The volume is organized alphabetically by committee; within each committee, the summaries are arranged by LD number. A subject index is provided at the beginning of each committee's summaries.

All adopted amendments are listed, by paper number (e.g., H - 584 or S - 222), together with the sponsor for floor amendments. Final action on each bill is listed to the right of the title. Various types of final action are abbreviated as follows:

LD 894 An Act to Allow Certain Lime Quarries to Be Used for Nontoxic Disposal Sites ONTP

SPONSOR(S) **COMMITTEE REPORT** **AMENDMENTS ADOPTED**
MELENDY ONTP

SUMMARY

This bill would have required the Department of Environmental Protection to license an abandoned lime quarry for waste disposal if similar licensed facilities within 15 miles of the proposed facility did not have a significant environmental impact.

LD 896 An Act to Compensate Landowners for Property Value Losses Due to Wetlands Regulation ONTP

SPONSOR(S) **COMMITTEE REPORT** **AMENDMENTS ADOPTED**
SKOGLUND ONTP
GOULD R A
CARROLL J
POWERS

SUMMARY

The bill would have provided a mechanism to compensate landowners for the property value losses incurred as a result of regulation under the wetlands portion of the natural resource protection laws.

LD 918 An Act Relating to the Computation of Flow for Wastewater Discharges PUBLIC 159

SPONSOR(S) **COMMITTEE REPORT** **AMENDMENTS ADOPTED**
LORD OTP-AM H-167
LUDWIG
THERIAULT
GOULD R A

SUMMARY

The original bill would have allowed the Department of Environmental Protection to determine the assimilative capacity of a water body for any pollutant with a flow rate other than the traditional and statutorily required "7Q10" flow, the average seven day low flow that has a probability of occurring once in a ten year period. Committee amendment "A" (H-167) limited the use of this option to determinations regarding the impact of toxic substances regulated under 38 MRSA §420. Both the original bill and the amendment require the alternative flow rate to be "consistent with the risk being addressed".

LD 920 An Act to Amend the Laws Relating to Submerged Land PUBLIC 430

SPONSOR(S) **COMMITTEE REPORT** **AMENDMENTS ADOPTED**
DIPIETRO OTP-AM H-433
MICHAUD

SUMMARY

The original bill would have returned submerged lands lease rates for marinas to levels that were in effect before 1990. The bill also would have prohibited any change in these rates without the consent of the lessee.
