H-435 MELENDY

SUMMARY

The original bill sought to balance the need for accountability with the privacy rights of applicants for state or local economic development assistance and to encourage submission of proposals that would benefit the municipality or the state. Under current law, the Department of Economic and Community Development and municipalities may be required to disclose personal financial information of applicants for state or local economic development assistance. The bill protected personal information, such as tax returns or financial statements, from public disclosure when submitted under a state or local program for housing, community or economic development. Certain competitive business information was also protected.

Committee Amendment (H-435) provided further detail concerning the kinds of material to be held confidential under the Maine Revised Statutes, chapter 383, subchapter VIII. That material includes records obtained or developed by the Department of Economic and Community Development or a municipality in connection with monitoring or servicing a program of assistance; records obtained by the department or a municipality that contain a credit assessment of a person or project; and any records obtained or developed by the department or a municipality concerning the matching of potential investors with Maine businesses by the department or the municipality.

LD 1874 An Act to Amend and Extend the Fuel Assistance Reserve Fund

COMMITTEE REPORT

AMENDMENTS ADOPTED

SUMMARY

This bill would have extended the Fuel Assistance Reserve Fund, established in 1990, for one year and renamed it the Energy Assistance Reserve Fund to more appropriately describe the uses of the fund. The bill would have allowed the fund to be used for the energy crisis intervention program, which assists families in emergency situations, as well as for the payment of regular fuel assistance benefits. The bill would have allocated \$8,000,000 to the Division of Community Services for recapitalizing the Energy Assistance Reserve Fund. The fund would have been used as start-up funding for the fuel assistance program only if federal block grant funding was not received by October 1st. If the fund had been used, the division would have been required to recapitalize the fund by June 30, 1992.
