967 Maine Social Services Report

## SUHMARY #3C WEATHERIZATION PROGRAM FINANCED AND ADMINISTERED BY THE DIVISION OF COMMUNITY SERVICES

## 1. PROBLEM STATEMENT.

The cost of energy to adequately heat one's home is a major expense. Low-income households are hardest hit by home heating costs, paying a larger percentage of their income for heating costs. Reduction of fuel consumption, while maintaining adequate home heating, reduces heating costs.

Improved weatherization and more efficient fuel consumption are necessary for adequate home heating at reduced costs.

## 2. MISSION-SYSTEM-PHILOSOPHY-EXPECTED DUTCOME STATEMENT.

To provide energy conservation meterials and related repairs to the homes and heating systems of low-income persons, particularly elderly, handicapped, and families with children under 2 years of age.

#### 3. SERVICES PROVIDED.

Services include capping of attice with inculation, wall inculation, installation of storm doors and windows, caulking, wasther stripping, chimneys, oil burners as well as home repair provided through Meine's 11 Community Action Agencies. Also, services provided through the following: CHIP — Central Heating System Improvement Program which provides aligible applicants necessary improvements to the heating system, including clean, tune and evaluation, burner retrofit, repair and replacement of a heating system.

#### 4. PRIDRITIES FOR SERVICE.

- -Elderly, 80 and over
- -Indians, 55 and over-
- -Handi capped
- -Families with children under 2 years old

# 5. INTER-DEPARTMENTAL COORDINATION.

Office of Energy Resources (DER), Maine State Housing Authority (MSHA), Farmers Home Administration (FmHA), Department of Human Services (DHS), Department of Business Occupational & Professional Regulation, State Planning Office (SFO).

# POLICY ISSUES.

- A. Although approximately 4,000 homes are weatherized annually, there are long waiting lists of up to 3 years to be weatherized.
- B. A lack of funds to weatherize houses of all eligible applicants.
- C. Because of a lack of affordable, decent housing for low-income households, many houses that are weatherized are in extremely dilepidated condition.
- D. Many houses that are weatherized are without running water and sewer, and there are inadequate funde to provide either service.
- E. Equivelent services for clients from local program contractors and subconstactors.
- F. Weatherization services often can enable alderly residents to remain in their own home when high heating costs might otherwise force them into other housing situations.

# SUMMARY #3D STATE OF MAINE HEAD START, ADMINISTERED BY THE DIVISION OF COMMUNITY SERVICES

## 1. PROBLEM STATEMENT.

Children from Low-income femilies experience disadventaged social, health, and learning opportunities.

#### 2. MISSION-SYSTEM-PHILOSOPHY-EXPECTED OUTCOME STATEMENT: GOALS AND OBJECTIVES.

To provide a comprehensive Head Start program to approximately 724 Low-income children. A minimum of 510 hours per child per year of services will be provided. Services will be provided in both center based and home based models.

# 3. SERVICES PROVIDED.

Each child and/or family receives:

- [1] a comprehensive early childhood preschool educational experience;
- (2) health care which includes a broad range of medical, dental, mental health, and nutritional services.

Perents participate in program design and development and through policy advisory councils.

# 4. PRIDRITIES FOR SERVICE.

- [1] Low-income children at or up to 150% of poverty.
- [2] Ten percent [10%] of the enrollment is reserved for handicapped children.

## 5. INTER-DEPARTMENTAL COORDINATION.

- [1] Programs participate in the USDA food program through the Department of Educational and Cultural Services.
- [2] All centers are inspected by the State Fire Marshal's Office.
- (3) All centers are licensed as child care facilities by the Department of Human Services.

# 8. POLICY ISSUES.

Maintaining and promoting high quality Head Start services to children and families.

# SUMMARY #3E OTHER PROGRAMS OF THE DIVISION OF COMMUNITY SERVICES

#### 1. PROBLEM STATEMENT.

Food Distribution - low-income people have limited resources to meet basic needs.

Citizens Assistance Line - due to the complexity of the social services network and the inter-relation of the various services, many low-income citizens feil in their attempts to find services necessary to meet their meeds.

## 2. MISSION-SYSTEM-PHILOSOPHY-EXPECTED OUTCOME STATEMENT: GOALS AND OBJECTIVES.

Food Distribution - through the help of local Community Action Agencies, to provide nutrition assistance to relieve situations of emergency and distress by providing food assistance to needy persons, including low-income and unemployed persons.

Citizans Assistance Line - to provide advocacy services, information and referral, as well as ensure coordination of evailable resources to elleviate the various immediate crisis of low-income citizans.

#### 3. SERVICES PROVIDED.

Food Distribution — eligible households receive an allocation of food three times a year based on the number of family members and the amount of food provided by the U.S. Department of Agricultura. Commodities currently evailable for distribution are cheese, butter, cormeal, flour, rice, and dry milk.

Citizens Assistance Line - negotiating payment arrangements with utility companies to evert service disconnections or effect re-establishment of services; advocate on behalf of citizens in need of general assistance as well as State and Federal program benefits.

#### 4. PRIDRITIES FOR SERVICE.

Food Distribution - low-income and unemployed persons at or below 150% of poverty.

Citizens Assistance Line - citizens in crisis who contact program by telaphone (toll free) or letter.

## 5. INTER-DEPARTMENTAL COORDINATION.

Food Distribution - automatic eligibility for recipients of Food Stamps, AFDC, SSI, HEAP, Elderly Tax and Rent Fund, Elderly Low Cost Drug Program.

Advise Governor on the status of efforts to relieve situations of emergency and distress through TEFAP.

Citizens Assistance Line - coordinate use of benefits from Local (general sesistance offices, Community Action Progress, etc.), State (DHS, DHHMR, atc.), and private sources to make best use of all resources available. Coordinate with PUC, Attorney General's Office, Governor's Office, DHS, and DHHMR.

## 8. POLICY ISSUES.

Food Distribution - eligibility criteria: program costs: Stata funding, cost affective distribution model.

Citizens Assistance Line - winter disconnect procedures, peneral assistance administration, ECIP rules, landlord/temant laws.

DEPARTMENT DE MENTAL HEALTH AND MENTAL RETARDATION

#### 1987 Maine Social Services Report

## SUMMARY #4A BUREAU OF MENTAL HEALTH SERVICES FINANCED AND ADMINISTERED BY THE DEPARTMENT OF MENTAL HEALTH AND MENTAL RETARDATION

- 1. PROBLEM STATEMENT The numbers of persons in need of mental health care in Maine and the nation are unprecedented with prevalency rates for diagnosable mental disorders ranging from 16.4% to 23.1% or 183,118 to 272,014 persons in Maine. The needs of special groups such as the over 8,000 persons with severe and prolonged mental illness, the individuals with both substance abuse and mental health problems, homeless persons with mental illness, and the familias of persons with mental illness dictate the development of a comprehensive and coordinated system of mental health problems, and the familias of persons with mental illness dictate the development of a comprehensive and coordinated system of mental health problems.
- 2. MISSION-SYSTEM-FHILOSOPHY-EXPECTED OUTCOME STATEMENT: GOALS/OBJECTIVES The Bureau of Mental Health, as the State mental health authority, acts as an advocate for the prevention of mental illness and the provision of effective treatment, community support, and rehabilitation services in settings most appropriate to the needs of clients, petients, and their families. Both the Augusta and Bangor Mental Health Institutes continue to be fully accredited, emphasizing quality inpatient services for those needing that level of care and a high degree of continuity and lision with community providers. Community mental health services are provided by contract with approximately fifty community approximately. The Bureau is committed to the provision of comprehensive mental health services with emphasis on treatment and rehabilitative services for the most severely and chronically ill to improve quality of life and anable growth toward independent functioning. Services to under or inappropriately served populations continue to be major Bureau objectives. The Bureau of Mental Health works to assure that
  - Comprehensive coordinated community services are evailable throughout the state, with an emphasis on special populations and needs;
  - High quelity, specialized inpatient services era provided in Maine's two mental health institutes;
  - Rehabilitation-oriented services are available to persons with severe and prolonged mental illness;
  - Information and education activities are made evailable to the public and those involved in the mental health field in order to promote emareness and understanding and reduce the stigms of mental illness;
  - The rights of mentally ill persons are protected in both institutional and community settings:
  - Housing, vocational, crisis, and socialization needs of mentally ill persons are addressed.
- 3. SERVICES PROVIDED In FY 1987, over 2,000 persons were served in the two mental health institutes and over 27,000 were served in the community. The Augusta and Bengor Mental Health Institutes provide specialized inpatient services to involuntarily admitted mentally ill persons including rehabilitative services for persons with prolonged mental illness and gariatric, adolescent, and forensic services. Community mental health services include emergency services, community support, day treatment/rehabilitation, community residential, outpatient services, consultation, advection, and training services, community inpatient services, psychological services, support to family, consumer, and other community groups, and other activities. The Office of Community Support Systems provides training, advocacy, and technical essistance to groups and agencies involved with persons with prolonged mental illness as well as providing crisis intervention services.
- 4. PRIORITIES FOR SERVICE Within its broad mandete for a statewide comprehensive mental health service system, the Bureau emphasizes treatment and psychosocial rehabilitation services for persons with severe and prolonged mental illness and has also increasingly recognized the needs of homeless and at risk of being homeless mentally ill persons, individuals with both substance abuse and mental health problems, and alderly and hearing-impaired persons who are also mentally ill.
- 5. INTER-DEPARTMENTAL COORDINATION The Buresu works closely with the Departments of Human Services, Educational and Cultural Services, and Corrections, the legal system, and other state agencies to improve funding and treatment options for persons with mental illness. It serves on standing committees, tesk forces, and other work groups in order to ensure ongoing coordination in planning and development.
- 6. POLICY ISSUES -
  - A) Development of statewide comprehensive services to identified special populations.
  - B) Development of a psychosocial rehabilitation orientation to service provision.
  - C) Developing, meintaining and assuring quality and continuity of care in community programs, including institutions.
  - D) Assuring sufficient financial support to community mental health programs through an appropriate balance of public and private resources, maximizing federal and other resources.
  - E) Community involvement in mental health planning and coordination.

