JOINT STANDING COMMITTEE BILL SUMMARIES

AUGUST 1991

This document is a compilation of the bill summaries prepared by this office for the Joint Standing Committees and Joint Select Committees of the Maine Legislature. The volume is organized alphabetically by committee; within each committee, the summaries are arranged by LD number. A subject index is provided at the beginning of each committee's summaries.

All adopted amendments are listed, by paper number (e.g., H - 584 or S - 222), together with the sponsor for floor amendments. Final action on each bill is listed to the right of the title. Various types of final action are abbreviated as follows:

These summaries were prepared by the analyst or analysts assigned to the committee. But, this document was produced by the efforts of all the office staff, including secretaries: Charlene Raymond and Valarie Parlin, and especially Laurette Knox who coordinated preparation of the overall document.

If you have any suggestions or comments on these summaries, please let us know.

Upon reconsideration, Committee Amendment "B" (H-631) was reported unanimously. It replaces the on-line, automated liquid and gaseous effluent monitoring systems required by the original bill with an enhancement of the current radiation monitoring system to allow 24-hour-per-day coverage of monitors. Fees paid by the Maine Yankee Nuclear Power Plant are increased in fiscal year 1991-92 to pay for new equipment required. This amendment also provides for a study of the adequacy of existing radiation monitoring systems in place at Maine Yankee Nuclear Power Plant.
