Committee Report: New Draft of LD 151

SUMMARY: The original bill proposed a variety of major changes to the Department of Environmental Protection including:

1. Making the commissioner an ex-officio member and chairman of the Board of Environmental Protection,
2. Subjecting all departmental rules to legislative review and enactment,
3. Requiring that all departmental policies be adopted through rule-making, and
4. Requiring that an "objective" project summary without staff recommendations be given to the board prior to board decisions.

The new draft deleted all the proposed changes and instead, substituted a provision that allows a source of sulfur dioxide air pollution to exceed the ambient air quality standards for sulfur dioxide once per year.

Sponsor: HOLLOWAY  
Committee Report: New Draft of LD 184

SUMMARY: The original bill set a statutory term of five years for all air emissions licenses. The new draft modified this to allow the Board of Environmental Protection to set shorter terms for air emissions licenses for waste incinerators, sources using innovative control technologies and for new sources of air pollution.
