| 972 | AN ACT TO REQUIRE LEGISLATIVE APPROVAL OF REGIONAL RADIO-ACTIVE WASTE FACILITIES | Shute | OTP-ND |

Enacted in New Draft as LD 1738 (PL 1983 c. 500)

SUMMARY: This bill requires legislative approval of the establishment of any low-level radioactive waste storage or disposal facility within the State.

Any person intending to construct or operate such a facility must file preliminary notice with the Department of Environmental Protection and the municipality, and then a full application with the Board of Environmental Protection under the site location of development laws, Title 38, section 481. The board is then required to hold public hearings. Any person who resides within the State is entitled to be heard, and this right to be heard does not automatically confer party status. The municipality is allowed to appoint 4 voting representatives to the board, as is the case for commercial hazardous waste facilities. After the hearings, the board has 90 days to deny permission, or recommend that the Legislature
