This document is a compilation of the bill summaries prepared by this office for the Joint Standing Committees of the Maine Legislature, covering the First Regular Session of the 112th Legislature. The summaries are arranged by LD number and indexed separately by committee.

The bill would have prohibited drilling any water supply wells within 150 feet of any existing water supply well owned by a person other than the owner of the proposed well. 3. special restrictions on forest campfire permits issued to Maine guides,
4. the status of forest fire control vehicles as "emergency vehicles".

The bill also allows the Department of Conservation to designate backcountry campsites for which litter baskets will not be required.