## 1997 Maina Social Services Report

# SUMMARY #48 BUREAU OF MENTAL RETARDATION SERVICES FINANCED AND ADMINISTERED BY THE DEPARTMENT OF MENTAL HEALTH AND MENTAL RETARDATION

#### 1. PROBLEM STATEMENT.

During fiscal year 1986-1987, approximataly 300 persons became new cliants of the Bureau contributing to the difficulties experienced by high caseloads and increased demends for residential and day program services of all types.

Some of the more focused needs include structured residential alternatives for children, employment and day program opportunities for young adults graduating from high school, residential and day program alternatives for persons with mental retardation who are aging, increased capacity for case management services, crisis prevention intervention services to prevent institutionalization, structured residential options for persons with medical and behavioral needs, and family support services, including respite cere.

The challenge in the next several years will be for the Bureau to remain responsive in meeting the needs of clients given limited new resources.

Another major problem area that is emerging is the recruitment and retantion of direct cere staff in homee and day programs. In some areas of the state the staffing shortage is very sydent with staff vacancies going unfilled for long periods of time.

#### 2. MISSION - EXPECTED OUTCOME STATEMENT: GOALS/OBJECTIVES.

In 1987, approximately 800 individuels received services at Pineland Center and the Aroostook Residential Center (this includes respite care), 3,900 were served through the six regional offices of the Bureau; and funds were provided to non-profit community agencies to provide services to people. The program philosophy is to promote an improved quality of life for persons with mental reterdation in order to help individuals achieve their maximum potential for independence. The Bureau expects to increase the numbers and types of services evailable; not only to persons with mental reterdation but to young adults who are handicapped and are "aging out" of the public school system and to persons diagnosed as having autism. The Bureau also expects to begin to address the increasing need for case management (the arranging of those services mecassary to meet the individual's training, education, and habilitative needs), coordination/delivery of services to children with mental reterdation and thair families; and services for elderly mentally reterded persons. In addition, the Bureau will continue its involvement in staff recruitment and retention efforts.

#### 3. SERVICES PROVIDED.

Case management (including Individual Program Planning); guardianship, conservatorship; representative payee; occupational, physical and speach therapy; psychological services; training and tachnical assistance to service providers; financial support to community agencies and providers; resource development planning and technical assistance; institutional services including out-patient services, outreach and respite care.

# 4. PRIORITIES FOR SERVICE.

Persons residing in institutions, cliente of the Bureau residing in the community, persons with mental retardation requiring Adult Protective services or needing crisis prevention services; young hendicapped adults graduating from school, and alderly persons with mental retardation.

#### 5. INTER-DEPARTMENTAL COORDINATION.

The Bureau of Mental Retardation works in close coordination with the Departments of Transportation, Human Services, Educational and Cultural Services, the Maine State Housing Authority, perent advocacy and consumer groups, and other state and local entities to assure that:

- --- services provided to Meine's citizens with mental retardation reflect the standards sat forth in Meine statutes and the Pineland Consent Decree:
- --- the public is informed and educated as to the neture of mental raterdation in order to reduce associated stigme;
- --- the rights of persons with mental retardation are uphald in accordance with the Bill of Rights for Persons with Mental Retardation;
- ---increased amounts and types of appropriate services are available to persons with mental reterdation and their familias.

<sup>4</sup> Total service figures are lower than total appropriations due to costs associated with Department Administration and state's share of Medicaid funding journaled to Department of Human Services.

SUMMARY #4C BUREAU OF CHILDREN WITH SPECIAL NEEDS, SERVICES FINANCED AND ADMINISTERED BY THE DEPARTMENT OF MENTAL HEALTH AND MENTAL RETARDATION

#### 1. PROBLEM STATEMENT.

There are an estimated 25,000 children and youth in the State of Maine who have some type of mantel heelth problem. Of these, 6,000 children and youth have been identified as severely emotionally or behaviorally disturbed. Developmentally disabled persons in Maine, age 0-20, are estimated to number 8,100, including some 5,494 identified as having mental reterdation. Of these developmentally disabled children and youth, there are estimated 800 who are dual diagnosis, seriously emotionally disturbed and developmentally disabled, including mentally reterded. In addition, during 1984 and 1985 there were additional thousands of new verified cases of physical, emotional, and sexual abuse. These add staggering new demands for treatment resources. The findings of the Maine Commission to Examine the Availability, Quality, and Delivery of Services Provided to Children With Special Needs and many perent, consumer, and concerned citizen groups point conclusively to the fact that the majority of troublad and handicapped children are not getting the services they need.

# 2. MISSION-SYSTEM-PHILOSOPHY-EXPECTED OUTCOME STATEMENT: GOALS/OBJECTIVES.

The Bureau of Children with Special Needs is mendeted to assist in planning, coordinating, and developing mental health services to children and youth, 0-20, ansuring that services are provided in the least restrictive setting appropriate to the child's needs, with emphasis on maintaining each child in its natural home or in a substitute care community placement whenever possible. This will result in more adequate, appropriate, effective, and efficient service provision, and will reduce stress on parants and children in accessing and receiving services.

#### SERVICES PROVIDED.

Six regional offices provide developmental services to children with developmental disabilities aged 0-5 and to those identified as being at risk of developmental delay, and their families. Purchase-of-services from a wide range of community-based providers offering a variety of day and residential, home and community based services to emotionally and developmentally handicapped children, ages 6-20. Operation of the Military/Neval Children's Home, Bath, a short-term child care facility; and the Infant Development Center, South Portland, serving parents and pre-school handicapped children through in-home and center-based programs. Regional resource development and service coordination for severely emotionally handicapped children and adolescents at Child and Adolescent Barvice System Project sites in Perobacot, York, and Cumberland Counties. Specialized home and school based services to children with autism in Central and Southern Maine.

#### PRIORITIES FOR SERVICE.

- (1) Children aged 0-5 who are developmentally disabled, who demonstrate a developmental delay, or who are identified as being at risk of developmental delay, and their families.
- [2] Children 6-20 who are severely emotionally or behaviorally disturbed and their femilies, and who have unmet needs and/or require multiagency interventions.

## 5. INTER-DEPARTMENTAL COORDINATION.

Explicitly stated in the enabling legislation are specific cooperative relationships and mutual planning afforts between the Bureau and other state agencies, notably the Departments of Human Services and Educational and Cultural Services. Objectives include: (1) to develop earlier identification of handicapped and "at risk" infants and provide appropriate services to them and their femiliae; (2) to improve interegency planning, coordination, development of services at both the state and regional level for emotionally, behaviorally or developmentally handicapped children.

#### FOLICY ISSUES.

The Bureau is committed to the development of an array of community based services for special needs children which support parents, families, and community caregivers. Areas of special concern are the evaluability of (a) respite care and other family support services; (b) specialized interventions for severally disturbed adolescents and presdolescents, and community—level service coordination in serving these children; (c) homebased, day treatment, case management, and therepeutic residential services which maintain children and families within their own homes and communities.

# SUMMARY #40 DEVELOPMENTAL DISABILITIES COUNCIL SERVICES FINANCED AND ADMINISTERED BY THE DEPARTMENT OF MENTAL HEALTH AND MENTAL RETARDATION

#### 1. PROBLEM STATEMENT.

There are approximately 17,000 developmentally disabled persons who live in Maine. By definition, a developmentally disabled person is severely and chronically disabled. The disability must have been incurred prior to the age of 22 (a person below the age of 22 may be "at risk" of a developmental delay or becoming developmentally disabled). Some 60% of all developmentally disabled persons have mental retardation as a primary diagnosis; another 35% are physically disabled (this group includes the severe forms of spilapsy, autism, cerebral pelsy, and many other severally hendicapping conditions); a small percentage (5%) is considered chronically mentally ill with onset prior to age 22. In addition to the 17,000 developmentally disabled persons, there are an additional 8,000+ more children ages 0-5 who are considered "at risk" of developmental delay or developmental disability because of biological and environmental reasons. These "at risk" children must be acreaned, evaluated, and provided appropriate services to allow them to develop to their fullest potential. Included in the 17,000 total population of developmentally disabled persons are some 8,000 persons of working age (20-64) who need to be afforded training and work opportunities. A significant number of these individuals are capable of supported employment or competitive employment. Some 1,500 severally handicapped special education students (ages 16-20) need transition services to facilitate the move from a school setting into a training or work setting.

