COMMITTEE REPORT
LV/WD

AMENDMENTS ADOPTED

SUMMARY

This bill would have prohibited clear-cutting over sand and gravel aquifers that are used for public drinking water supplies. It also would have required forest management plans for clear-cuts to be filed with the municipal reviewing authorities or the Maine Land Use Regulation Commission and the county commissioners. Municipalities would have been notified of any clear-cuts within their jurisdiction. Exemptions from the natural resources protection laws would have been narrowed to exclude forested wetlands that are associated with wetlands, great ponds or sand and gravel aquifers that are used for public drinking water supplies.
