LD 1434 An Act to Amend the Law Regarding Assessment of Insurers and License Fees under the Insurance Law

PUBLIC 334

SPONSOR(S)	COMMITTEE REPORT	AMENDMENTS ADOPTED
GARLAND BRAWN THERIAULT PINEAU	OTP-AM	H-352

SUMMARY

Current law requires the Bureau of Insurance to notify each insurer, self-insurer or nonprofit hospital or medical service organization of the assessment due on or before April 20th of each year. However, all fiscal requirements mandated by the Legislature are not known by that date. This bill changes the notification date from April 20th to July 1st so that accurate assessments can be made in a timely fashion.

The bill also clarifies current law to allow the cap on the assessment to be calculated for the biennial period. Currently, because revenues from licensing fees are much greater in the first year of the biennial period, the cap may be exceeded during the 2nd year but is below the cap in the first year.

The bill also makes the recalculation assessment provision for self-insurers consistent with the assessment provisions for other insurers, adjusts the license fee schedules to be consistent with other states and adjusts for an anticipated drop in revenues.

Committee Amendment "A" (H-352) adds a fiscal note to the bill.

LD 1437 An Act to Amend the Workers' Compensation Insurance Laws to Encourage Safety in the Workplace

ONTP

SPONSOR(S)	COMMITTEE REPORT	AMENDMENTS ADOPTED
CONLEY TAMMARO TRACY	ONTP	

SUMMARY

This bill establishes the Safety Pays Program to provide a direct and immediate incentive for employers to maintain safe workplaces and to reward those employers who do so. Under the program, an employer may request that the employer's insurance carrier conduct a safety inspection of the employer's workplace. If the inspection determines that the workplace is safe, according to standards adopted by rule of the Superintendent of Insurance, the insurer has the right to conduct a 2nd surprise inspection at any time during the remainder of the policy year. If that inspection once again finds the workplace to be safe, or if the insurer fails to perform a 2nd inspection, the employer is entitled to receive a 10% rebate of the workers' compensation insurance premium paid during that policy year. If serious safety deficiencies are found during the first inspection, the insurance carrier is required to report those deficiencies to the manager of the workplace, who is allowed a 4-week period in which to correct the deficiencies. If, at the end of the 4-week period, the insurance carrier finds that the deficiencies have not been corrected, the insurance carrier is required to report these deficiencies to the federal Occupational Safety and Health Administration and the Bureau of Labor Standards. The purpose of this bill is to reduce workplace injuries by encouraging greater safety in Maine workplaces and to reward those employers who succeed in providing a safe workplace.