#### 2. MISSION-SYSTEM-PHILOSOPHY-EXPECTED OUTCOME STATEMENT-GOALS/OBJECTIVES.

The Developmental Disabilities Council serves as an advocate for developmentally disabled persons within the educational, social, and medical services network. The Council develops a comprehensive, statewide action plan, updated anually, that addresses the needs of persons with developmental disabilities. The Council carries out surveys and studies that guide development of specialized services and better utilizations of generic services. The DD Council also provides limited start-up support for specialized, innovative demonstration programs that serve persons with developmental disabilities.

#### 3. SERVICES PROVIDED.

The council utilizes three basic approaches to services:

- A) Advocacy, planning, and informational services as part of its basic mission:
- B) Service development in the form of special studies, training, research and development of service models, stc.
- C) Demonstration projects, usually jointly funded by other state agencies to demonstrate innovative and coet-affective ways to deliver services.

# 4. PRIORITIES FOR SERVICE.

A major priority is prevention services to reduce the incidence of developmental delays and disabilities among infants and young children (women of child bearing age are a primary target for prevention services). Early intervention with handicapped children ages 0-5 is a priority. The transitional needs of severely handicapped adolescents and young adults is still another priority. The Priority Service Area of Employment Related Activities for Developmentally Disabled Adults has been added to the state plan.

#### 5. INTERDEPARTMENTAL COORDINATION.

The goal of the Developmental Disabilities Council is to improve and expand the network of social and medical services available to developmentally disabled people. State agencies, parents, consumers, professionals, and concerned citizens are represented on the Council. Currently, the Priority Services Areas are: Child Development, Alternatives in Community Living, and Employment Related Activities. Within the priority services areas, the Council focuses on prevention, preventive intervention, early intervention, respite care, mental health services to the developmentally disabled, and amployment and training services for adult developmentally disabled people, and transitional services to severally handicapped special aducation students.

# 6. POLICY ISSUES.

Persons with developmental disabilities, because of the severity and chronicity of their disability, have been an unserved or underserved population in the spectrum of persons needing social or medical services. Often developmentally disabled persons cannot speak out on their own behalf. This has resulted in a tack of understanding of their legitimate and reasonable needs. Developmentally disabled people remain vulnerable to economic and social pressures within sociaty. The Council will continue to advocate for the principles of prevention, early intervention, free and appropriate advocation, normalization, and equal apportunity within the community.

# SUMMARY #4E ALCOHOL & SUBSTANCE ABUSE SERVICES FINANCED AND ADMINISTERED BY THE DEPARTMENT OF MENTAL HEALTH AND MENTAL RETARDATION

#### 1. PROBLEM STATEMENT.

National data indicates that 5% of the overall population are alcoholics and another 10% to 15% have significant alcohol abuse problems. This translates into 50,000 to more than 250,000 Mains citizens with serious drinking problems. Studies show this level of alcohol abuse holds true for mentally ill and mentally retarded persons and may be even higher among children and adolescents who are smotionally disturbed. For example, as a result of a 1983 extensive federal etudy of alcohol abuse within Mains, it was discovered that approximately 15% of the 20,000 clients annually seen at the Community Mental Health Care system for emotional/mental health problems, also has alcohol abuse problems. Additionally, a separeta study concluded 60% of state psychiatric hospital edmissions and 10% of all mentally reterded persons also had substance abuse problems. Another 40% of severely mentally retarded persons are also products of families or included in alcohol abuse.

### 2. MISSION-SYSTEM-PHILOSOPHY-EXPECTED OUTCOME STATEMENT-GOALS/OBJECTIVES.

People who are mentally ill, mentally retarded, and children who are emotionally disturbed who also have the compounding problem of alcohol abuse present unique problems for traditional and existing treatment systems. Special training, program development and service delivery must be developed to expeditiously identify and appropriately treat the dual-diagnosis clients throughout the MH/MR and alcohol systems.

#### SERVICES PROVIDED.

This service provision involves multi-disciplined inpetient treatment services to petients of the etate mental health institutes; resource support, training and aducation of mental health and mental reterdation specialists to improve the treatment of multi-handicapped individuals; public information regarding relationships inherent in the abuse of sloohol and related birth defects; and the coordination and collaboration with public and private agencies serving the clients and patients of the Mantal Health, Mantal Retardation, Developmental Disabilities system and intensive family besed intervention and support for severely emotionally disturbed children and families.

### 4. PRIDRITIES FOR SERVICE.

The estimated 3,000 duel-diagnosed (mentally-ill people with alcohol abuse problems) within the community, the estimated 500 to 600 duel-diagnosed (mentally ill patients with alcohol abuse) within the state psychiatric hospitals, and the estimated 150 duel-diagnosed mentally retarded persons. Priority for service delivery is to develop the capacity, through coordination, training and contractual service agreements of the existing MH/MR and alcohol prevention, aducation and treatment system to identify, treat and/or refer.

#### 5. INTERDEPARTMENTAL COORDINATION.

To develop a statewide system of alcohol treatment which addresses the unique needs of clients/petients who are mentally retarded and children who are severely emotionally disturbed and to develop and then promote coordinated policies, procedures, and methods to prevent alcohol related birth defects such as Fetal Alcohol Syndrome and other forms of Mental Retardation and Developmental Disabilities.

#### 6. POLICY ISSUES.

Alcohol and substance abuse treatment resources are an essential element in establishing a network of mental health treatment options for troubled youth and their familias. These linkages need to be continued participation with the ADPC (Alcohol and Drug Abuse Planning Committee).

DEPARTMENT OF HUMAN SERVICES

### SUMMARY #5A ALCOHOL & DRUG ABUSE SERVICES FINANCED AND ADMINISTERED BY THE DEPARTMENT OF HUMAN SERVICES

#### 1. PROBLEM STATEMENT.

An estimated 88,164 individuals (8% of edult population and 12% of adolescent population) in Maine abuse alcohol and drugs; an additional 21,000 adolescents are at high risk of abusing substances due to early experimentation end/or to living in a chemically-dependent family. It is estimated that approximately 90,000 Maine citizens are children of chemically dependent parents; this places these individuals at greater risk to abuse chemicals, be physically/sexually abused, experience poor physical or mental health, become socially or behaviorally impaired, and marry a chemically dependent person.

Costs associated with lost production, health care, motor vehicle accidents, crime, fire, and social responses due to alcohol abuse are estimated at \$577 million annually in Maine.

# 2. MISSION-SYSTEM-PHILOSOPHY-EXPECTED OUTCOME STATEMENT: GOALS AND OBJECTIVES.

To develop a comprehensive, coordinated, and integrated system of elcohol and drug abuse prevention end treatment services which are evailable and accessible to Maine's citizens irrespective of ability to pay.

Major goals are to enable all Department units to intervane appropriately in alcohol end drug abuse problems in a coordinated fashion, to establish the appropriate administrative supports (licensing, data systems, program monitoring, training), and to purchase services to accomplish the Department's mission.

### 3. SERVICES PROVIDED.

- A. Office of Alcoholism and Drug Abuse Preventions policy development, stratagic planning, program Licensing and monitoring, training, management information, services coordination, model program development, and Driver Education & Evaluation Program (DEEP).
- B. Bureau of Social Services, Purchased Services: administers contracts for regional/statewide volunteer citizen group coordination, prevention services (outreach, community development, skills training, information), and treatment services (outpetient, rehabilitation, shelter/detoxification, extended care, helfway houses).
- C. Maine Alcohol and Drug Abuse Clearinghouse; produces, collects, and disseminates information to the general public and professional community.

# 4. PRIDRITIES FOR SERVICE.

- A. Purchased services are available to all substance abusers and their families irrespective of ability to pay.
- B. Percentage of all treatment services must be made available to DHS protective referrals.
- C. Prevention services are focused on adolescents and children of elcoholics.

# 5. INTER-DEPARTMENTAL COORDINATION.

Alcohol and Drug Abuse Planning Committee coordinates alcohol and drug abuse efforts of the Departments of Educational and Cultural Services, Corrections, Human Services, and Mental Health and Mental Retardation.

### 6. POLICY ISSUES.

- A. Determine most effective mechanism to integrate substance abuse services into existing health care delivery system.
- B. Restructure DEEP to comply with legislative changes and evaluate results.
- C. Review current licensing/certification regulations for possible revision.
- D. Determine most effective mechanism for delivering residential rehabilitation.

Because of the characteristics of deta evailable, funds listed by services do not duplicate budget totals.

<sup>1</sup> During FY 1988, the Oriver Education Evaluation Program and the Maina Alcohol and Orug Claeringhouse marged with OADAP which accounts for the significant increase in all sources of funds. In previous years, DEEP was considered an aducational service rather than a social service for purposes of this report.

<sup>2</sup> With the merging in FY 1988 OADAP staff positions increased by 19.

# SUMMARY #58 ADULT SERVICES FINANCEO AND ADMINISTERED BY THE DEPARTMENT OF HUMAN SERVICES

# 1. PROBLEM STATEMENT.

Adults who are incapacitated, ellegedly incapacitated or dependent who are unable to protect themselves require protective services, including legal arrangements when indicated, to ensure their sefety.

### 2. MISSION-SYSTEM-PHILOSOPHY-EXPECTED OUTCOME STATEMENT.

To determine incapacitation, dependency and danger,

To make client mafe (reduce/eliminate or remove from denosr).

To rehabilitate,

To effect legal transfer to private arrangements,

To maintain in public quardianahip and/or public conservatorship.

