#### SUMMARY

This bill required employers in the State who receive economic subsidies from the State to give a hiring preference to their existing employees whenever new employment positions are created by the employer. The bill required the employer to hire an existing employee if that employee is qualified to do the job and no better qualified applicant exists. The preference could not, however, conflict with any collective bargaining agreement applicable to the employer.

Committee Amendment "A" (S-230) removed investment tax credits from the definition of economic subsidies and added a fiscal note.
