**LD 693 An Act to Amend the Law Pertaining to the State's
Contribution to Pollution Abatement**

ONTP

SPONSOR(S)	COMMITTEE REPORT	AMENDMENTS ADOPTED
MARTIN J MICHAUD POWERS KANY	ONTP	

SUMMARY

Under laws pertaining to the state contributions to pollution abatement projects, the Department of Environmental Protection is permitted to pay up to 50% of the expense of individual projects serving seasonal dwellings or commercial establishments. Those laws require that applicants for grants for projects serving single-family dwellings or single commercial establishments include a signed statement of financial condition describing the need for the grant.

This bill proposed to amend that law to permit the department to pay up to 50% of the expense of individual projects serving commercial establishments or up to 25% of the expense of individual projects serving seasonal dwellings. These changes would have made the percentages consistent with the state contributions to residential overboard discharge replacement projects set forth in the Maine Revised Statutes, Title 38, section 411-A. This bill also proposed to remove the requirement that applicants for grants for such projects provide signed statements of financial condition describing the need for the grant. (See also LD 140)

**PUBLIC 238
EMERGENCY**

JACQUES GOULD R A LORD TITCOMB	OTP-AM	H-182 H-284 JACQUES

SUMMARY

This bill amends provisions of the Maine Revised Statutes, Titles 30-A and 38 that govern financial assistance to owners of substandard or malfunctioning wastewater treatment systems. If financial assistance is unavailable to owners of substandard or malfunctioning wastewater treatment systems following 30 days from the date of application, the owners must still comply with the state water quality classification program.

Committee amendment "A" (H-182) changes the time a person has to comply to the state water quality classification program subsequent to an application for financial assistance from a fixed period of 30 days, as proposed in the bill, to a 90-day period that is conditional upon ground conditions.

House amendment "A" (H-284) enacted a minor clarification to the bill.