### 3. SERVICES PROVIDED.

Case study/assessment, advocacy, court social services, preparation and placement, case supervision/menegement, and counseling.

### 4. PRIORITIES FOR SERVICE.

- 1. Adults under court-appointed DHS guardianship/conservatorship.
- 2. Incapacitated or dependent adults at risk of or in danger (from abuse, neglect, or exploitation).
- 3. Adults reported to be at risk of or in danger of abusa/neglect/exploitation.
- 4. Individuals referred or nomineted for court study for public guerdienship/conservatorship.

# 5. INTER-DEPARTMENTAL COORDINATION

The Bursau of Mentel Retardation in the Department of Mantal Health and Mental Reterdation offers these services to mentally retarded adult citizens of Maine, while the Department of Human Services provides to non-retarded populations. The two Departments coordinate their afforts.

### 6. POLICY ISSUES.

How can an adequate range of services and a sufficient amount of services be provided to the expending population of young adults in need of protection?

How can a sufficient amount of services be provided to the rapidly growing number of guardismship clients?

What should the State's role and responsibilities be in the process for involuntery commitment of elcoholice?

How can the State ensure the evailability of treatment services for involuntarily committed alcoholice?

What basic research should the State conduct on the demographics of adults in need of protection and on the prevention and treetment services they require?

How can the State coordinate its activities with anticipated federal initiatives for adult eervices?

How can the State develop an interdepartmental approach to the services required by adults in need of protection?

### SUMMARY #5C CHILDREN'S SERVICES FINANCED AND ADMINISTERED BY THE DEPARTMENT OF HUMAN SERVICES

#### 1. PROBLEM STATEMENT.

The State of Maine recognizes: [1] that the right to family integrity is limited by the right of children to be protected from abuse and neglect; and [2] that uncertainty and instability are possible in extended foster home or institutional living. The Bureau of Social Services is charged with the responsibility of impacting these problems for Maine's most vulnerable citizens.

#### 2. MISSION-SYSTEM-PHILOSOPHY-EXPECTED DUTCOME STATEMENT.

To protect and assist abused and neglected children, children in circumstances which present a substantial risk of abuse and neglect, and their familias. The Department must petition the court for removal of the children from the custody of their perents when failure to do so would jeopardize their health and welfare. The Department must provide care and services to children placed in its care or custody and work toward a permenent plan for the child by rehabilitation and reunification with family, adoption, or other appropriate long term plan.

#### SERVICES PROVIDED.

Care and support, case study, case supervision, counseling, preparation and placement, court social service, advocacy, case management, and a renge of purchased social services.

### 4. PRIDRITIES FOR SERVICE.

Children in the care and custody of the Department, children and families receiving child protective services, potential, former, suspected neglected and abused children and their families, children and families at risk, children and families who may at some time be in Jeopardy or at risk,

### 5. INTER-DEPARTMENTAL COORDINATION.

The Interdepertmental Committee, which is comprised of the Commissioners of the Depertmente of Educational and Cultural Services, Human Services, and Hentel Health and Mental Ratardetion, has established the Children's Policy Committee to assume the responsibility for Children's Systems Development, Program Management and Resource Development. The committee oversees the operation of the following Inter-Departmental Committees:

- Coordinated Response to Child Sexual Abuse Committee
- Hospital Based Services
- Information Systems Streemlining Committee
- Inter-Departmental Coordination Committee on Preschool Handicapped Children
- Health Education Committee

Inter-departmental working agreements with the Maina Youth Center, Bureau of Mantal Retardation, Advocates for the Developmentally Disabled, substance abuse programs from which DHS purchases services, Support Enforcement and Location Unit, and others.

#### . POLICY ISSUES.

Development of appropriate and adequate intervention and treatment services for sexually abused victims, their families, and perpetrators of sexual abuse, including juvenile offenders who are also victims.

What is a sufficient level of response to referrale of suspected child abuse and neglect?

How can the State assure adequate out-of-home placement and treatment services for children?

Given the existing shortage of resources, how should client needs be prioritized to determine who receives services or when services should end in order to serve a larger number of cliente?

Should the state promote development of edditional child placement resources within the State of Maine, even if the cost is greater than it would be to place in an out-of-state facility for education and treatment services?

### 1987 Maine Social Services Report

# SUMMARY #50 FAMILIES AT HIGH RISK PROGRAM FINANCED AND ADMINISTERED BY THE DEPARTMENT OF HUMAN SERVICES

#### 1. PROBLEM STATEMENT.

- A. Family Services Young heads of household on AFOC have been found to be high risk in need of prevention services.
- B. Welfare Employment, Education and Training Program (WEET) Ninety percent of AFDC heads of households are women. Program services are needed which will specifically address and atrive to improve the economic status of women in order to reduce what is referred to as the "Feminization of Poverty."

Job Exploration and Training [JET] Program replaces the Job Search Project [JSP] which expired on March 30, 1987 - Food Stamp recipients in Maine are in need of aducation, training, support services and job search assistance in order to improve their employability and enable them to become economically self-sufficient.

### 2. MISSION-SYSTEM-PHILOSOPHY-EXPECTED OUTCOME STATEMENT,

- A. Offer services to young high risk femilies. Reduce the incidence of child abuse and neglect and promote self-eufficient femilies.
- B. WEET & JET: Services provided through five regional office, and through coordination with other agencies, to enable AFDC and Food Stemp recipients to find and keep jobs leading to maximum celf-sufficiency, minimum welfers dependence, and a better quality of life.

# 3. SERVICES PROVIDED.

- A. Assessment and linkages to educational, employment and social services.
- B. WEET & JET: Employment, training and supportive services, including: assessment, counseling, employability development, service referrals, job search and job development, remedial and vocational education, child care and transportation assistance.

### 4. PRIORITIES FOR SERVICE.

- A. Pregnant and paranting teams in Maina.
- B. WEET & JET: AFDC recipients who volunteer for the program or are mandated by the Social Sacurity Act to register. Special emphasis is placed on "hard to employ" recipients and teen parents. JET: Food Stemp recipients who volunteer for the program or are mandated by the Food Stemp Act to register and who are in greatest need of service.

# 5. INTER-DEPARTMENTAL COORDINATION.

- A. Family Service Integration Project with the Departments of Mental Health and Mental Reterdation, Educational and Cultural Services, the Maine State Housing Authority, and others in regard to electronic resource directory and other integration issues.
- B. WEET & JET have working agreements and/or coordinate with the Department of Labor (including JTPA), Department of Educational and Cultural Sarvices, Department of Human Sarvices, and other state agencies and service providers.

### 6. POLICY ISSUES.

- A. How can support sarvices, aspecially housing and transportation, be provided for the growing number of clients served by the Family Services Program? Should case management be expanded to other target groups? Can we replace federal demonstration dollars?

  How can the State increase its capacity to provide prevention services simed at reducing problems of child and adult abuse and neglect?

  Can federal money be secured for this program?
- B. Additional state funding support is needed to improve and expand services to AFDC recipients and to match federal funds provided for recipient services.
- C. How can these programs best adapt to promote ASPIRE Maine's welfare reform proposel?

### SUMMARY #5E PURCHASED SERVICES FINANCED AND ADMINISTERED BY THE DEPARTMENT OF HUMAN SERVICES

#### 1. PROBLEM STATEMENT.

- A. There are many individuals in our society who, due to social, economic or physical and/or mental handicaps are not able to access those social and rehabilitative services that would enable them to become fully independent members of society.
- B. Refugees in Maine who are in need of assistance in order to aid their successful settlement.
- 2. MISSION-SYSTEM-PHILOSOPHY-EXPECTED OUTCOME STATEMENT.
  - A. The Department of Human Services believes that a public-private partnership is assential to the successful delivery of services to clients in mead.

    Purchased social services are, therefore, an integral part of the Department's mission. It is expected that these services complement and supplement those delivered directly by State agencies and help in alleviating problems above.
    - Achieving or maintaining economic self-support to prevent, reduca, or eliminate dependency;
    - Achieving or maintaining salf-sufficiency, including raduction or prevention of dependency;
    - Preventing or remedying neglect, abuse, or exploitation of children and adults unable to protect their own interests, or preserving, rehabilitating or reuniting femilies;
    - Preventing or reducing inappropriate institutional care by providing for community-based care, home-based care, or other forms of lass intensive care; and
    - Securing referral or admission for institutional care when other forms of care are not appropriate, or providing services to individuals in institutions.
  - B. Through the prudent provision of social services, cash and medical assistance as needed to promote the ability of refugeas to reach economic self-sufficiency is enhanced by [1] removal of barriers to refugee employment; [2] providing English Language training so that all employable refugees have survival level language skills; [3] providing assistance to refugees in search of employment; [4] reducing the refugees' reliance on cash and medical assistance by enhancing their employability.

# 3. SERVICES PROVIDED.

- A. Day Care, Homemaker, Femily Planning, Substance Abuse Treatment, Transportation, Nutrition, Counceling, Support Services (e.g., Emergency Shelter, Group Home, Residential Treatment, etc.) Services to the Deef and Blind, Services to victims of domestic violence, special needs, Rape Crisis services, Victim-Witness advocates, etc.
- B. English language training, employment services [Job counseling, Job development, vocational training and Job placement), foster care to unaccompanied refuges minors, cash assistance, medical assistance, support services (interpreters, driver aducation, day care).
- 4. PRIORITIES FOR SERVICE.
  - A. Priorities for service are based on the degree of vulnerability of client groups. Client groups with specific identifiable problems such as abused and neglected children and adults, mentally retended individuals and elderly at risk of institutionalization are considered high priority. [See Client Oriented System documents].
  - B. Newly arrived refugees and cash assistance recipients.
- 5. INTER-DEPARTMENTAL COORDINATION.

