SUMMARY:

This bill is a new draft of LD 837. The original bill would have required the OER to adopt minimum energy efficiency standards by June 1, 1986 covering oil, gas and electric hot water heaters, gas and oil furnaces, freezers and refrigerator-freezers. After June 1, 1987 no new appliance could be sold or installed in the State unless it was in compliance with the standards.

The new draft establishes in law (rather than by OER rule) minimum energy efficiency standards for new gas and electric hot water heaters, gas furnaces, freezers and refrigerator-freezers. After January 1, 1988 it will be unlawful to sell or install any of those appliances which are not in compliance with the standards established in the new draft.
