LD 1568 AN ACT CONCERNING THE TAKING OF SMELTS. PL 1987 c. 173

Sponsor: LOOK, Rice, Brawn
Committee Report: New Draft of LD 770

SUMMARY: The original bill would have legalized variances in smelt regulations to allow for more flexible regulation of the fishery. Several rivers have adjusted seasons and harvest methods that were allowed through Private and Special Laws adopted in the 1930s and 1950s. As a result of a Department reorganization and recodification of the statutes, the Private and Special Laws were adopted as regulations. These regulations are superceded by a statutory statewide season that specifies the fishing method and dates.

The new draft repeals the statutes concerning smelt. The committee felt it was counter productive to have statutes that can be superceded by the commissioner's regulations and if the fishery needs more flexible management then it should all be done through regulation.