Bureau of Hental Health contract compatibility. Integrated service delivery planning.

### 6. POLICY ISSUES.

How can the Bureau assure an adequate, responsive pattern of contract funds distribution?

How can the Bursau respond to the ever increasing need for day care for low income working parents?

How can the Bureau respond most effectively to allegations of abuse in out-of-home settings?

# SUMMARY #5F ELDERLY SERVICES FINANCED AND ADMINISTERED BY THE DEPARTMENT OF HUMAN SERVICES

### 1. PROBLEM STATEMENT.

1980 Census indicates 191,729 people are over age 60 in Maine. Individuals 75+ total 58,830 and are the fastest growing segment of our population. Population projections estimate that the population 75+ will increase 13.4% from 1984 to 1991. Even more drematic is the fact that the population 85+ will increase 20.2% in these next 7 years. Adequate income and health are primary concerns of the alderly in their efforts to maintain independent lifestyles in the least restrictive setting. Problems of elderly persons include: non-evailability or cost of health and social support services, difficulty accessing services, age discrimination, unemployment, suitable housing and living environments, and meeting nutritional and social needs.

### 2. MISSION-SYSTEM-PHILOSOPHY-EXPECTED OUTCOME STATEMENT.

The Bureau of Maine's Elderly works with older persons to maximize independence; to reduce economic end social barriers, and to provide a continuum of care for vulnerable elderly at risk of institutionalization. This is accomplished by making evailable programs which include a full range of health, education and social services to older persons in need, with priority for those in greatest economic and social need. The Bureau works with the advice of the Maine Committee on Aging to develop a coordinated service delivery system through 5 Area Agencies on Aging, State and local government, and private/public agencies.

### 3. SERVICES PROVIDED.

Services include home based care, outreach, transportation, homemaker, home health, personal care assistance, legal services, chore, care menegement, adult day care, Job development, congregate meals, home delivered meals, volunteer opportunities, advocacy, partitime employment in public service agencies, respits, housing, congregate housing, housekeeping, friendly visiting, talephone reassurance, and, through a contract with the Maine Committee on Aging, complaint investigation on behelf of nursing home, boarding home and home cere clients,

# 4. PRIORITIES FOR SERVICE.

- a) age 60 or over
- b) greatest social need
- c) greatest sconomic need

# 5. INTER-DEPARTMENTAL COORDINATION.

Joint planning group with Bureau of Mantal Retardation. Mental Health Task Force with Department of Mental Health and Mental Retardation.

Promoting Older Workers with Department of Labor.

# 6. FOLICY ISSUES.

Renew Medicaid Waivar for Elderly.

Revise Bureau of Maine's Elderly funding and grants management procedures.

Plan for comprehensive needs assessment.

Improve coordination with and optimize resources available for Long Term Care.

### SUMMARY #5G REHABILITATION SERVICES FINANCED AND ADMINISTERED BY THE DEPARTMENT OF HUMAN SERVICES

- 1. FROBLEM STATEMENT Approximately 72,284 Maine people between 18 and 84 have a handicapping condition interfaring with employment. Approximately 53,108 are severely handicapped. Physical or mental disabilities which will usually qualify an individual as being severly handicapped include disabilities resulting from emputation, arthritis, blindness, cancer, cerebral palsy, cystic fibrosis, desfiness, heart disease, hemoplagia, respiratory dysfunction, mental raterdation, mental illness, multiple aclerosis, muscular dystrophy, stroke, spinel cord injury, epilepsy or any other disability or combination of disabilities which will cause similar vocational limitations to the person.
- 2. MISSION-SYSTEM-PHILOSOPHY-EXPECTED OUTCOME STATEMENT The Bureau of Rehabilitation provides a comprehensive program of rehabilitation services to handicapped individuals. Thirteen types of services are rendered through five regional offices and five area offices by 62 counseling and ten aupervisory staff. The philosophy is to provide quality service to individuals with a vocational handicap where there is a reasonable expectation that the individual will benefit in terms of employability from such services. The expected outcome of service is to acquire or maintain gainful employment. The Bureau works 1) to continue placing emphasis on vocationally oriented services which will render disabled clients employable; 2) to emphasize use of all available similar benefits to which applicants/clients are entitled; 3) to emphasize placement of clients in serliest possible suitable employment to reduce coatly training and maintenance services; 4) to seek commitment of employer in both the public and private sector for training and placement programs for the handicapped; 5) to develop disease/injury prevention and aducation programs. The Bureau is expanding its perspective beyond the traditional vocational rehabilitation concerns with employability. The Bureau of Rehabilitation is defining the broad needs of and developing administrative and legislative strategies for head injured and hearing impaired people. We are activally involved in developing the workers' compensation field, offering to bring effectiveness and efficiency to that rehabilitation process. The Bureau is also embarking on a strategy to expend competitive employment opportunities in the private sector for all hendicapped citizens and in expending independent living and personal care attendent services to a broader spectrum of disabled people. Finally, the Bureau is confronting issues eround sustdized sheltered and supported employment.
- 3. SERVICES PROVIDED The following services are provided through individual case menegement, including written rehabilitation plans. Evaluation of vocational potential; counseling and guidance, including personal adjustment counseling; physical and mental restoration; vocational and other training; maintenance, transportation; services to members of a handicapped individual's family; interpreter services for the deaf; remder and mobility services for the blind; telecommunications; placement in suitable employment, post employment service; and, occupational licenses, tools, equipment and stock for self-employed. The Bureau also offers an array of services fostering independent living for people with disabilities who may or may not have vocational potential. Supported employment opportunities are expanded for the most severely disabled.
- 4. PRIORITIES FOR SERVICE Priorities for the coming year include emphasis upon the most severely disabled people. The Bureau is expanding independent living services to people with disabilities severe enough to prevent them from having a vocational objective. Services to school aged youth who are in transition from school to employment will be emphasized. Supported employment opportunities for the most severely disabled will be expended.
- 5. INTER-DEPARTMENTAL COORDINATION The Bureau of Rehabilitation engages in extensive coordination with other government agencies. The most extensive coordination comes through current concerns over services to handicapped youth making a transition from school to smployment. The legislatively mendated Select Committee on Transitional Services for School Aged Youth is a catalyst for bringing bureaus within the Departments of Human Services, Mental Health and Mental Retardation, and Educational and Cultural Services together for constructive dialogue. Similar state agencies are also working constructively on service issues relating to mental health and mental retardation.
- 6. POLICY ISSUES In the context of handicapped youth making a transition from school to employment and of expending independent living services, defining the appropriate relationships among several governmental agencies constitutes a class of policy issues with which we are concerned. Expending services to head injured people and expending supported employment opportunities for the most severely disabled elso create needs to formulate new policy relating to the most severe disabilities.

### SUMMARY #5H SPECIAL PHYSICAL CHARACTERISTICS SERVICES FINANCED AND ADMINISTERED BY THE DEPARTMENT OF HUMAN SERVICES

#### 1. PROBLEM STATEMENT.

We estimate that Meine has 7,000 deef and severely hearing impaired people. Approximately 2,500 citizens are blind and 5,000 have severe visual handicaps in this state. Medical Eye Care estimates that annually approximately 5000 low income people (above Medicald but below 80% SMI) in Maine need specialty medical care and/or glasses.

### 2. MISSION-SYSTEM-PHILOSOPHY-EXPECTED OUTCOME STATEMENT.

The Bureau of Rehabilitation provides a comprehensive program of services through five regional offices and five area offices. Services to people with special characteristics are largely supportive and developmental. It is important to provide services to preschool and school age children and their perents so that the blind, visually impaired, deef, and hearing impaired can develop as normally as possible. Services to young children allow them to enter school and matriculate with an appropriate level of maturation and skill. Medical Eye Care prevents blindness by providing ophthalmological treatment services and improving vision in those people with a corrected visual acuity of 20/200 or worse in the better sys.

Services to people with special physical characteristics are designed to allow blind, visually impaired, deaf, and hearing impaired children to receive appropriate education, keep them functioning at grade level, allow them to compate socially, and maintain maximum independence relative to mobility, activities of daily living, and communication. Hedical Eye Cara strives to detect early and provide treatment for low income people with 20/200 visual acuity after correction in the better eye.

#### 3. SERVICES PROVIDED.

Such services as telecommunications, lending and cost sharing TDD's, information and referral, hearing ear dog, identification cards, consultation with schools and libraries, developmental services for preschool and school age youth and hearing aids for indigent people are provided to the deef and hearing impaired. The Division of Eya Cara provides comprehensive medical, psychological, social, and educational evaluations, counseling and guidance to parents of blind children, orientation and mobility training, braille instruction, low vision aides, consultation and direct teaching services to children and school systems, and advocacy for blind children. Medical Eya Cara provides specialty medical care for selected eya disorders and glasses for people who are legally blind after correction.

#### 4. PRIORITIES FOR SERVICE.

Priority services to deaf and hearing impaired are communication devices and techniques, referral and advocacy, services to sensorineural hearing impaired children, and hearing devices. Priority services for the blind and visually impaired are early intervention, referral and advocacy, and adaptive skill training.

