#### An Act to Regulate Water Utilities LD 8

OTP-AM

PUBLIC 52 EMERGENCY

SPONSOR(S) KANY CARTER JOSEPH GWADOSKY

COMMITTEE REPORT AMENDMENTS ADOPTED S-31

#### SUMMARY

The bill originally sought to require Public Utility Commission approval of rate increases by water districts of more than 50% of annual operating revenue, caused in part by the requirements of the federal Safe Drinking Water Act. As amended (S-31) the bill requires all water utilities to provide the commission, the utility's customers and the Department of Human Services with information concerning any proposed construction or modification of its water system caused by the federal Safe Drinking Water Act which will result in increases in rates of more than 50%. The information must include preliminary engineering estimates of both the utility's proposed water system construction or modification and the utility's next best alternative. The commission is given authority to investigate rate increases by a water utility of more than 50% upon petition by 15% of the utility's customer's or 500 customers, whichever is less.

#### **SUMMARY**

The bill would have required the director of consumer assistance at the Public Utilities Commission to approve or deny any disconnection of electric or gas utility service between November 1 and March 31. Any termination or disconnection from September 1, 1989 to the effective date of the Act (had it been enacted) would have had to have been re-served or reconnected at no cost to the customer if the customer was receiving certain benefits.
