SUMMARY:

This is a new draft of LD 200 to clarify the intent of the original bill. The bill and new draft eliminate the overlap between LURC and DEP in the enforcement of road construction standards in management districts in unorganized areas. Under previous law LURC established the standards, but DEP enforced them under the Site Law. Henceforth, LURC will be solely responsible for the review of road construction in unorganized areas. A permit will be required for roads covering more than 3 acres which are built in management districts, unless they are constructed and maintained in accordance with LURC's Handbook on "Erosion Control on Logging Jobs."