# 5. INTER-DEPARTMENTAL COORDINATION.

Bureau of Rehabilitation staff perticipate on the Cooperative Agreement Team Linking Special Education (DECS), Vocational Education (DECS), and VR (DHS), and in the pre-school coordination system supervised by ICCPHC, Division of Deafness and Governor Baxter School for the Deef (GBSD) and Division of Maternal and Child Health.

# 8. POLICY ISSUES.

1) collaboration and cooperation among agencies serving the handicapped; 2) eye glasses for medically indigent; 3) insufficient numbers of trained mobility instructors, rehabilitation teachere, and itinerant academic/developmental teachers; 4) preschool services for deaf children; (5) aducation and counseling for perents of deaf children; 6) identification of deaf children; 7) hearing side for low income elderly and others; 8) community center concept for deaf. Aging out is an issue of all of us involved in the Social Services Plan face. Effective strategies, based upon a fundamental understanding of the population's needs, must be developed cooperatively.

### SUMMARY #51 CHILD AND FAMILY HEALTH SERVICES FINANCED AND ADMINISTERED BY THE DEPARTMENT OF HUMAN SERVICES

#### PROBLEM STATEMENT.

- A. Handicapped Children's Program: approximately 12% of Mains's newborn population are born with physically handicapping conditions that require specialty medical care.
- B. Genetic Disease Program: approximately 28,000 pregnent women, children and newborns receive genetic screening and services.
- C. Public Health Nursing Program: geographic isolation and/or Low income or knowledge deficit provide a barrier to health maintenance and preventive health services for a large number of Mains's mothers, infants and children.
- D. Children's Progrem Maternal and Child Health: Geographic isolation and/or low income provide a barrier to preventive health services for large numbers of Maine's mothers, infants, and children.

### 2. MISSION-SYSTEM-PHILOSOPHY-EXPECTED OUTCOME STATEMENT.

- A. To assure the availability of specialty medical care for children with selected handicapping conditions.
- B. To assure the availability of genetic services and minimize the incidence of genetic abnormalities..
- C. To assure the evailability of preventive health, epidemiology, referral, treatment and rehabilitation services to mothers, infants, and children.
- D. To assure the svailability of preventive health services to geographically isolated and/or low income mothers, infants and children,
- E. To assure every child an opportunity for normal growth & development; to detect early and provide specialty treatment services to children with selected handicapping conditions.

#### 3. SERVICES PROVIDED.

- A. Medical case management/coordination: medical diagnostic and specialty treatment services.
- B. Newborn, AFP, fragils X screening, counseling, pedigree analysis, laboratory testing, diagnosing, referral services.
- C. Counseling, health assessment, immunizations, apidemiology, referral, treatment and rehabilitation services.
- D. Well child clinics, public health nursing services, parenting support groups, training activities.

#### 4. PRIORITIES FOR SERVICE.

The Bureau of Health has determined eervices to the maternal, infant, and child population to be one of its highest priorities for 1985-1990.

### 5. INTER-DEPARTMENTAL CODRDINATION.

Interdepartmental Coordinating Committee for Preschool Handicapped Children (ICCPHC), Zero to Three Committee,

### 6. POLICY ISSUES.

Assuring the availability and provision of comprehensive preventive health care to Maine's handicapped pre-school population.

### SUMMARY 45K MEDICAID SERVICES FINANCED AND ADMINISTERED BY THE DEPARTMENT OF HUMAN SERVICES

#### 1. PROBLEM STATEMENT

- 1. Health Accounts These accounts ere shared by the Bureau of Health.
- 2. Medicaid Many services covered under Medicaid are social service related and are provided in conjunction with medical care, and are planned to meet the medical needs of all Medicaid recipients.
- 3. ICF More than 8,000 elderly, mentally retarded, blind and disabled Mediceid recipients will reside in all types of ICF facilities for all or part of any year in the 1980's. CI serves non-Medicaid eligible individuals whose medical expenses exceed specific high costs within a one-year period.

  Oruge for the Elderly State financed program to provide life sustaining drugs to certain elderly individuals.
- 4. Boarding Home Care Approximately 3000 (2100 SSI eligible) individuels are dependent or in need of supervision. PHP An everage of 50,000 children and young adults are eligible for PHP services; e.g. to screen, diagnose, and treat.

### 2. MISSION-SYSTEM-PHILOSOPHY-EXPECTED OUTCOME STATEMENT

- 1. Health Accounts See A.1.
- 2. Medicaid Provides physician, dental, and other medically-necessary health care services to Meine's medically and financially indigent adults and children.
- 3. ICF For eligible recipients who require care in an ICF facility. CI To provide financial assistance to non-Madicaid aligible individuals for medical expenses. Drugs for Elderly To provide life sustaining drugs to the disadventage elderly ineligible for Madicaid.
- 4. Boarding Home Care Provide personal care or rehabilitative services to dependant edults. PHP Inform aligible families about benefits of preventive health at the time of eligibility and according to a periodic schedule.

### 3. SERVICES PROVIDED

- 1. Health Accounts See A.1.
- 2. Medicaid dental, phermacy services, family planning, physician, hospital, transportation (emergency & non emergency), chiropractic, physical therapy, home health, speech and hearing, podiatry, medical supplies and equipment, substance abuse treatment, psychological, vision cere, skilled nursing, occupational therapy.
- 3. ICF Nursing cars for cliente classified as requiring ICF-level cars. CI limited to ambulance, some dental, skilled nursing facility services, leb services, medical supplies and equipment, pharmacy, physical therapy, and physician services. Drugs for the Elderly Life sustaining drugs for diabetes, hypertension, cardiac problems, and artritis. Reimbursement for insulin syringes was also added.
- 4. Boarding Home Care Rooming, Lodging, provision for psycho-social care as well as linking to medical care services. PHP Outreach, case management.

### 4. PRIORITIES FOR SERVICE

- 1. Health Accounts See A.1.
- 2. Medicaid Enabling the poor and medically indigent to gain access to needed health care services.
- 3. ICF Over 6000 alderly, 700 mentally retarded, and 2000 blind or disabled institutionalized individuals participating in the Medicaid Program et any one time. CI Parsons found ineligible for services under the Medicaid Program who need help with medical bills. Drugs for the Elderly Assist this high use group in the purchase of specific medications.
- 4. Boarding Home Care Adults needing supervision or protection: PHP Children with no routine, or inadequate, health care,

#### 5. INTER-DEPARTMENTAL COORDINATION

Continued emphasis on coordination when multiple service agencies are involved; continued involvement in the Child Health Policy Group.

#### 6. POLICY ISSUES

Increases in the Medicaid fee schedule to raise reimbursement rates as a meens of encouraging more providers to perticipate is an ongoing issue. The Department of Human Services has submitted to the federal government and has been granted requests to waive existing statutory requirements allowing the state to finance, through the Medicaid program, nor-institutional long term care services for the elderly, the mentally retarded, and physically disabled. Need for renewed efforts to coordinate services to children in custody of the State. Addition of new nursing home beds to the system to accompose the needs of the State's population,

## SUMMARY #5L. INCOME SUPPLEMENTAL PROGRAMS OF THE DEPARTMENT OF HUMAN SERVICES

### 1. PROBLEM STATEMENT.

Categorically sligible programs administered by the Department include Aid to Families with Dependent Children (AFDC); Food Stamps; General and Emergency Assistance; Supplemental Security Income; and other related programs including child support enforcement and fraud investigation. These programs are directed to people in need as defined by federal and state law.

### 2. MISSION-GOAL 9- OB JECT IVES.

To dispense benefits in a timely and eccurate fashion with respect to human dignity.

# 3. SERVICES PROVIDED.

Eligibility determination and review. Linkages to community resources. Child support enforcement. Fraud investigation.

### 4. INTER-DEPARTMENTAL COORDINATION,

Sharing of client identification and outreach with Division of Community Services. SSI and Bureau of Mental Retardation. Participation in the Family Services Demonstration Project with other state agencies. Develop integrated telephone subsidy program with Public Utilities Commission, Divisision of Community Services, and telephone compenies.

#### 5. POLICY ISSUES.

Upgrade information system, reduce peperwork, streemline the aligibility determination. Implement restrictive federal regulations.
Review general assistance.
Plan for welfers reforms.

The Public Utilities Commission has ordered New England Telephone Company and CONTEL (Continental Telephone of Maine) to offer telephone installation subsidies to certain Low income groups of Maine. The Depressnt of Human Sarvices verifies the eligibility of AFDC, Food Stemps, SSI and Medicaid recipients and the Division of Community Services verifies the eligibility of HEAP (fuel assistance) for applicants applying for such subsidies. 10,000 Maine households benefitted in calendar year 1985 from such subsidies and calendar year 1986 is expected to see more than 8,000 low-income households benefit. A monthly subsidy is planned for 1988.

# SUMMARY #5M. CENTRAL OFFICE ADMINISTRATION OF THE DEPARTMENT OF HUMAN SERVICES

# 1. PROBLEM STATEMENT.

Programs within the Department that deliver or support the delivery of modial services need administrative support including but not necessarily limited to rent, telephone, mail, capital equipment, personnel administration, data processing, staff training, fiscal management, clarical support and program direction costs.

