AMENDMENTS ADOPTED
H-517

SUMMARY

The State's growth management laws require a municipality to submit zoning ordinances to the State for review and comment one year after submission of its comprehensive plan. Under the State's growth management laws, existing comprehensive plans not consistent with the provisions of this bill become invalid 6 months after the date the plan must be submitted to the State for review and comment. This invalidation of the plan also puts the legal validity of any existing zoning ordinance in jeopardy.

This bill, as amended by committee amendment "A" (H-517), expressly extends the validity of an existing comprehensive plan for an additional 6 months and the existing zoning ordinance for at least 12 more months, giving the municipality time to adopt a plan consistent with the provisions of this bill and propose amendments to the zoning ordinance to make it consistent with the new plan.

This bill, as amended, allows a municipality to request an extension of up to 6 additional months of the deadline for submission of its zoning ordinance. The Office of Comprehensive Land Use Planning in the Department of Economic and Community Development would be required to grant the extension if it determined that the municipality was attempting, in good faith, to comply with the requirements of the laws.
