AMENDMENTS ADOPTED
H-585

SUMMARY

To encourage participation of owners and operators of churches, hospitals, grocery stores, supermarkets, neighborhood variety stores and other private business in municipal and regional association recycling programs and to assist municipalities in meeting the state goals, this bill relieves these parties of liability for property damage and personal injury caused by the collection or separation or both of materials on their premises when these parties use containers owned or provided by a municipality or regional association, have entered into agreements with the municipality or regional association to undertake these "recycling activities" and are not receiving payment for those activities. The exception to the general rule of immunity is for willful or malicious failure to guard against a dangerous condition on the premises that is related to the recycling activities.

Committee Amendment "A" (H-585) replaces the bill. It clarifies the scope of the bill by limiting the definition of premises to the improved and unimproved lands upon which recycling activities are conducted. The owner, lessee or occupant of the premises is not liable for personal injury, death or property damage caused by recycling activities within 20 feet of the recycling containers. In addition, this amendment specifically recognizes that a container used in the provision of recycling activities is "other machinery or equipment, whether mobile or stationary," for which the municipality or regional association that owns the container is liable under the Maine Tort Claims Act. The limited liability applies only to those land owners, lessees or occupants who receive no remuneration for allowing the containers on the property. The amendment retains the emergency preamble and clause, and adds a repeal date of July 15, 1994.