### 2. MISSION-SYSTEM-PHILOSOPHY-EXPECTED OUTCOME STATEMENT: GOALS-OBJECTIVES.

To facilitate optimal utilization of existing resources and to easist programs in being assessible to consumars of services. Accurate payments and records.

Timely support.

# 3. SERVICES PROVIDED.

Included in problem statement, although not all inconclusive.

Some services are provided through State Central Services in the Department of Finance and Administration.

### 4. PRIDRITIES FOR SERVICE.

Accurate and timely payments/records.

Adequate accessibility to those the Department serves.

Responsive administrative support to programs.

### 5. INTER-DEPARTMENTAL COORDINATION.

Department of Finance and Administration, controller, streamline information.

### · 6. POLICY ISSUES.

- A. Continuous need to upgrade data processing equipment and computer systems.
- B. Great demand on physical work space, particularly in the Augusta area.

DEPARTMENT OF TRANSPORTATION

### SUMMARY SA TRANSPORTATION OF ELDERLY AND HANDICAPPED. FINANCED AND ADMINISTERED BY THE MAINE DEPARTMENT OF TRANSPORTATION

#### 1. PROBLEM STATEMENT.

Public transportation to include physically and mentally handicapped adults and children, as well as Maine's poor and elderly population, who do not or cannot drive or don't own a motor vehicle are dependent on friends or neighbors, where available, for transportation to doctor's appointments, needs, shopping or cordial visits.

#### 2. MISSION-SYSTEM-PHILOSOPHY-EXPECTED DUTCOME STATEMENT.

The State of Maine must provide a subsidy to assist a mess transportation system to enhance the access of people in urbanized and non-urbanized areas to health care, shapping, maintenance, development, improvement, and use of public transportation systems in rural and small urban areas. The Department of Transportation will encourage and facilitate the most efficient use of Federal and State funds used to provide passenger transportation in the urbanized and non-urbanized areas through the coordination of programs and services; and to provide for the participation of private transportation providers in urbanized and non-urbanized transportation services to the maximum extent feasible.

#### 3. SERVICES PROVIDED.

This service provides subsidies to private, non-profit transportation compenies who maintain fixed routes as well as pera-transit services to transport the above mentioned groups of people within the State.

# 4. PRIORITIES FOR SERVICE.

Fixed route transportation service is evailable to the general public at large. Pare-transit service is available to the elderly and handicapped citizens of Maine by calling the local provider agency and reserving a time and place on a lift-equipped bus or van. Lisison appointed by the Departments of Human Services and Mental Health and Mental Retardation shall act to coordinate purchase of service contracts and to serve in an advisory capacity to the Department on matters concerning public transportation. In the event that transportation funds for human services' programs are insufficient for full implementation of the human services' portion of an approved annual regional operations plan, priorities established by the Departments of Human Services and Mental Health and Mental Retardation shall determine the priority clients that shall be initially served by human services' funds.

### 5. INTER-DEPARTMENTAL COORDINATION.

Transportation costs of Maine's elderly and handicapped are shared by MDDT, MDHS, and MDMHMR. Approval of each regional operations plan shall be by Department of Transportation with the consent of the Departments of Human Services and Mental Heelth and Mental Retardation. Upon approval, all agencies, groupe, or organizations named to perticipate in the provision of service in accordance with a regional operations plan shall become eligible to receive funds administered by the Department of Transportation.

#### 6. POLICY ISSUES.

Development and maintenance of a permanent and effective public transportation system, with perticular regard to low income, elderly, and handicapped residents.

DEPARTMENT OF LABOR

Page 58

#### 1997 Maine Social Services Report

#### SUMMARY 6B: JOBS TRAINING PARTNERSHIP ACT: ADMINISTERED BY THE DEPARTMENT OF LABOR

### 1. PROBLEM STATEMENT.

There are many persons in Mains who are unable to secure employment due to various social and/or sconomic barriers. The Job Training Partnership Program establishes programs to prepare youth and unskilled adults for entry into the labor force to afford Job training to those economically disadvantaged individuals and others facing serious barriers to employment who are in need of special training to obtain productive employment.

#### 2. PURPOSES/GOALS/EXPECTED OUTCOMES.

Three types of training programs under P.L. 97-300, each with slightly different purposes, are administered by the Department of Labor:

- 1. lob training for aconomically disadvantaged youth and adults for antry or re-antry into the labor force:
- 2, short-term summer work experience jobs for aconomically disadvantaged youth; and
- 3. lob retraining for dislocated workers.

### 3. SERVICES PROVIDED.

Based upon broad goals contained in the Maine Human Resource Development Council (MHRDC) Plan, the Private Industry Councils (PICs) that govern the two Service Delivery Areas (SDA) astablish annual plans for services to eligible participants. Actual delivery of services to clients is provided by local/regional agencies designated by the PICs. Services to clients include: assessment, pre-employment competency training, remedial and basic aducation, classroom skill training, on—the—job training, counseling, job development, and job placement. Individualized services to clients are provided directly by the local agencies or through contracts or other agreements with local school systems, vocational training institutions, or private employers.

#### 4. PRIORITIES FOR SERVICE.

Priority is placed in each program upon services to those individuals who face serious barriers to employment with special emphasis directed to serving school dropouts, welfare recipiants, and economically disadvantaged youth. The primary goal for all programs serving adults is acquisition of unsubsidized employment, while for youth the major goal is the development of behavioral competencies to obtain employment. Winimum performance standards for each program are astablished annually by the U.S. Secretary of Labor concerning entered employment rates for participants served and costs per perticipants served.

Small setacides of funds under JTPA are also administared by the Department to serve:

- 1. aconomically disadvantaged older workers:
- 2. promote cooperative efforts with public education institutions in serving disadventaged youth and adults; and
- 3. to provide incentive grants to organizations that exceed required parformance outcomes.

### 5. INTER-DEPARTMENTAL COORDINATION.

Department of Educational and Cultural Services.

Department of Human Services including Bureau of Rehabilitation, Bureau of Social Services, Bureau of Income Meintenance, Bureau of Maine's Eldarly.

State Development Office.

# 6. POLICY ISSUES.

Coordination and articulation of Federal and State resources and programs to provide training and employment opportunities for the economically disadvantaged are goals of JTPA. Clear and definitive roles and responsibilities of Human Service, Education, and Department of Labor units that mesh together the flexibilities and legislative restrictions of various programs to serve mutual clients are under review by the Maine Human Resource Develoment Council. In addition, the growing problem of worker and the rapid growth of the service sector raise great need for policy and strategies that more closely align training and retraining efforts with economic development activities in the State.

This page is blank by design. See Page 61 for budget breakdown.

### SUMMARY 68 CONTINUED: MAINE TRAINING INITIATIVE; ADMINISTRATIVE BY THE DEPARTMENT OF LABOR

#### 1. PROBLEM STATEMENT.

Increasing needs among Maine's employers and workers cannot be met appropriately by programs under the Joba Training Pertnership Act (JTPA).

Eligibility and program restrictions hamper the afforts of Private Industry Councils (PIC's) and their Service Providers. To increase funding and needed flexibility to this system, the Legislature pessed L.D. 1275, AN ACT to Enhance the Job Training Partnership Act, also known as the Maine Training Initiative (MTI).

# 2. PURPOSES/GOALS/EXPECTED OUTCOMES.

The MTI provides for increesed flexibility to Private Industry Councils in serving businesses and individuals in mead of training assistance by making additional funds available, by targeting broader groups of individuals and businesses than under JTPA, and by allowing more verieties of services than under JTPA.

# 3. SERVICE PROVIDED.

Service provided includes all those mentioned above under JTPA.

#### 4. PRIORITIES FOR SERVICE.

Priorities for service are listed in the text of L.D. 1275. They include service to the unemployed, low income individuals, the working poor, displaced workers, individuals with employment difficulties such as lack of advancement opportunities, individuals who face the threat of Job Lose, persons who are technically ineligible for JTPA and others with traditional berriers to employment. Priorities for service to employers include employers with Job openings, employers who lack training resources, employers in expending industries and employers who have durable occupations. Additional priorities are developed by individual Private Industry Councils.

### 5. INTER-DEPARTMENTAL COORDINATION.

Coordination with other organizations is achieved through engoing cooperative agreements, both formal and informal, in place with each Private Industry Council, and by continuing eversight by the Maine Human Resource Development Council (MHRDC). Major targets for coordination include aducation agencies, MHDS, economic development groups, Maine Job Service, and other amployment and training agencies.

# 6. POLICY ISSUES.

L.D. 1275 is an outgrowth of concern over a changing aconomy and labor force and Maine's restricted employment and training resources. L.D. 1275 constitutes the State's direct involvement in employment and training through the JTPA system. The effect of this law on the system's capacities, and the effect of these capacities on the changing work force needs, remain to be evaluated by the Legislature and amployment and training professionals.

MAINE STATE HOUSING AUTHORITY

### 1987 Maine Social Services Report

# SUMMARY 6C: MAINE STATE HOUSING AUTHORITY

- 1. PROBLEM STATEMENT Incomes in Meine are below the national everage; the estimated median household income in 1985 is \$23,038. Population and household formation grow during the 70's. Average income barely doubled while housing costs more than tripled. The housing stock is the oldest in the nation. Many Maine people pay 35% or more of their income for housing. Affordability and evailability create severa strains on Maine people's ability to obtain and maintain decant shalter.
- 2. MISSION The Maine State Housing Authority (MSHA) is Maine's housing finance agency and local housing authority for those communities without an authority of their own. The purpose of MSHA is to provide lower interest loans for a wide variety of programs to help meet Maine's low and moderate income housing needs, and administer on behalf of the state federal housing programs.

#### 3. SERVICES PROVIDED

Homeownership — Through proceeds from the sale of tax-exempt bonds and the State's HOME fund, the home purchase program provides lower interest rate mortgage loans to low to moderate income first-time homebuyers. Home Improvement and Energy Conservation loans are provided when funds are available either through bond sales or other federal programs. Host energy conservation programs have been financed from federal oil overcharge funds, while home improvement loans use tax-exempt bonds and the HOME Fund. With the Fermers Home Administration (FmHA), the MSHA offers a Rurel Housing Preservation Grant to make improvements to homes of low-income people.

Multi-Family Programs — The Rental Loan Program uses MSHA tax exempt bonds and HOME funds to make low-interest mortgage loans for new rental housing. New low income rental housing also is provided through the MSHA/FmHA Rural Housing Program, which combines rental assistance from the MSHA HOME Fund with FmHA 1% mortgage loans. The Rental Rehabilitation Program is used to rehabilitate sub-standard rental housing for low-income taments. Both a state and faderal program are available. HOME Funds are used to reduce rents in the state program, while faderal rental assistance certificates or vouchers are provided for units rehabilitated through the faderal program. The MSHA has made available about 2,000 faderal rental assistance or vouchers, which are used to provide rental assistance to low-income terrants in privately-owned apartments. Tenents with certificates or vouchers, and those Living in units financed through the federal Section 8 New Construction and Moderate Rehabilitation programs pey no more than 30% of their income for housing. (The letter two programs are no longer adding new units.) The MSHA's New Housing Initiative Program provides grants or loans from the HOME Fund for innovative housing proposals, or to lavarage other housing funds.

Special Housing Programs — The MSHA finances homeless shelters in the state from its HDME Fund. The PATH program was developed to use rental assistance certificates to provider longer term housing for the homeless. The MSHA uses bond financing to provide low interest rate mortgage loans for boarding care facilities for the developmentally disabled and the mentally ill. A special demonstration program is helping make homes and apertments more accessible for persons with disabilities. The MSHA finances congregate care units for the elderly.

4. PRIORITIES FOR SERVICE - Housing needs for low and moderate income persons.

#### 5. INTER-DEPPARTMENTAL COORDINATION

- A. Congregate housing and accessory apertments in cooperation with the Bureau of Maine's Elderly.
- B. Group homes for developmentally disabled in conjunction with Department of Human Services, Bureau of Health, Bureau of Mental Health, Bureau of Mental Retardation and Bureau of Rehabilitation.
- C. Energy programs in conjunction with the Office of Energy Resources.
- D. Caprehensive Homeless Assistance Plan with the Department of Human Resources, Bureau of Mental Retardation, Stata Planning Office, Department of Education and Department of Labor.

# 8. POLICY ISSUES.

- A. More decent affordable housing.
- B. Homelessness.
- C. Rehabilitation for existing structures.
- D. Housing for special nead populations.

DEPARTMENT OF CORRECTIONS

Page 65

#### 1987 Social Services Report

# SUMMARY 6D: SOCIAL SERVICES BY THE DEPARTMENT OF CORRECTIONS

#### 1. PROBLEM STATEMENT.

To enable the development, expansion and improvement of correctional programs throughout the State and to encourage participation in such programs by persons, unincorporated associations, charitable non-stock corporations, local and county governmental units, and state agencies,

#### 2. MISSION-SYSTEM-PHILOSOPHY-EXPECTED DUTCOME STATEMENT.

To provide or assist in the provision of correctional services throughout the State and for that purpose may cooperate with persons, unincorporated associations, charitable non-stock corporations, municipalities and other governmental units and other state agencies; to promulgate and enforce rules and standards for the administration of all services delivered and appropriately funded.

### 3. SERVICES PROVIDED.

To provide or assist in the provision of correctional services relating to all facets of rehabilitation and community life adjustment, but the services shall be limited to: [1] services to the courts; [2] pre-delinquency services; [3] diversionary services; [4] pre-release and helfway house services; and [5] after-care and post-release services.

## 4. PRIORITIES FOR SERVICE.

Traditionally, the Department of Corrections' mission has been to protect society from some of its clients, to protect some of its clients from themselves, and to provide custody, supervision and rahabilitation for those considered in need of correctional programs. Also, the establishment of the Alcohol Pramium Law and consequent availability of necessary monies, has enabled the Department of Corrections to more conscientiously identify and to specifically address the alcohol and drug prevention and treatment needs of its clients and their families.

#### 5. GOALS AND OBJECTIVES.

The Department of Corrections attempts to assure that:

- A. high quality correctional services are provided in Maine's correctional facilities;
- B. modern, comprehensive correctional services are implemented throughout the State:
- C. the public is protected from those within the corrections system who display incorrigible traits;
- D. that efforts be made, whenever possible, to offer rehabilitative services to community-based corrections clients.

# 8. POLICY ISSUES.

That correctional services be developed, expanded, or approved through the provision of direct services by the Department or through fund-raising from the Department to persons and other antities for the provision of services relating to all areas of rehabilitation and community life adjustment. These services to be limited to correctional institutions, courts, pre-delinquency services, diversionary services, pre-ralease and helfwey house services, and after-care and post-release services.

\*The Alcohol Services money provides alcohol programs to correctional clients who have been identified as having problems with alcohol. Counseling and referral services are now provided at the institutions and pre-ralease centers operated by the Department of Corrections. The Division of Probabion and Parole and Juvanila Intake have referral and emergency placement services provided with these funds. The Division of Juvanila Intake provides an aducation program dealing with alcohol for those juvanilas in the community identified as having an alcohol problem.

\*\*The Community Correctional Services account is being utilized to partially contract over 20 programs that are currently providing vary valuable and crucial services to community correctional clients. These contracts are part of a system that promotes the community aspect of corrections in order to reduce the med for institutionalization and in order to reduce overcrowding at our correctional facilities. This program was established by the 107th Legislature in 1875 to enable the development, expansion and improvement of correctional programs throughout the state and to encourage participation in such programs by non-profit corporations, local and county government units. Since the incaption of the program, the Department of Corrections has cooperated with various community agencies for the provision of such services relating to all facets of rehabilitation and community life adjustments. These include services to the courts, pre-delimpuoncy services, diversionary services, pre-release and half-way house programs, as well as after-care and post-release services. With the new Adult and Juvanile Codes implemented a few years ago, the caseload at the institutional level, Probation and Juvanile Intake, has greatly increased the number of clients in need of elternative services. These services offer to the Department of Corrections and judges options other than incorrection within state and county facilities.

DEPARTMENT OF EDUCATIONAL AND CULTURAL SERVICES

## 1987 Social Services Report

# SUMMARY 6E: DEPARTMENT OF EDUCATIONAL AND CULTURAL SERVICES: THE PRESCHOOL COORDINATION SYSTEM FOR INFANTS AND CHILDREN WITH SPECIAL NEEDS

## 1. PROBLEM STATEMENT.

In Maine, services for special needs infants and preschool children are provided by many individuals, state and local government agencies, and private organizations. The 0 - 5 coordination system was developed to create a statewide delivery system for services by coordinating the efforts of these various public and private providers, acting in partnership with parents.

### 2. MISSION.

A coordination sits serves as a local resource to its residents, reflecting the commitment of the community in these activities. The active participation of respresentatives from the private and public sector, including those from the Department of Mantal Health and Mantal Ratardation, the Department of Human Services, and the Department of Educational and Cultural Services, provides a supportive and collaborative resource for families. Parents and providers work together, not only benefitting individual children, but also in advocating for the improvement of all services for children with special needs and for their families.

# 3. SERVICES PROVIDED.

The sites act:

- \* as a central point of referral in the community where parants, health professionals, educators, and providers can turn when they have questions about the physical, mental, emotional, or social development of a young child;
- \* to help identify the special strengths and needs of infants and young children, and then work with appropriate providers to develop individualized, appropriate programs that are responsive to those needs and strengths;
- \* to facilitate a smooth transition into public school for families with children receiving early intervention services.

# 4. PRIORITIES FOR SERVICE.

The sites serves

- \* handicapped and at-risk infants and children, ages 0 5;
- \* parents of children O through five who have concerns about their child's development;
- \* the community at large when it requests information about the special needs of young children:
- \* providers of services for preschool handicepped children in the ongoing development of coordination, services or resources, and training.

## 5. INTER-DEPARTMENTAL COORDINATION.

Management of this program is the responsibility of the Interdepertmental Coordinating Committee for Preschool Handicapped Children, which includes representatives from the Departments of Educational and Cultural Services, Human Services, and Hantal Health and Mantal Reterdation, as well as perents, MADSEC, Headstart, the Developmental Disabilities Council, and AYCSN.

# 6. POLICY ISSUES.

How can an adequate range of services and a sufficient amount of services be provided to the expanding population of infents and preschool children with special needs under P.L. 89-457, toward an interdepartmental mendate to comply with federal law by 1890-91?

How can procedures be implemented for acquiring already identified resources to support the increased demand for direct services, the expansion to statewide coverage, and the addition of zero to three population?
